Hafiz and the Religion of Love in Classical Persian Poetry Leonard Lewisohn,2010-06-02 I B Tauris in association with the Iran Heritage Foundation Love in Many Masks: as altered by J. P. Kemble, from Mrs. Behn's Rover ... The second edition Aphra Behn,1790 *Love's Oneing* Kerrie Hide,2022-11-08 Grounded in Christian love mysticism Love s Oneing gives voice to the luminous consciousness that awakens from within our oneness in God in contemplation With great sensitivity the book offers nuanced insight into the marriage of kenosis and desire in contemplation through the rich tapestry of writings from nine mystics Julian of Norwich the Cloud of Unknowing author Meister Eckhart Mechthild of Magdeburg Clare of Assisi John of the Cross Teilhard de Chardin Beatrice Bruteau and Ilia Delio With the delicate eye of a spiritual director immersed in mystical literature Kerrie Hide situates these mystical teachings within contemplative prayer whilst offering a scholarly exploration of contemplative practice to embody the insights Deeply grounded in traditional and contemporary mystical classics Hide celebrates how the Christian mystical tradition lays a foundation for the evolutionary growth of communion consciousness and the insights of quantum science highlighting key moments in contemplation that when surrendered into open into divine love Born of intellectual reflection lived experience and contemplative wisdom Love s Oneing makes a unique contribution to the existing literature on contemplation at a time when the recovery of the mystical dimension of life is crucial for the future of our planet in this climate crisis moment Love in Contemporary British Drama Korbinian Stöckl,2021-01-18 Despite the recent turn to affects and emotions in the humanities and despite the unceasing popularity of romantic and erotic love as a motif in fictional works of all genres the subject has received surprisingly little attention in academic studies of contemporary drama Love in Contemporary British Drama reflects the appeal of love as a topic and driving force in dramatic works with in depth analyses of eight pivotal plays from the past three decades Following an interdisciplinary and historical approach the study collects and condenses theories of love from philosophy and sociology to derive persisting discourses and to examine their reoccurrence and transformation in contemporary plays Special emphasis is put on narratives of love s compensatory function and precariousness and on how modifications of these narratives epitomise the peculiarities of emotional life in the social and cultural context of the present Based on the assumption that drama is especially inclined to draw on shared narratives for representations of love the book demonstrates that love is both a window to remnants of the past in the present and a proper subject matter for drama in times in which the suitability of the dramatic form has been questioned **Partners in Covenant** Barbara A. Sheehan,2010-02-01 Partners in

Covenant is a guide for the personal formation and spiritual growth of those who seek to become more effective spiritual companions Filled with concrete experiential examples and reflection tools Barbara Sheehan s resource provides a practical way for individuals or groups to enter into a peer program Her sensitivity to a wide variety of cultures and spiritual expressions enhances the book s ability to revitalize the spiritual caring ministry of Christian communities

The Immutability of God in the Theology of Hans Urs Von Balthasar Gerard F. O'Hanlon,2007-11-19 This study shows how the trinitarian theology of Hans Urs von Balthasar opens up an approach to the controverted question of God s immutability and impassibility which succeeds in respecting both the transcendence and the immanence of God Contrary to both Process thought and the classical Thomist position von Balthasar s scattered treatment is here presented thematically in a way which makes it clear that his idea of an analogous event in the trinitarian God in which we participate is a radical reinterpretation of the traditional Christian axiom of divine immutability In the course of outlining the distinctiveness of von Balthasar s approach O Hanlon introduces the reader to some of the fundamental themes of one of the major Roman Catholic theologians of this century who is still relatively unknown in the English speaking world

The Oxford Handbook of Chinese Cinemas Carlos Rojas,Eileen Chow,2013-03-13 What does it mean for a cinematic work to be Chinese Does it refer specifically to a work s subject or does it also reflect considerations of language ethnicity nationality ideology or political orientation Such questions make any single approach to a vast field like Chinese cinema difficult at best Accordingly *The Oxford Handbook of Chinese Cinemas* situates the term more broadly among various different phases genres and distinct national configurations while taking care to address the consequences of grouping together so many disparate histories under a single banner Offering both a platform for cross disciplinary dialogue and a mapping of Chinese cinema as an expanded field this Handbook presents thirty three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity all the way from the industry s beginnings in the 1920s up to its current forms in contemporary Hong Kong Taiwan and the global diaspora Chapters in Part II feature studies centered on the field s taxonomical formalities including such topics as the role of the Chinese opera in technological innovation the political logic of the Maoist film and the psychoanalytic formula of the kung fu action film Finally in Part III focus is given to the structural elements that comprise a work s production distribution and reception to reveal the broader cinematic apparatuses within which these works are positioned Taken together the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship Expertly edited to illustrate a representative set of up to date topics and approaches *The Oxford Handbook of Chinese*

increasingly full picture of women's lives at all social levels across the century. As a result, this is an appropriate moment to reflect on what we know about Scottish women during the eighteenth century, to ask how their history affects the traditional narratives of the period, and to reflect on the implications for a national history of Scotland and Scottish identity. Divided into three sections covering women's intimate, intellectual, and public lives, this interdisciplinary volume offers articles on women's work, criminal activity, clothing, family, education, writing, travel, and more. Applying tools from history, art, anthropology, cultural studies, and English literature, it draws on a wide range of sources, from the written to the visual, to highlight the diversity of women's experiences and to challenge current male-centric historiographies.
