The Politics of Sociability Stefan-Ludwig Hoffmann, 2018-11-20 An ambitious original work *The Politics of Sociability* is Stefan Ludwig Hoffmann's exploration of the social and political significance of Freemasonry in German history Drawing on de Tocqueville's theory that without civic virtue there is no civil society and that civic virtue unfolds only through the social interaction between citizens Hoffmann examines the critical link between Freemasonry and the evolution of German civil society in the late nineteenth century The practice of Masonic sociability reflected an enlightened belief in the political significance of moral virtue for civil society indeed for humanity Freemasons' self image as civilizing agents acting in good faith and with the unimpeachable idea of universal brotherhood was contradicted not only by their heightened sense of exclusivity Freemasons unintentionally exacerbated nineteenth century political conflicts for example between liberals and Catholics or Germans and French by employing a universalist language Using a wealth of archival sources previously unavailable Stefan Ludwig Hoffmann shows how Freemasonry became a social refuge for elevated and liberal minded bourgeois men who felt attracted to its secret rituals and moral teachings German Freemasons sought to reform self and society but Hoffmann argues ultimately failed to balance modern politics with a cosmopolitan ethos Hoffmann illuminates a capacious history of the political effects of Enlightenment concepts and practices in a century marked by nationalism social discord and religious conflict Stefan Ludwig Hoffmann is Assistant Professor of Modern History at Ruhr University Bochum The German edition of this book *Die Politik der Geselligkeit Freimaurerlogen in der deutschen B ũrgergesellschaft 1840-1918* Vandenhoeck Ruprecht 2000 won the Association of German Historians 2002 Hedwig Hintze Prize for Best First Book Tom Lampert was born in Boston in 1962 and grew up in northern California He received a BA in political science from Stanford University 1986 and a PhD in government from Cornell 1998 His book *Ein*
