New Blood Chris Bobel, 2010. Chris Bobel is a careful ethnographer, respectful of research participants, and while she clearly takes a stand on menstrual activism, she handily defends her proposition that feminism is finding its balance between reliving its past and creating its future. Bobel's work, which includes incisive analysis of how third

wave activists incorporate and update tactics and strategies of the second wave will be a welcome addition to the scholarship of feminism Elizabeth Kissling author of *Capitalizing on the Curse The Business of Menstruation* **Voices of the Women's Health Movement, Volume 1** Barbara Seaman, Laura Eldridge, 2012-02-14 An unprecedented and definitive collection of rabble rousing writings on women's health *Voices of the Women's Health Movement* explores a range of provocative topics from reproductive rights to sexuality to motherhood Trail blazing advocate Barbara Seaman and health activist Laura Eldridge bring the revolutionary ideas of several generations together in this powerful new book celebrating women's bodies and women's voices The more than two hundred contributors include Jennifer Baumgardner Susan Brownmiller Phyllis Chesler Angela Y Davis Barbara Ehrenreich Germaine Greer Shulamith Firestone Charlotte Perkins Gilman Erica Jong Molly Haskell Shere Hite Susie Orbach Judith Rossner Alix Kates Shulman Gloria Steinem Sojourner Truth Rebecca Walker Naomi Wolf and many others With *Voices of the Women's Health Movement* for the first time every woman and girl can experience in one place the powerful history of stirring words and strong female perspectives that have inspired countless women to take control of their health and their lives Volume One highlights include influential writings on birth control menstruation pregnancy and birthing motherhood menopause abortion and lesbian bisexual and transgender health **Fat Shame** Amy Erdman Farrell, 2011-05-02 One of Choice's Significant University Press Titles for Undergraduates 2010 2011 A necessary cultural and historical discussion on the stigma of fatness To be fat hasn't always occasioned the level of hysteria that this condition receives today and indeed was once considered an admirable trait *Fat Shame Stigma and the Fat Body in American Culture* explores this arc from veneration to shame examining the historic roots of our contemporary anxiety about fatness Tracing the cultural denigration of fatness to the mid 19th century Amy Farrell argues that the stigma associated with a fat body preceded any health concerns about a large body size Firmly in place by the time the diet industry began to flourish in the 1920s the development of fat stigma was related not only to cultural anxieties that emerged during the modern period related to consumer excess but even more profoundly to prevailing ideas about race civilization and evolution For 19th and early 20th century thinkers fatness was a key marker of inferiority of an uncivilized barbaric and primitive body This idea that fatness is a sign of a primitive person endures today fueling both our 60 billion war on fat and our cultural distress over the obesity epidemic Farrell draws on a wide array of sources including political cartoons popular literature postcards advertisements and physicians manuals to explore the link between our historic denigration of fatness and our contemporary concern over obesity Her work sheds particular light on feminism's fraught relationship to fatness From the white suffragists of the early 20th century to contemporary public figures like Oprah Winfrey Monica Lewinsky and even the Obama family Farrell explores the ways that those who seek to shed stigmatized identities whether of gender race ethnicity or class often take part in weight reduction schemes and fat mockery in order to validate themselves as civilized In sharp contrast to these narratives of fat shame are the ideas of contemporary fat activists whose articulation of a new vision of the body Farrell

explores in depth This book is significant for anyone concerned about the contemporary war on fat and the ways that notions of the civilized body continue to legitimate discrimination and cultural oppression
