**China's Economy Looks Toward the Year 2000: Economic openness in modernizing China**, 1986 **China's Economy Looks Toward the Year 2000**, 1986 China Looks at the West Christopher A. Ford, 2015-07-28 Chinese leaders have long been fascinated by the US but have often chosen to demonise America for perceived cultural and military imperialism Especially under Communist rule Chinese leaders have crafted and re crafted portrayals of the US according to the needs of their own agenda and the regime s self image Christopher A Ford investigates what these depictions reveal about internal Chinese politics and Beijing s ambitions in the world today *A Look at the Exchange Activities of the People's Republic of China* United States Information Agency. Office of Research, 1977 **China's Economy Looks Toward the Year 2000: The four modernizations** United States. Congress. Joint Economic Committee, 1986 **China's Economy Looks Toward the Year 2000: The four modernizations**, 1986 **The South China Sea: A Look into China's Modern Times Maritime Silk Road and Its Geopolitical Implications** Fritz Dufour, Linguist, MBA, DESS, 2017-07-08 Westward expansion has always been more important to China than eastward expansion because except for the Korean peninsula and Japan China is looking at the vast Pacific Ocean The west has always been and continues to be China s lifeline China has come a long way Civilizations rise and fall They come and go But the Chinese civilization is one of the oldest and most stable The Chinese engaged in world trade way before America was even discovered They did that thanks to the Silk Road which was an ancient caravan route linking Xi an in central China with the eastern Mediterranean It was established during the period of Roman rule in Europe and took its name from the silk which was brought to the west from China Although trading with the West was quintessential China has always sought to retain their own economic model When the four leading powers of the West England France Spain and Portugal decided to build their politico economic empires on triangular trade or face failure China was thriving as it had been for millennia But World War II dealt a serious blow to China s economy as the United states emerged as the only superpower on both the political and economic levels and put shortly after a policy of containment towards China That along with past failures exacerbated if not China s resentment at least its mistrust towards the West and especially towards the United States **Looking West. The Rise of Asia in the Middle East** Valeria Talbot, Ugo Tramballi, 2020-09-09 As the world s economic and political centre of gravity moves increasingly towards East and South Asia we can expect a number of countries in these regions to devote more attention to the Middle East The relations between East and South Asia and the Middle East have significantly expanded as a result of the global rise of Asian economic powers particularly China India Japan and South Korea Not only oil but also trade investment infrastructure and tourism is the name of the business with the MENA region Beyond energy and economic interests questions arise about the potential geopolitical dimension of these evolving ties What are the strategic implications of the projection of Asian countries in an unstable fragmented and volatile region How do they interact with each other and with

other international players Last but not least will the Covid 19 pandemic be a game changer in re shaping relations in the future

*A Look at China and Sino-Belarus Cooperation* Kiryl Rudy,2021-01-08 This book is simultaneously a scientific study a practical guide and diplomatic memoir about the new era in China s development which began in 2013 with Xi Jinping coming to power It explores the modern Chinese experience of the political centralization of power the fight against corruption strengthening the country s defense system reinforcing the country s diplomacy the political rapprochement between China and Russia and exacerbation of relations with the United States It also considers issues of China s adjusting its policy of reforms and its openness to a new era transforming inefficient state owned enterprises building an IT focused country and overcoming phobias in the construction of the Belt and Road initiative related to the debt trap and the trade deficit as well as the role of the Huawei Corporation A separate section of the book is devoted to Belarus China relations exploring the reasons for the political rapprochement between these two very different countries
