## Looking Through The Window:

*Looking Through Windows* Kristin Carter Rowe, 2012-02-29 *Looking Through Windows* is the fictional story of three neighbors who for very different reasons are lonely and lost but ultimately rediscover themselves when their lives become mysteriously entangled in a web of deceit suspicion and paranormal events Charlotte Webb is a fatigued and spiritless woman loving of her young son but disconnected from her workaholic husband Though discontent Charlotte finds solace in the mysteries of her neighbors the view from her windows serving as the buoy without which she would drown from depression Her preoccupation with spying enmeshes her into the dangerous world of her recently widowed neighbor Isabella a beautiful woman suspected of killing her husband a respected oncologist Charlotte also becomes obsessed with the curious life of her other neighbor Michael a dour man with a fascinating wife who tends to show up at the oddest times and in the most curious of ways Though it is a mystery *Looking Through Windows* is primarily a story of the windows we all look through windows of opportunity regret and even salvation      *Looking Through Water (Revised Edition)* Bob Rich, 2024-09-24 It's 1976 and William McKay is at the top of his game He's taken over the family brokerage firm He has a stunning and accomplished fiancée The NYC Chamber of Commerce has named him the Under 40 Executive of the Year And yet William knows something is missing Then he receives a phone call from his father who disappeared eleven years earlier while William's mother was dying from Alzheimer's Leo's living in the Florida Keys now and he wants William to join him in a father son fishing competition Stunned by this father's audacity suspicious of his motives but even more desperate to leave New York William agrees and heads south in his private jet      *Looking Through Images* Emmanuel Alloa, 2021-10-05 Images have always stirred ambivalent reactions Yet whether eliciting fascinated gazes or iconoclastic repulsion from their beholders they have hardly ever been seen as true sources of knowledge They were long viewed as mere appearances placeholders for the things themselves or deceptive illusions Today the traditional critique of the spectacle has given way to an unconditional embrace of the visual However we still lack a persuasive theoretical account of how images work Emmanuel Alloa retraces the history of Western attitudes toward the visual to propose a major rethinking of images as irreplaceable agents of our everyday engagement with the world He examines how ideas of images and their powers have been constructed in Western humanities art theory and philosophy developing a novel genealogy of both visual studies and the concept of the medium Alloa reconstructs the earliest Western media theory Aristotle's concept of the diaphanous milieu of vision and the significance of its subsequent erasure in the history of science Ultimately he argues for a historically informed phenomenology of images and visual media that explains why images are not simply referential depictions windows onto the world Instead images constantly reactivate the power of appearing As media of visualization they allow things to appear that could not be visible except in and through these very material devices      *Proceedings of the Board of Education of the City of Albany* Albany (N.Y.).
