Griffiths, 1994-01-01 What is it like to be a Buddha Is there only one Buddha or are there many What can Buddhas do and what do they know Is there anything they cannot do and cannot know These and associated questions were much discussed by Buddhist thinkers in India and a complex and subtle set of doctrinal positions was developed to deal with them This is the first book in a western language to treat these doctrines about Buddha from a philosophical and thoroughly critical viewpoint The book shows that Buddhist thinkers were driven when theorizing about Buddha by a basic intuition that Buddha must be maximally perfect and that pursuing the implications of this intuition led them into some conceptual dilemmas that show considerable similarity to some of those treated by western theists The Indian Buddhist tradition of thought about these matters is presented here as thoroughly systematic analytical and doctrinal The book s analysis is based almost entirely upon original sources in their original languages All extracts discussed are translated into English and the book is accessible to nonspecialists while still treating material that has not been much discussed by western scholars *Saffron Days in L.A.* Bhante Walpola Piyananda, 2001-05-01 In this delightful memoir Bhante Walpola Piyananda a Buddhist monk from Sri Lanka shares his often amusing often poignant experiences of life in America Whether he s reasoning with a group of confrontational punks on Venice Beach bridging the gap between a rebellious teenager and her traditional parents explaining to an errant Buddhist that the concept of non

After Buddhism Stephen Batchelor, 2015-01-01 A renowned Buddhist teacher's magnum opus based on his fresh reading of the tradition's earliest texts Some twenty five centuries after the Buddha started teaching his message continues to inspire people across the globe including those living in predominantly secular societies What does it mean to adapt religious practices to secular contexts Stephen Batchelor an internationally known author and teacher is committed to a secularized version of the Buddha's teachings The time has come he feels to articulate a coherent ethical contemplative and philosophical vision of Buddhism for our age After Buddhism the culmination of four decades of study and practice in the Tibetan Zen and Theravada traditions is his attempt to set the record straight about who the Buddha was and what he was trying to teach Combining critical readings

of the earliest canonical texts with narrative accounts of five members of the Buddha's inner circle Batchelor depicts the Buddha as a pragmatic ethicist rather than a dogmatic metaphysician He envisions Buddhism as a constantly evolving culture of awakening whose long survival is due to its capacity to reinvent itself and interact creatively with each society it encounters This original and provocative book presents a new framework for understanding the remarkable spread of Buddhism in today's globalized world It also reminds us of what was so startling about the Buddha's vision of human flourishing
