Complementary and Alternative Medicine Ruth Barcan, 2020-05-26 Alternative therapies once the province of the hippie counterculture are now a mainstream phenomenon But they are more than a medical and economic sensation At once spiritual and bodily medical and recreational they are an enormously popular cultural practice bound up with the pleasure seeking drive of consumer culture as well as with spiritual and neo liberal values Complementary and Alternative Medicine critically examines this phenomenon which some denounce as the triumph of superstition over reason by asking practitioners themselves what makes these therapies so appealing

Drawing on a wealth of interviews with Complementary and Alternative Medicine CAM practitioners as well as on the author's longstanding participation in CAM culture the book provides a much needed look from both the inside and the outside of the CAM phenomenon This book is essential reading for students and scholars of cultural studies anthropology sensory studies and sociology Orange Coast Magazine ,1989-07 Orange Coast Magazine is the oldest continuously published lifestyle magazine in the region bringing together Orange County's most affluent coastal communities through smart fun and timely editorial content as well as compelling photographs and design Each issue features an award winning blend of celebrity and newsmaker profiles service journalism and authoritative articles on dining fashion home design and travel As Orange County's only paid subscription lifestyle magazine with circulation figures guaranteed by the Audit Bureau of Circulation Orange Coast is the definitive guidebook into the county's luxe lifestyle **Ceremony of Innocence** Kay Carmichael,2016-07-27 What use are tears What is their purpose In this original and disturbing book Kay Carmichael argues that we underestimate the importance of this powerful means of communication Tears are dismissed as a symbol of weakness when we should value them as a source of energy and creativity In vivid case histories based on original research she shows how why when and where human beings cry and the barriers placed in their way **The Power Behind Your Eyes** Robert-Michael Kaplan,1995-10-01 Good vision is more than the ability to see 20/20 on an eye chart Any vision problem is a message alerting us to an unbalanced inner state Eyeglasses medications and surgery may correct poor vision but they cannot correct this inner imbalance In *The Power Behind Your Eyes* Robert Michael Kaplan presents Integrated Vision Therapy a comprehensive daily program that can actually improve as well as treat the inner causes of poor vision More comprehensive than other vision care techniques Integrated Vision Therapy takes a holistic approach to identifying the causes of vision problems and developing noninvasive natural strategies for treatment including clear easy to follow exercises diets and changes in daily habits *Love Your Age* Barbara Hannah Grufferman,2018 *Love Your Age* is the ultimate guide to looking and feeling your best whether you're 45 or 65 In these colorful pages lifestyle expert Barbara Hannah Grufferman reveals more than 100 easy to adopt healthy habits empowering you to make positive choices that will lead to a longer happier life one small step at a time From health and wardrobe to work and relationships each action will steer you toward a personal goal whether it's eating better conquering menopause keeping your brain sharp or rebooting your sex life Fun innovative and practical this go to resource will inspire you to live your best life yet Work and Unseen Chronic Illness Margaret Vickers,2002-09-09 In an increasingly ageing society medicine hygiene and nutrition have reduced the impact of acute and life threatening illnesses However whilst we are living longer the chance of developing or contracting a chronic illness is increasing There are a growing number of working adults affected by chronic health conditions that may be largely invisible to those around them In this book the author explores the silent problem of unseen illness at work The author employs qualitative research methods to challenge the idea that if you look well you must be well

While demonstrating the effectiveness of this controversial methodology she uses it to expose the voices of a group of marginalized workplace actors who have hitherto remained unheard Stories from people with cancer multiple sclerosis endometriosis and other illnesses are interspersed with the author s reflections about life and work with illness that others cannot see These stories reflect a passage of trauma and marginalization but also foreground themes of survival
