Making African Diaspora Americas 1441 19:

The Making of the African Diaspora in the Americas, 1441-1900 Vincent Bakpetu Thompson, 1987 This work examines the core period of the African diaspora in the Americas The author confronts myths surrounding the ethos of this diaspora which were induced by the mercantilist preoccupations of Western Europe The entire period is portrayed as a battle between two conflicting and opposite strategies that of the slavocracy and that of the enslaved Africans culminating in the conversion of the French colony of St Domingue into the revolutionary state of Haiti The author suggests that Haiti because of its position in the midst of hostile slave societies provided inspiration for the antislavery crusade in both its particularistic and its international aspects The epilogue provides a glimpse into the author's second book on the divergent perceptions in the early evolution of leadership in the African diaspora in the Americas Amazon.com viewed Oct 26 2022 *The African Diaspora* Patrick Manning, 2009-05-19 Patrick Manning refuses to divide the African diaspora into the experiences of separate regions and nations Instead he follows the multiple routes that brought Africans and people of African descent into contact with one another and with Europe Asia and the Americas In weaving these stories together Manning shows how the waters of the Atlantic Ocean the Mediterranean Sea and the Indian Ocean fueled dynamic interactions among black communities and cultures and how these patterns resembled those of a number of connected diasporas concurrently taking shape across the globe Manning begins in 1400 and traces five central themes the connections that enabled Africans to mutually identify and hold together as a global community discourses on race changes in economic circumstance the character of family life and the evolution of popular culture His approach reveals links among seemingly disparate worlds In the mid nineteenth century for example slavery came under attack in North America South America southern Africa West Africa the Ottoman Empire and India with former slaves rising to positions of political prominence Yet at the beginning of the twentieth century the near elimination of slavery brought new forms of discrimination that removed almost all blacks from government for half a century Manning underscores the profound influence that the African diaspora had on world history demonstrating the inextricable link between black migration and the rise of modernity especially in regards to the processes of industrialization and urbanization A remarkably inclusive and far reaching work The African Diaspora proves that the advent of modernity cannot be imaginatively or comprehensively engaged without taking the African peoples and the African continent as a whole into account **Africans of the Diaspora** Vincent Bakpetu Thompson, 2000 A study of the evolution and role of African people in the social and political structures of the Americas Particular emphasis is placed on the evolution of leadership within the United States *Slavery and its Legacy in Ghana and the Diaspora* Rebecca Shumway, Trevor R. Getz, 2017-10-19 Ghana for all its notable strides toward more egalitarian political and social systems in the past 60 years remains a nation plagued with inequalities stemming from its long history of slavery and slave trading The work assembled in this collection explores the history of slavery in Ghana and its legacy for both Ghana and the descendants of people sold as slaves from the Gold Coast in

the era of the transatlantic slave trade The volume is structured to reflect four overlapping areas of investigation the changing nature of slavery in Ghana including the ways in which enslaved people have been integrated into or excluded from kinship systems social institutions politics and the workforce over time the long standing connections forged between Ghana and the Americas and Europe through the transatlantic trading system and the forced migration of enslaved people the development of indigenous and transnational anti slavery ideologies and the legacy of slavery and its ongoing reverberations in Ghanaian and diasporic society Bringing together key scholars from Ghana Europe and the USA who introduce new sources frames and methodologies including heritage gender critical race and culture studies and drawing on archival documents and oral histories Slavery and Its Legacy in Ghana and the Diaspora will be of great interest to scholars and students of comparative slavery abolition and West African history *Edward W. Blyden's Intellectual Transformations* Harry N. K. Odamtten, 2019-08-01 Distinguished by its multidisciplinary dexterity this book is a masterfully woven reinterpretation of the life travels and scholarship of Edward W Blyden arguably the most influential Black intellectual of the nineteenth and early twentieth centuries It traces Blyden s various moments of intellectual transformation through the multiple lenses of ethnicity race religion and identity in the historical context of Atlantic exchanges the Back to Africa movement colonialism and the global Black intellectual movement In this book Blyden is shown as an African public intellectual who sought to reshape ideas about Africa circulating in the Atlantic world The author also highlights Blyden s contributions to different public spheres in Europe in the Jewish Diaspora in the Muslim and Christian world of West Africa and among Blacks in the United States Additionally this book places Blyden at the pinnacle of Afropolitanism in order to emphasize his public intellectualism his rootedness in the African historical experience and the scholarship he produced about Africa and the African Diaspora As Blyden is an important contributor to African studies among other disciplines this volume makes for critical scholarly reading *Unyielding Spirits* Maureen G. Elgersman, 2014-01-21 This comparative study uncovers the differences and similarities in the experiences of Black women enslaved in colonial Canada and Jamaica and demonstrates how differences in the exploitation of women s productive and reproductive labor caused slavery to falter in Canada and excel in the Caribbean The research suggests that while the majority of Black women enslaved in early Canada were domestics the majority of Jamaican women were field laborers often performing some of the most labor intensive work on the sugar plantations While the efforts of the planter class to increase the number of children born to Jamaican women were not completely successful reproduction seems to have been less of a concern in Canada where many Black women were often sold or freed because there was no use for them The Canadian slave context seems to have allowed a broader range of material comfort as well Despite obvious labor differences Black women in Canada and Jamaica rejected their chattel status and condition and resisted slavery similarly This study is unique in its desire and ability to place Black Canadian slave women at the center of research and then contextualize it with a Caribbean model *Multicultural America* Carlos E.

Cortés,2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We re pivoting from a white black dominated American population to one that is multiracial and multicultural Multicultural America A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader s guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today s students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title s editors
