It's Not Personal Susan Best,2021-06-17 How does something as potent and evocative as the body become a relatively neutral artistic material From the 1960s much body art and performance conformed to the anti expressive ethos of

minimalism and conceptualism whilst still using the compelling human form But how is this strange mismatch of vigour and impersonality able to transform the body into an expressive medium for visual art Focusing on renowned artists such as Lygia Clark Marina Abramovic and Angelica Mesiti Susan Best examines how bodies are configured in late modern and contemporary art She identifies three main ways in which they are used as material and argues that these formulations allow for the exposure of pressing social and psychological issues In skilfully aligning this new typology for body art and performance with critical theory she raises questions pertaining to gender inter subjectivity relation and community that continue to dominate both our artistic and cultural conversation

Art Theory for a Global Pluralistic Age Steven Félix-Jäger,2019-12-02 This book extends a theory of art that addresses the present era s shift towards global pluralism By focusing on extrinsic rather than intrinsic qualities of art this book helps viewers evaluate art across cultural boundaries Art can be universally classified by an evaluation of its guiding narrative and can be understood and judged through hermeneutical methods Since artists engage culture through various local

transnational and emerging global narratives it is difficult to decipher what standards are used for evaluation and which authoritative body evaluates the work This book implements a narrative hermeneutical approach to properly classify an artwork and establish its meaning and value **More Mobile** Jennifer Siegal, 2008-09-19 The allure of mobile portable architecture is worldwide and centuries old From the desert tents of the Bedouin to the silvery capsules of the Airstream trailer mobile architecture has inspired designers with its singular characteristics of lightness transience and practicality In **More Mobile** the follow up to her groundbreaking 2002 book **Mobile** Jennifer Siegal explores the ever growing range of possibilities of portable demountable structures From serious Refuge Wear to the playful Bar Rectum and the practical Kunsthallen **More Mobile** explores the working methods and finished work of the most exciting contemporary designers and presents today's most dynamic active mobile structures in beautiful color images detailed drawings and thoughtful text Contributors include Studio Orta Dr Wapenaar Andrea Zittel Andrew Maynard Andreas Vogler Horden Cherry Lee Architects N55 Atelier Bow Wow Mark Fisher Studio MMW LOT EK and the Office of Mobile Design A foreword by Jude Stewart discusses life on the move while an introduction by William J Mitchell considers the house as a robot in which to live

Routledge Handbook of Sustainability and Fashion Kate Fletcher, Mathilda Tham, 2014-08-21 The clothing industry employs 25 million people globally contributing to many livelihoods and the prosperity of communities to women's independence and the establishment of significant infrastructures in poorer countries Yet the fashion industry is also a significant contributor to the degradation of natural systems with the associated environmental footprint of clothing high in comparison with other products **Routledge Handbook of Sustainability and Fashion** recognizes the complexity of aligning fashion with sustainability It explores fashion and sustainability at the levels of products processes and paradigms and takes a truly multi disciplinary approach to critically question and suggest creative responses to issues of Fashion in a post growth society Fashion diversity and equity Fashion fluidity and balance across natural social and economic systems This handbook is a unique resource for a wide range of scholars and students in the social sciences arts and humanities interested in sustainability and fashion **Art in Consumer Culture** Grace McQuilten, 2017-07-05 Written with beautiful clarity **Art in Consumer Culture** Mis Design asks the contemporary art world to be honest about the pervasive effects of commodification and the difficulty of staging critique The book examines the collusion of art and design in contemporary artistic practices in order to find avenues of critique in a commercially driven cultural landscape Grace McQuilten focuses on the work of Takashi Murakami Andrea Zittel Adam Kalkin and Vito Acconci four contemporary artists who claim to be working in the field of design rather than the traditional art world McQuilten argues that Zittel Acconci and Kalkin engage with design only to reactivate the critical practice of art in a more direct engagement with capital and conceives of and affirms a future for art outside of the art world as a parasite in the complex beast of late capitalism This book is an important and timely provocation to a cynical and apathetic consumer culture and a call to arms for creative freedom and critical thought
