

ALL day the heat had been barely supportable but at evening a breeze arose in the west, blowing from the heart of the setting sun and from the ocean, which lay unseen, unheard behind the scrubby foothills. It shook the rusty fingers of palm-leaf and swelled the dry

the ever present pulse of music from

**Funeral Festivals in America** Jacqueline S. Thursby, 2021-11-21 When Evelyn Waugh wrote *The Loved One* 1948 as a satire of the elaborate preparations and memorialization of the dead taking place in his time he had no way of knowing how technical and extraordinarily creative human funerary practices would become in the ensuing decades In *Funeral Festivals in America* author Jacqueline S Thursby explores how modern American funerals and their accompanying rituals have evolved into affairs that help the living with the healing process Thursby suggests that there is irony in the festivities surrounding death The typical American response to death often develops into a celebration that reestablishes links or strengthens ties between family members and friends The increasingly important funerary banquet for example honors an often well lived life in order to help survivors accept the change that death brings and to provide healing fellowship At such celebrations and other forms of the traditional wake participants often use humor to add another dimension to expressing both the personality of the deceased and their ties to a particular ethnic heritage In her research and interviews Thursby discovered the paramount importance of food as part of the funeral ritual During times of loss individuals want to be consoled and this is often accomplished through the preparation and consumption of nourishing comforting foods In the Intermountain West Funeral Potatoes a potato cheese casserole has become an expectation at funeral meals Muslim families often bring honey flavored fruits and vegetables to the funeral table for their consoling familiarity and many Mexican Americans continue the tradition of tamale making as a way to bring people together to talk to share memories and to simply enjoy being together *Funeral Festivals in America* examines rituals for loved ones separated by death frivolities surrounding death funeral foods and feasts post funeral rites and personalized memorials and grave markers Thursby concludes that though Americans come from many different cultural traditions they deal with death in a largely similar approach They emphasize unity and embrace rites that soothe the distress of death as a way to heal and move forward

*Ready for My Closeup* David M. Lubin, 2025-08-12 For

readers of Sam Wasson and Glenn Frankel a cultural history about the making and lasting significance of Sunset Boulevard whose piercing and in many ways prophetic critiques of fame continue to resonate today Great films are born of great collaborations and Sunset Boulevard represents one of the most extraordinary confluences of cinematic talent in film history but its production was surprisingly fraught filled with unexpected twists Why was William Holden who had never caught fire as a leading man hired to play Joe Gillis after the fastest rising star in the business dropped out at the last minute After Mae West and Mary Pickford turned down the now iconic role of Norma Desmond how did Billy Wilder convince Gloria Swanson who had long been absent from Hollywood at this point to leave her low paying job as a TV talk show host to join the cast From the writers room during Billy Wilder and Charles Brackett's final collaboration to the moment when the film won three Academy Awards scholar and former Rolling Stone staffer David M Lubin takes readers on a fascinating journey through film history that proves once and for all why Sunset Boulevard is one of the most iconic films in cinematic history Just in time for the film's 75th anniversary Ready for My Closeup breathes life into a beloved masterpiece of American cinema

**Meaning and Lexicography** Jerzy Tomaszczyk, Barbara Lewandowska-Tomaszczyk, 1990 While lexicology lexical semantics and lexicography all share an interest in lexical items they often tend to be regarded as three separate albeit interrelated fields Indeed the extent to which the interrelationship is recognized and taken into account in lexicographic practice is the moot point The conference which produced the papers offered in this volume was designed to bring their practitioners together and thus gives an impetus to closer cooperation among them It is the editors' conviction that the practical activity of lexicography should learn more from its sister fields People working in lexicography lexical semantics etc may find some of the insights arrived at in the more practically oriented descriptions pertinent and useful

**City at the Edge of Forever** Peter Lunenfeld, 2020-08-11 An engaging account of the uniquely creative spirit and bustling cultural ecology of contemporary Los Angeles How did Los Angeles start the 20th century as a dusty frontier town and end up a century later as one of the globe's supercities with unparalleled cultural

economic and technological reach In *City at the Edge of Forever* Peter Lunenfeld constructs an urban portrait layer by layer from serendipitous affinities historical anomalies and uncanny correspondences In its pages modernist architecture and lifestyle capitalism come together via a surfer girl named Gidget Joan Didion's yellow Corvette is the brainchild of a car crazy Japanese American kid interned at Manzanar and the music of the Manson Family segues into the birth of sci fi fandom One of the book's innovations is to brand Los Angeles as the alchemical city Earth became real estate when the Yankees took control in the nineteenth century Fire fueled the city's early explosive growth as the Southland's oil fields supplied the inexhaustible demands of drivers and their cars Air defined the area from WWII to the end of the Cold War with aeronautics and aerospace dominating the region's industries Water is now the key element and Southern California's ports are the largest in the western hemisphere What alchemists identify as the ethereal fifth element or quintessence this book positions as the glamour of Hollywood a spell that sustains the city but also needs to be broken in order to understand Los Angeles now Lunenfeld weaves together the city's art architecture and design juxtaposes its entertainment and literary histories and moves from restaurant kitchens to recording studios to ultra secret research and development labs In the process he reimagines Los Angeles as simultaneously an exemplar and cautionary tale for the 21st century **The Past is a Foreign**

**Country** David Lowenthal, 1985-11-14 Lowenthal looks at the benefits and burdens of the past how we study the past and how we change it *A Muse of Fire* Arnold D. Harvey, 1998-01-01 This is the first book to relate to the literature and art of the First World War to the literature and art produced by the Second World War and by earlier wars *A Muse of Fire* is also the first serious attempt to examine the whole range of war poetry and war fiction in English in its relation to the work of German French Italian and to a lesser extent Russian Danish and Hungarian authors Before 1914 few authors wrote about or experienced war War especially its reality was not the proper subject of literature while writers seldom served in the armed forces and were almost never in battle More than half this book deals with the First World War In successive chapters A D Harvey discusses what sort of people in what sort of physical and psychological conditions wrote about the war or painted it how they handled the challenge of describing their experiences with complete honesty what literary and artistic techniques they employed how other forms of creative talent were fostered by the war and how far memoirs of the war prepared the way for the next one The account given of the Second World War in the final section like the chapters on pre 1914 war literature provides far more than simply an introduction and conclusion to the central part of the book It is an important contribution to an understanding of how literature and art relate to the psychological and social structures of the communities within which they are produced This is the first book to relate to the literature and art of the First World War to the literature and art produced by the Second World War and by earlier wars *A Muse of Fire* is also the first serious attempt to examine the whole range of war poetry and war fiction in English in its relation to the work of German French Italian and to a lesser extent Russian Danish and Hungarian authors Before 1914 few authors wrote about or experienced war War especially its reality

was not the proper subject of literature while writers seldom served in the armed forces and were almost never in battle. More than half this book deals with the First World War. In successive chapters A D Harvey discusses what sort of people in what sort of physical and psychological conditions wrote about the war or painted it, how they handled the challenge of describing their experiences with complete honesty, what literary and artistic techniques they employed, how other forms of creative talent were fostered by the war, and how far memoirs of the war prepared the way for the next one. The account given of the Second World War in the final section, like the chapters on pre 1914 war literature, provides far more than simply an introduction and conclusion to the central part of the book. It is an important contribution to an understanding of how literature and art relate to the psychological and social structures of the communities within which they are produced.

**A Portrait of the Artist as Australian** Paul Matthew St Pierre, 2004-09-30 A Portrait of the Artist as Australian offers the first critical assessment of Barry Humphries' entire career as a daring postmodern deconstructionist on stage, film, and television, with sixty-seven stage shows, twenty-four film and thirty-four video appearances, thirty-four television series, and seventy-one television appearances and seventy-two audio recordings, but especially what he calls his second career as author of twenty-nine books. With an oeuvre that includes novels, biographies, autobiographies, editions, compilations, comic books, poetry, dramatic monologues, sketches, film scripts, and several unclassified works, Humphries is a literary and dramatic artist of considerable significance. Arguing that Humphries is one of Australia's greatest writers, Paul Matthew St Pierre reveals a multi-faceted artist whose success is rooted in music halls, Dadaism, and his identity as an Australian.

**Dignity** Remy Debes, 2017 In everything from philosophical ethics to legal argument to public activism, it has become commonplace to appeal to the idea of human dignity. In such contexts, the concept of dignity typically signifies something like the fundamental moral status belonging to all humans. Remarkably, however, it is only in the last century that this meaning of the term has become standardized. Before this, dignity was instead a concept associated with social status. Unfortunately, this transformation remains something of a mystery in existing scholarship. Exactly when and why did dignity change its meaning? And before this change, was it truly the case that we lacked a conception of human worth akin to the one that dignity now represents? In this volume, leading scholars across a range of disciplines attempt to answer such questions by clarifying the presently murky history of dignity from classical Greek thought through the Middle Ages and Enlightenment to the present day.

**Reading the Seasons** Germaine Leece, Sonya Tsakalakis, 2021-03-30 It's an old cliché that books transport you, but as any avid reader will tell you, there's far more to them than that. Alongside comfort and retreat, books offer insight into ourselves and others; they tell us how the world is, was, or might be; they are windows into other worlds whose meanings resonate through the ages. It's this multiplicity that is at the heart of bibliotherapy, the ancient practice of reading for therapeutic effect. Reading the Seasons charts the evolution of a friendship through candid letters between bibliotherapists Germaine Leece and Sonya Tsakalakis. Ignited by a shared love of reading, of finding a book for every occasion, every emotion,

both for themselves and for their clients their conversations soon confront life's ups and downs The authors they reach for range from Stephen King to Javier Marias Helen Garner to Maggie O Farrell as they reflect upon loss change parenting careers simple pleasures travel successes fears and uncertainty Reading the Seasons not only offers an entryway to new titles but affirms the power of books to console heal and hold us together as friends and as individuals

**Hating America** Barry Rubin, Judith Colp Rubin, 2004-08-26 Reviled as an imperialist power an exporter of destructive capitalism an arrogant crusader against Islam and a rapacious over consumer casually destroying the planet it seems that the United States of America has rarely been less esteemed in the eyes of the world In such an environment one can easily overlook the fact that people from other countries have in fact been hating America for centuries Barry Rubin and Judith Colp Rubin here draw on sources from a wide range of countries to track the entire trajectory of anti Americanism With this powerful work the Rubins trace the paradox that is America a country that is both the most reviled and most envied land on earth In the end they demonstrate anti Americanism has often been a visceral response to the very idea as well as both the ideals and policies of America itself its aggressive innovation its self confidence and the challenge it poses to alternative ideologies
