THE • LUCK BUSINESS

The background of the lower half of the cover is a detailed, grayscale architectural drawing of a city street grid, likely New York City, showing building footprints and street layouts. Overlaid on this background are two large, three-dimensional red dice. One die is in the foreground, slightly to the left, showing a one on its top face and a two on its front face. The other die is slightly behind and to the right, showing a three on its top face and a four on its front face. The dice are rendered with realistic shading and highlights, giving them a glossy appearance.

Expanding Addiction: Critical Essays Robert Granfield,Craig Reinerman,2014-12-09 The study of addiction is dominated by a narrow disease ideology that leads to biological reductionism In this short volume editors Granfield and Reinerman make clear the importance of a more balanced contextual approach to addiction by bringing to light critical perspectives that expose the historical and cultural interstices in which the disease concept of addiction is constructed and deployed The readings selected for this anthology include both classic foundational pieces and cutting edge contemporary works that constitute critical addiction studies This book is a welcome addition to drugs or addiction courses in sociology criminal justice mental health clinical psychology social work and counseling *Revenge of the Pequots* Kim Isaac Eisler,2002-03-01 The Mashantucket Pequots have had a long and proud history enduring for centuries even after colonists and historians believed them to have been exterminated by the British in 1637 By the early 1970s however the legacy of their generations rested on the shoulders of a single elderly woman upon whose death the Pequots reservation would fall into government hands Her grandson Richard Skip Hayward and other relatives responded to her pleas and kept alive the tribe and its land by coming to live on the reservation Journalist Kim Isaac Eisler tells in riveting detail how Hayward and others skillfully manipulated laws court decisions and political connections to permit the Mashantucket Pequots to found the Foxwoods Resort and Casino in 1992 Located in Ledyard Connecticut Foxwoods today is arguably the world s most profitable casino complex grossing over one billion dollars annually The Mashantucket Pequots have become staggeringly rich their tribal membership has swelled and they are now an influential force in national politics Their triumph has not been without controversy Eisler also examines the volatile issue of racial identity among the Pequots and looks at the negative impact of Foxwoods on those who also make their home in the Connecticut woods **Business Ethics from the 19th Century to Today** David George Surdam,2020-01-29 This book combines elements of economic and business history to study business ethics from the nineteenth century to today It concentrates on American and British business history delving into issues such as slavery industrialization firm behavior and monopolies and Ponzi schemes This book draws on the work of economists and historians to highlight the importance of changing technologies religious beliefs and cultural attitudes showing that what is

Bingo Capitalism Kate Bedford, 2019-09-26 Casinos are often used by political economists and popular commentators to think critically about capitalism Bingo an equal chance numbers game played in many parts of the world is overlooked in these conversations about gambling and political economy Bingo Capitalism challenges that omission by asking what bingo in England and Wales can teach us about capitalism and the regulation of everyday gambling economies The book draws on official records of parliamentary debate case law regulations and in depth interviews with both bingo players and workers to offer the first socio legal account of this globally significant and immensely popular pastime It explores the legal and political history of bingo and how gender shapes and is shaped by diverse state rules on gambling It also sheds light on the regulation of workers players products places and technologies In so doing it adds a vital new dimension to accounts of UK gambling law and regulation Through Bingo Capitalism Bedford makes a key theoretical contribution to our understanding of the relationship between gambling and political economy showing the role of the state in supporting and

then eclipsing environments where gambling played a key role as mutual aid In centring the regulatory entanglement between vernacular play forms self organised membership activity and corporate leisure experiences she offers a fresh vision of gambling law from the everyday perspective of bingo

Century of the Leisured Masses David George Surdam, 2015-01-02 American living standards improved considerably between 1900 and 2000 While most observers focus on gains in per capita income as a measure of economic well being economists have used other measures of well being height weight and longevity The increased amount of leisure time per week and across people's lifetimes however has been an unsung aspect of the improved standard of living in America In *Century of the Leisured Masses* David George Surdam explores the growing presence of leisure activities in Americans' lives and how this development came out throughout the twentieth century Most Americans have gone from working fifty five or more hours per week to working fewer than forty although many Americans at the top rungs of the economic ladder continue to work long hours Not only do more Americans have more time to devote to other activities they are able to enjoy higher quality leisure New forms of leisure have given Americans more choices better quality and greater convenience For instance in addition to producing music themselves they can now listen to the most talented musicians when and where they want Television began as black and white on small screens within fifty years Americans had a cast of dozens of channels to choose from They could also purchase favorite shows and movies to watch at their convenience Even Americans with low incomes enjoyed television and other new forms of leisure This growth of leisure resulted from a combination of growing productivity better health and technology American workers became more

productive and chose to spend their improved productivity and higher wages by consuming more taking more time off and enjoying better working conditions By century s end relatively few Americans were engaged in arduous dangerous and stultifying occupations The reign of tyranny on the shop floor in retail shops and in offices was mitigated many Americans could even enjoy leisure activities during work hours Failure to consider the gains in leisure time and leisure consumption understates the gains in American living standards With Century of the Leisured Masses Surdam has comprehensively documented and examined the developments in this important marker of well being throughout the past century
