Loving Relationships Self Others And God:

Loving Relationships Robert L. Shelton, 1987 Kierkegaard and the Problem of Self-Love John Lippitt, 2013-04-25
Develops a Kierkegaard inspired account of proper self love which accommodates trust hope and forgiveness of self and others *Other: Loving Self, God and Neighbor in a World of Fractures* Kester Brewin, 2010 **God as Sacrificial Love** Asle Eikrem, 2018-01-25 In dialogue with a range of post enlightenment critiques of Christian theologies regarding sacrificial love Asle Eikrem presents an unconventional systematic approach to this multi layered and complex theological topic From Hegel to prominent 20th century theologians from feminist theologies to postmodern philosophers this volume engages in a critical conversation with a host of different voices on all the classical topics in theology creation trinity incarnation atonement sin faith sacraments and eschatology also providing a moral and socio historical vision for Christian living The result is a unique appraisal of the significance that the life and death of Jesus holds for the world today May to May - My Journey to Self-love with God Reabetswe Moabi, 2024-08-16 One of society's main problems today is a lack of self love this is evident in the way most people live their lives sadly I was also part of the statistic The fact that I was not living life to the full bothered me in many ways I was not running my own race I constantly compared myself to others I had not accepted myself for who I was and I had not taken full responsibility for my life I was merely alive and confused Although everything on the outside looked good I felt miserable I learned the hard way that what goes on inside us is more important than what people can see A lack of self love impacted most areas of my life negatively I knew something needed to change Once I had surrendered my life to God He helped me see my own value I started May to May My Journey to Self love with God to move my life in the right direction After discovering the 20 components that lead to self love my life has never been the same I could finally accept myself just as I was I am proud to say there is no other race I would rather run than my own I needed to love myself first so I could truly live *Living Christianly* Sylvia Walsh, 2005 The pseudonymous works Kierkegaard wrote during the period 1843-46 have been responsible for establishing his reputation as an important philosophical thinker but for Kierkegaard himself they were merely preparatory for what he saw as the primary task of his authorship to elucidate the meaning of what it is to live as a Christian and thus to show his readers how they could become truly Christian The more overtly religious and specifically Christian works Kierkegaard produced in the period 1847-51 were devoted to this task In this book Sylvia Walsh focuses on the writings of this later period and locates the key to Kierkegaard's understanding of Christianity in the inverse dialectic that is involved in living Christianly In the book's four main chapters Walsh examines in detail how this inverse dialectic operates in the complementary relationship of the negative qualifications of Christian existence sin the possibility of offense self denial and suffering to the positive qualifications faith forgiveness new life love hope and joy and consolation It was Kierkegaard's aim she argues to bring the negative qualifications which he believed had been virtually eliminated in Christendom once again into view to provide them with conceptual clarity and to show their

essential relation to and necessity in securing a correct understanding and expression of the positive qualifications of Christian existence *Shaping Australia's Spirituality* Philip Hughes, Stephen Reid, Claire Pickering, 2010 *God's Wounds: Hermeneutic of the Christian Symbol of Divine Suffering, Volume One* Jeff B. Pool, 2009-01-01 This book constitutes the first volume of a three volume study of Christian testimonies to divine suffering God's Wounds Hermeneutic of the Christian Symbol of Divine Suffering Divine Vulnerability and Creation This study first develops an approach to interpreting the contested claims about the suffering of God Thus the larger study focuses its inquiry into the testimonies to divine suffering themselves seeking to allow the voices that attest to divine suffering to speak freely to discover and elucidate the internal logic or rationality of this family of testimonies rather than defending these attestations against the dominant claims of classical Christian theism that have historically sought to eliminate such language altogether from Christian discourse about the nature and life of God Through this approach this volume of studies into the Christian symbol of divine suffering then investigates the two major presuppositions that the larger family of testimonies to divine suffering normally hold an understanding of God through the primary metaphor of love God is love and an understanding of the human as created in the image of God with a life though finite analogous to the divine life the imago Dei as love When fully elaborated these presuppositions reveal the conditions of possibility for divine suffering and divine vulnerability with respect to creation

The Analogy of Love Gary Chartier, 2015-11-09 This book offers an overview of Christian theology organized around the twin themes of divine and human love The book covers the traditional theological topics as well as basic questions of theological method It seeks to integrate a focus on love throughout While love is regularly canvassed as a dominant theme in Christian thought it has rarely been the focus of Christian theological construction or a constraint on theological formulation The book seeks to suggest chapter by chapter how a given topic relates to the broad theme of love The book is written in a way designed to make it accessible to university students and educated laypersons At the same time it takes positions on controverted scholarly issues and the methodological approach outlined at the beginning will be of interest to academic theologians **Keep the Faith** William R. McNamer, 2008-06 Keep the Faith is a series of letters from a Catholic father to his five young adult children and by extension to all educated young adult Catholics who are at risk of losing their faith or who have dropped out The author presents the theology underlying Catholic teaching at a level appropriate for thinking adults addresses the common hangups to faith and concludes with an extended treatment of Catholic spirituality In Keep the Faith the author meets the problem of belief and doubt with understanding and common sense questions the adequacy of secularism as a philosophy of life and insists that both faith and reason and a little poetry beauty and prayer are necessary to live a life of meaning and purpose These can be found in the Catholic faith *To Love as God Loves* Roberta C. Bondi, 1987 Being a Christian means learning to love with God's love But God's love is not a warm feeling in the pit of the stomach It has definite characteristics we learn in the course of our life in the behavior and teaching of the early monastics as we ponder

over what we can say about God as God deals with us and finally as we model our own lives on what we have learned

Rooted and Grounded in Love Timothy Reinhold Eberhart, 2017-06-05 God's invitation to join in the love feast of Holy Communion resounds at the very heart of the Christian faith and life. But how are Christians faithfully to gather together in relational bonds of love in particular through our daily bread and common cup amidst a global market economy sustained by social and ecological violence? Drawing on the holiness communitarian and agrarian ecological traditions, *Rooted and Grounded in Love* provides a systematic theological affirmation of holiness as divine wholeness in examining our present industrial agro economy while also promoting a practical vision for how Christians might participate in the emergence of a more ecologically sustaining, economically charitable, and politically just food system. *Love's Transcendence and the Problem of Theodicy* Claudia Welz, 2008 Claudia Welz explores responses to the problem of evil that do not end up in a theodicy. Kierkegaard's and Rosenzweig's reasons for having no reason to defend God and their ethics of love are discussed in the context of German idealism and French phenomenology. **BOOK JACKET** *Love, Reason, and God's Story* David Cloutier, 2008 The author of this book provides readers with a basic understanding of the history of Catholic teaching on sexual ethics, particularly as it has evolved in the last half century. *Politics and the Order of Love* Eric Gregory, 2008-08-15 Augustine for all of his influence on Western culture and politics was hardly a liberal. Drawing from theology, feminist theory, and political philosophy, Eric Gregory offers here a liberal ethics of citizenship, one less susceptible to anti-liberal critics because it is informed by the Augustinian tradition. The result is a book that expands Augustinian imaginations for liberalism and liberal imaginations for Augustinianism. Gregory examines a broad range of Augustine's texts and their reception in different disciplines and identifies two classical themes which have analogues in secular political theory: love and related notions of care, solidarity, and sympathy; and sin as well as related notions of cruelty, evil, and narrow self-interest. From an Augustinian point of view, Gregory argues, love and sin constrain each other in ways that yield a distinctive vision of the limits and possibilities of politics. In providing a constructive argument for Christian participation in liberal democratic societies, Gregory advances efforts to revive a political theology in which love's relation to justice is prominent. *Politics and the Order of Love* will provoke new conversations for those interested in Christian ethics, moral psychology, and the role of religion in a liberal society. *A God Like No Other: Depaganizing the God of the Hebrew Bible* David A. Brondos, 2024-07-15 For centuries, scholars and interpreters of the Hebrew Scriptures or Old Testament have read those Scriptures as if they spoke of a God whose desires, concerns, and interests were essentially no different than those of the other gods of antiquity known to us. Like those gods, what the God of Israel supposedly sought above all else was the honor, worship, and obedience of human beings and their submission to his will as his faithful and devoted servants. While he undoubtedly demanded the practice of what was good, right, and merciful among his people in a way that set him apart from other gods, ultimately he did so for his own sake in order to bring about in them the type of behavior that pleased him and compel them to live in conformity with his

justice holiness and righteousness Those who sought to enjoy his blessings and avoid his fierce wrath and punishments had no choice but to strive to keep him content by observing all that he had commanded and making atonement for the sins and offenses they committed by offering him the sacrifices that appeased him Although he loved his people deeply his righteous and holy nature placed limits on that love and prevented him from showing them his favor unless the demands of his nature were satisfied When we abandon such an understanding of the God of Israel and instead read the Hebrew Bible on its own terms in order to grasp the logic underlying its narratives however a very different portrait of God emerges The God of whom the biblical texts speak is a God who desires nothing but the good for all those whom he has created and refuses to back down from his efforts to bring them to live in ways that will allow them to enjoy the wholeness and well being he desires for all when they insist on filling their lives with injustice suffering and violence When he demands that they obey all that he has commanded by practicing justice and compassion and avoiding behaviors that do them harm he does so not for his sake but for theirs If he jealously refuses to let his people serve and worship other gods it is only because those gods bring death and destruction rather than the life that is found in him alone While at times he must himself resort to violence and even bring down evil on human beings in order to put a stop to oppression and injustice he does so only because his passionate and unbending commitment to the well being of all of the families of the earth together with his beloved people Israel will not allow him to hold back or relent in his efforts to save them not from him but from themselves Christian and Jewish readers alike will find in the present volume a God who is very different from the God they have been taught to encounter previously in the biblical texts a God whose ultimate concern is not for his own glory honor or worship or for the demands of a righteous and holy nature that holds him captive but for the healing wholeness and well being of all of his creatures Such an understanding of God not only calls into question traditional interpretations of the Hebrew Bible but also lays the basis for a fresh reading of the many difficult passages that have long challenged biblical interpreters due to the violent and troubling image of God that they convey

Motherhood as Metaphor Jeannine Hill Fletcher, 2013-08 This volume takes women's voices and experiences as the primary data for thinking about interfaith encounter in the modern world It places original work on women in mission the secular women's movement and women in interreligious dialogue in conversation with theological anthropology feminist theory and theology

Encyclopedia of Religious and Spiritual Development Elizabeth M. Dowling, W. George Scarlett, 2006 Focuses on the developmental process of religion and spirituality across the human life span This encyclopedia joins a recent trend in research and scholarship aimed at better understanding the similarities and differences between world religions and spiritualities between expressions of the divine and between experiences of the transcendent

Love, Reason and Will Anthony Rudd, John Davenport, 2015-10-22 An introduction to the philosophy of love bridging analytic and continental philosophy and the philosophy of religion through the writings of Harry G Frankfurt and Søren Kierkegaard

The Empowering God Edward Y. Suh, 2021-05-20 The Prosperity movement has been rightly challenged

on biblical theological and pastoral grounds and has been found to be lacking Yet the movement continues to grow in popularity around the world particularly amongst the poor What deeper factors might account for this continued sociological appeal In this unique study the author draws on biblical and theological sources as well as research on human flourishing from psychological sociological economic and anthropological perspectives to evaluate possible reasons for this phenomenon Consequently he finds that one unexplored reason for the lasting resonance of the Prosperity movement is its unexpected effectiveness in leading practitioners to overcome the trauma of victimization and disempowerment This undercurrent of empowerment suggests that there are ways Prosperity theology can mature to preserve this dynamic whilst shedding its more questionable practices thus potentially giving rise to an Evangelical expression of this movement centered around the themes of shalom and human flourishing Thus the constructive aspect of this book proposes an Evangelical theology of empowerment and abundance formed around a robust image of the Empowering God that accounts for abundance and lack health and disability and the normal ebbs and flows of life and death
