Looking At Senses:

Ritual, Performance and the Senses Jon P. Mitchell, Michael Bull, 2015-02-26 Ritual has long been a central concept in anthropological theories of religious transmission. Ritual Performance and the Senses offers a new understanding of how ritual enables religious representations, ideas, beliefs, values to be shared among participants. Focusing on the body and the experiential nature of ritual, the book brings together insights from three distinct areas of study: cognitive neuroanthropology, performance studies, and the anthropology of the senses. Eight chapters by scholars from each of these sub-disciplines investigate different aspects of embodied religious practice, ranging from philosophical discussions of belief to explorations of the biological processes taking place in the brain itself. Case studies range from miracles and visionary activity in Catholic Malta to meditative practices in theatrical performance, and include three pilgrimage sites: the Church of the Holy Sepulchre in Jerusalem, the festival of Ramlila in Ramnagar, India, and the mountain shrine of the Lord of the Shiny Snow in Andean Peru. Understanding ritual allows us to understand processes at the very centre of human social life and humanity itself, making this an invaluable text for students and scholars in anthropology, cognitive science, performance studies, and religious studies.

On the Epistemology of the Senses in Early Chinese Thought Jane Geaney, 2002-01-01 By departing from traditional sinological approaches, this method uncovers a detailed picture of certain shared underlying views of sense perception in the Lun Yu, the Mozi, including the Neo Mohist Canons, the Xunzi, the Mencius, the Laozi, and the Zhuangzi. Synaesthesia and the Ancient Senses Shane Butler, Alex Purves, 2014-09-03 Like us, the ancient Greeks and Romans came to know and understand the world through their senses. Yet sensory experience has rarely been considered in the study of antiquity, and when the senses are examined, sight is regularly privileged. *Synaesthesia and the Ancient Senses* presents a radical reappraisal of antiquity's textures, flavours, and aromas, sounds, and sights. It offers both a fresh look at society in the ancient world and an opportunity to deepen the reading of classical literature. The book will appeal to readers in classical society and literature, philosophy, and cultural history. All Greek and Latin is translated, and technical matters are explained for the non-specialist. The introduction sets the ancient senses within the history of aesthetics, and the subsequent essays explore the senses throughout the classical period and on to the modern reception of classical literature. Fiona Macpherson, 2011-06-09 A Collection of Classic and Contemporary Articles on the Philosophy of the Senses *Looking After Your Autistic Self* Niamh Garvey, 2023-03-21 I no longer try to mask my autism. I now work to support my autism. It is a myth that autistic children grow into less autistic adults. In fact, many autistic adults feel more overwhelmed as they age as the stresses of social demands, such as relationships, parenting, or the work environment, increase. Niamh Garvey offers tips and tricks designed to reduce sensory and emotional stress and look after your autistic self. From understanding what's happening when the stress response kicks in to using the detective habit to spot your individual strengths and triggers, what's more, every element of this book can be personalised to you. Featuring strategies including quick calm plans for managing

triggers and lived experience advice on understanding emotional regulation coping with sensory overload and how to look after your senses during intimacy this guide is here to ensure that you don't just survive adulthood you thrive in it **The Pragmatics of Governmental Discourse** Ayan-Yue Gupta,2024-08-02 This book presents a novel methodological framework for analysing governmental discourse It involves combining pragmatist perspectives on language with computational sociolinguistics and large language models LLMs The first half discusses traditional critical approaches to investigating discursive practices principally those employing Critical Discourse Analysis CDA and those based on methods developed by Michel Foucault These are critiqued in terms of pragmatist views on meaning which are rarely taken up in this area It is argued that to understand the grounding of social structures and power relations in discourse we must begin with a systematic account of how meaning is contextually fixed It is proposed that a pragmatist reading of Foucault's arguments about governmentality offers a productive framework for discourse analysis To illustrate the advantages of this framework the book presents a case study of the British government's adoption of resilience sustainability and wellbeing discourses in the period 2000-2020 A dataset of 179 million tokens sampled from approximately 170 000 government documents is used to illustrate how this framework can be combined with natural language processing NLP to make robust inferences This study will be of interest to both sociologists interested in language and in the methodological potential of recent developments in NLP Importantly the book demonstrates how LLMs can be harnessed to bring new perspectives to long standing sociological questions *The Five Senses of Man* Julius Bernstein,1876 **Literacy through Creativity** Prue Goodwin,2012-09-10 This is a fresh and practical approach to examining the way in which creative arts can be used in the classroom to enhance the learning of literacy in the primary school It includes case studies and activities that clarify the role of creativity in the literacy teaching and advises how to help develop teaching skills This is a must have text for teachers who seek to make literacy learning interesting and fun Sibley:approach to Aesthetics C , **Agency, Freedom, and Moral Responsibility** Andrei Buckareff,Carlos Moya,Sergi Rosell,2016-04-29 In recent years there has been a resurgence of interest in problems related to human agency and responsibility by philosophers and researchers in cognate disciplines The present volume brings together original contributions by leading specialists working in this vital field of philosophical inquiry The contents represent the state of the art of philosophical research on intentional agency free will and moral responsibility The volume begins with chapters on the metaphysics of agency and moves to chapters examining various problems of luck The final two sections have a normative focus with the first of the two containing chapters examining issues related to responsible agency and blame and the chapters in the final section examine responsibility and relationships This book will be of interest to researchers and students interested in both metaphysical and normative issues related to human agency
