## **Makers Of Music The Story Of Singers:**

The Music Between Us Kathleen Marie Higgins, 2012-06 A commentary on the communicative universality of music citing real world examples from rituals education work and healing *Modern Music and Musicians: Encyclopedia: v. 1. A history of music; special articles; great composers; v. 2. Religious music of the world; vocal music and musicians; the opera; history and guide; v. 3. The theory of music; piano technique; special articles; modern instruments; anecdotes of musicians; dictionary. (musical terms and biography)* Louis Charles Elson, 1912 **Hidden in History: The Untold Story of Female Artists, Musicians, and Writers** Myra Faye Turner, 2018-11-08 Of the few historical shortlists women make as influencers in the arts the same few names are recognized making the catalogue of powerful and gifted females feel like an small and exclusive club The truth is however that far more women than we know can be credited with contributions to the industries in which they honed their crafts In 1940 when the world was at war and the Civil Rights Movement had yet to turn the page of history Hattie McDaniel became the first black woman to win an Academy Award She and Anna May Wong fought hard to pave the way for actresses of color and fight against racial stereotypes Maria Tallchief was the first and one of the only Native American prima ballerinas to push past the stage wings toward the limelight More than just performers these women were people as well In *Hidden in History The Untold Stories of Female Artists Musicians and Writers* the lives of many of these artists are explored from Edmonia Lewis wrongful expulsion from higher learning to the boundary breaking talents of the International Sweethearts of Rhythm and their untraditional start as a school band This book is an open door to the lives of 10 female artists wordsmiths and performers whose work has often been overlooked in the dusty pages of an often male dictated narration *Makers of Music* Sydney Grew, 1926 The Best Books: H. Natural science. II\*, Medicine and surgery. I, Arts and trades. 1926 William Swan Sonnenschein, 1926 **The Musical Times & Singing-class Circular**, 1910 **A Dictionary for the Modern Singer** Matthew Hoch, 2014-04-28 Titles in the Dictionaries for the Modern Musician series offer both the novice and the advanced artist key information designed to convey the field of study and performance for a major instrument or instrument class as well as the workings of musicians in areas from conducting to composing Each dictionary covers topics from instrument parts to technique major works to key figures a must have for any musician's personal library *A Dictionary for the Modern Singer* is an indispensable guide for students of singing voice pedagogues and lovers of the art of singing In addition to classical singing genres and styles musical theatre and popular and global styles are addressed With an emphasis on contemporary practice this work includes terms and figures that influenced modern singing styles Topics include voice pedagogy voice science vocal health styles genres performers diction and other relevant topics The dictionary will help students to more fully understand the concepts articulated by their teachers Matthew Hoch's book fills a gap in the singer's library as the only one volume general reference geared toward today's student of singing An extensive bibliography is invaluable for students seeking to explore a particular subject in greater depth

Illustrations and charts further illuminate particular concepts while appendixes address stage fright tips on practicing repertoire selection audio technology and contemporary commercial music styles A Dictionary for the Modern Singer will appeal to students of singing at all levels For professionals it will serve as a quick and handy reference guide useful in the high school or college library and the home teaching studio alike students and amateurs will find it accessible and full of fascinating information about the world of the singing

**Singing Out** Heather MacLachlan, 2020-12-01 Can you change the world through song This appealing idea has long been the professed aim of singers who are part of choruses affiliated with the Gay and Lesbian Association of Choruses GALA These choruses first emerged in the 1970s and grew out of a very American tradition of often gender segregated choral singing that explicitly presents itself as a community based activity By taking a close look at these choruses and their mission Heather MacLachlan unpacks the fascinating historical and cultural dynamics behind groups that seek to change society for the better by encouraging acceptance of LGBT identified people and promoting diversity more generally She characterizes their mission as integrationist rather than liberationist and zeroes in on the inherent tension between GALA's progressive social goals and the fact that the music most often performed by GALA groups is deeply rooted in a fairly narrowly conceived tradition of art music that identifies as white Euro centric and middle class and that much of the membership identifies as white and middle class as well Pundits often wax eloquent about the power of music asserting that it can in some positive way change the world Such statements often rest on an unexamined claim that music can and does foster social justice Singing Out GALA Choruses and Social Change tackles the premise underlying such claims analyzing groups of amateur singers who are explicitly committed to an agenda of social justice
