National Library of Medicine Current Catalog National Library of Medicine (U.S.),1989 *The Positive Psychology of Personal Factors* Dana S. Dunn,Michael L. Wehmeyer,2022-01-17 Historically interventions designed to impact the lives of disabled people were predicated upon deficits based models of disability This began to change with the introduction of World Health Organization WHO frameworks particularly the International Classification of Function ICF that emphasized that disability could only be understood in the context of interactions among health environmental factors and personal factors and by examining the impact of such factors on a person s activities and participation The ICF identified personal factors as among the elements of a social ecological model of disability but did not provide an extensive taxonomy of what constitutes such factors The Positive Psychology of Personal Factors examines personal factors that come from the field of positive psychology and as such to begin to identify and build strengths based approaches to promoting the full participation dignity and well being of disabled people **Current Catalog** National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70

The Oxford Handbook of the Five Factor Model Thomas A. Widiger, 2017-03-27 The Five Factor Model which measures individual differences on extraversion agreeableness conscientiousness emotional stability and openness to experience is arguably the most prominent dimensional model of general personality structure In fact there is now a considerable body of research supporting its construct validity and practical application in clinical health and organizational settings Taking this research to the forefront The Oxford Handbook of the Five Factor Model showcases the work of expert researchers in the

field as they each offer important insight and perspective on all that is known about the Five Factor Model to date By establishing the origins foundation and predominance of the Five Factor Model this Handbook will focus on such areas as construct validity diagnosis and assessment personality neuroscience and how the Five Factor Model operates in business and industry animal personality childhood temperament and clinical utility

Resilience Process and Its Personal and Social Bases Chau Kiu Cheung,2024-10-30 This book is to elucidate personal and social bases for personal resilience thus addressing the issue concerning the predominance of social factors in shaping resilience Essentially the book starts with a clarification of resilience as a phenomenon rather than a trait The clarification also identifies the personal bases in terms of the resilience process which specifies belief about resilience as a precursor to learning about resilience action for resilience and resilience successively To justify the personal and social bases the book expounds the analytical functionalist framework to specify voluntaristic and deterministic mechanisms to perform the four requisite functions of goal attainment adaptation integration and latency Equipped with the conceptual and theoretical grounds the book proceeds to scrutinize the effects of personal and social factors on resilience and its process The personal factors include personal background characteristics personality functional disability and various beliefs whereas the social factors include experiences of caring peace violence and social exclusion in society kindness sociability and aid from other people and social capital The scrutiny engages five databases about 6 948 Chinese people in Hong Kong and neighboring Chinese cities composed of the public service users older adults students and people with visual impairment Overall the book presents ample theoretical and empirical substances to clarify the genesis of resilience
