## **Lovecentered Marriage In A Selfcentered World:**

**Love-centered Marriage in a Self-centered World** Irving Sarnoff, Suzanne Sarnoff, 1989 Considers how mates jointly create a setting for sharing love and defending against the fear of loving The authors have integrated theory and practice in their description of six desirable objectives couples can plan to attain over a lifetime *The Motives of Self-Sacrifice in Korean American Culture, Family, and Marriage* Chul Woo Son, 2014-01-24 The concept of self sacrifice is highly important to Korean Americans With hierarchy of age social status and gender defined roles taking primacy over equality and justice self sacrifice becomes instrumental in maintaining family and social relationships Unfortunately in family relationships sacrifice has more to do with submission and endurance than it does with sacrificial service that is redemptive and mutually beneficial When self sacrifice carries hidden motives coercive responsibility obligation shame guilt or one's reputation that self sacrifice is not self giving neither serving nor being of mutual benefit In this context it is important to explore the attitudes and motives of self sacrifice in Korean American families In unlocking and exploring the dynamics of the theology and practice of self sacrifice for Korean Americans this book explores cultural virtues marital relationships gender inequality domestic violence and their theological implications The author introduces a new approach and model with a proposal for a healthier and a more judicious understanding of self sacrifice for Korean American family relationships The element of equal regard as pertaining to self sacrifice offers Korean Americans a refreshing hope in the perspective of familial relationships and a liberating casting off of culturally and religiously imposed burdens The Korean American family ought to be grounded on a love ethic of equal regard and place its value on mutuality self sacrifice and individual fulfillment When this is done sacrificial love can be understood as justly appropriated for both husbands and wives males and females and parents and children Thus Christian teaching and theology may deliver a more transparent message of true agape and its liberating effects for the marginalized especially women and children

**Shifting the Center** Susan J. Ferguson, 2022-11-21 Shifting the Center Understanding Contemporary Families Sixth Edition is a popular anthology of readings used in Sociology of Family and of Marriages Families Intimate Relationship courses Editor Susan J Ferguson brings together carefully selected pieces written by leading family researchers and drawn from a variety of scholarly sources including articles from the leading family journals and excerpts from several classic book length studies She also provides background and context to help students connect the topics in the readings to the broader themes in the study of family sociology The table of contents follows the same scope and sequence as the leading family survey texts

**Intimate Creativity** Irving Sarnoff, Suzanne Sarnoff, 2002-11-05 Integrating the psychology of love and creativity this pioneering book explores both how a couple's involvement as lovers influences their creative collaboration and how working together affects their relationship Representing a variety of genres painting sculpture photography and installation art the celebrated couples profiled here include among others Christo and Jeanne Claude Elizabeth Diller and Ricardo Scofidio and Kristin Jones and Andrew Ginzel

Intrigued by this process of intimate creativity psychologists Irving and Suzanne Sarnoff themselves partners in love and work decided to conduct in depth interviews with partners in visual art because they defy the supremely individualistic tradition of their field Whatever their age or sexual orientation these artist couples combine their talents to form a collective identity as a professional team Passionately intense about their shared commitment they communicate endlessly to resolve conflicts and reach consensus Providing mutual validation and support they increase their productivity and the quality of their work they minimize their fear and frustration and enhance their pleasure in being together The authors also draw on historical and contemporary literature about similar couples ranging from Jean Arp and Sophie Taeuber to Gilbert and George to Claes Oldenburg and Coosje van Bruggen Stimulating and engaging this book highlights the features of a unique collaborative process considers the connection between creativity and sexuality and suggests possibilities for any couple to expand their intimacy Feminism and the Power of Love Adriana García-Andrade, Lena Gunnarsson, Anna

Jónasdóttir, 2018-04-17 The power of love has become a renewed matter of feminist and non feminist attention in the 21st century's theory debates What is this power Is it a form of domination Or is it a liberating force in our contemporary societies Within Feminism and the Power of Love lies the central argument that although love is a crucial site of gendered power asymmetries it is also a vital source of human empowerment that we cannot live without Instead of emphasizing either or this enlightening title puts the dualities and contradictions of love center stage Indeed by offering various theoretical perspectives on what makes love such a central value and motivator for people this title will increase one's understanding as to why love can keep people in its grip even when practiced in ways that deplete and oppress In light of such analyses the contributions within Feminism and the Power of Love present new perspectives on the conditions and characteristics of non oppressive mutually enhancing ways of loving Bridging the gap between Feminist Affect Studies and Feminist Love Studies this book will appeal to undergraduate and postgraduate students including postdoctoral researchers interested in fields such as women's and gender studies sociology political science philosophy cultural studies and sexuality studies **Jump**

Efrem Smith, 2010-09-01 Jump is a powerful guide to becoming a vehicle of compassion reconciliation and transformation in our world Life is all about jumps We jump from high school to college school to the professional world dating to marriage Each leap launches us to new levels Even though we can't see what's on the other side of the wall our faith jumps are about trusting that God is there We experience the liberation when we jump into the arms of our Savior then into a church family and then into a world desperately in need Efrem Smith presents fresh insights into how Christians can say yes to the jump that takes them deeper into a loving devotional intimate life with God **The Ideal Family and True Love as the Source of Peace**

International Educational Foundation, 2006-03 Volumes 2 and 3 in series Creating a World of Peace The Thought and Works of Sun Myung Moon **Time and Intimacy** Joel B. Bennett, 2000-11-01 There is a mysterious connection between our experiences of intimacy of love the longing to feel connected and sexual embrace and the human sense of time

eternity impermanence and rhythm In this critical analysis of the time intimacy equation Bennett shows how the scientific study of personal relationships can address this mystery As a study of transpersonal science this book points to the possible evolution of intimacy and of our consciousness of time and how the two evolutionary paths weave together Dr Bennett draws from a wide array of resources to advance and marry two compelling themes first the social and clinical science of personal relationships should integrate the spiritual or transpersonal dimension of intimacy and second science can contribute to lay understandings by describing the richly temporal aspects of relationships In blending popular literature transpersonal psychology and scientific research and theory this work also attempts to address the lack of dialogue between academics who study personal intimacy and those writers in the popular press who give advice and guidelines for building intimacy Time and Intimacy is written for a broad audience intended for those with a general interest in relationships as well as for students counselors and psychologists It can be used as a text in courses on personal relationships as well as to supplement courses in humanistic psychology transpersonal psychology interpersonal communication relationships marital and family counseling human relations and related areas Because it advances an interdisciplinary understanding of personal relationships this book is certain to challenge prevailing views about the meaning of intimacy in both the academic and popular literatures Individual Psychology ,1990 **Storying Later Life** Gary Kenyon,Ernst Bohlmeijer,William L. Randall,2010-12-20 In its brief but vigorous history gerontology has spawned a broadening range of specializations One of the newest of such specializations is narrative gerontology so named for its emphasis on the biographical or inside dimensions of the experience of aging Telling stories about our world our relationships and ourselves is fundamental to how we make meaning Everything from our history to our religion and our memories to our emotions is linked to the tales we tell ourselves and others about where we have come from and where we are going They are central to who we are The biographical side of human life is every bit as critical to fathom as the biological side if we seek a more balanced positive and optimistic perspective on what aging is about if we would honor the dignity and complexity the humanity and uniqueness of the lives of older persons no matter what their health or economic standing In this respect a narrative approach is particularly suited to the exploration of such topics as meaning spirituality and wisdom and the connections they share This volume reflects a selection of new directions and insights and constitutes a general broadening and deepening of narrative gerontology exploring its implications for theory and research in the field of aging and for the quality of life of older adults themselves Such deepening indicates a greater refinement of thought method and intervention The evolution of narrative gerontology is also evidenced by a significant increase in the number of faculty and graduate students engaged in research in this area as well as by increasing collaboration among researchers practitioners and administrators in applying narrative insights to contexts such as long term care indeed healthcare in general These initiatives have given rise to the phrase narrative care as core care The Publishers Weekly ,1917 **Imparted Wisdom in Troubled Times** Pastor Stephen
