by Loeb Searing and Stineman left off this is the definitive guide to the literature of women's studies. It is a must purchase for academic libraries that support women's studies programs and a welcome addition to any academic or public library that endeavors to represent the field. **Encyclopedia of Women Social Reformers** Helen Rappaport, 2001-12-06. The first comprehensive guide to women activists from every part of the world illuminating the broad range of women's struggles to reform society from the 18th century to the present. Despite being marginalized, disenfranchised, impoverished and oppressed, women have always stepped forward in disproportionate numbers to lead movements for social change. This two-volume encyclopedia documents the visions, struggles and lives of women who have changed the world. This encyclopedia celebrates the lives and achievements of nearly 300 women from around the globe: women who have bravely insisted that the way things are is not the way they have to be. Nadeshda Krupskaya, the wife of Lenin, spearheaded the drive against illiteracy in post-revolutionary Russia. American Dorothy Day founded the Catholic worker movement. Begum Rokeya Hossain organized a girls' school in Calcutta in 1911. Rachel Carson launched the modern environmental movement with her book *Silent Spring*. The stories of these women and the hundreds of others collected here will restore missing pages to our history and inspire a new generation of women to change the world. **Feminine Principles and Women's Experience in American Composition and Rhetoric** Louise Phelps, Janet Emig, 2020-03-16. In this unique collection, the editors and authors examine against a rich historical background the complex contributions that women have made to composition and rhetoric in American education. Using varied and at times experimental modes of presentation to portray teachers and learners at work, including the very young and the elderly, the text provides a generous and fresh feminine perspective on the field. **"Right Makes Might"** Wolfgang Mieder, 2019-04-04. A powerful and timely addition to the literature of rhetoric and folklore. Choice. In 1860, Abraham Lincoln employed the proverb "Right makes might" opposite of the more aggressive "Might makes right" in his famed Cooper Union address. While Lincoln did not originate the proverb, his use of it in this critical speech indicates that the fourteenth-century phrase had taken on new ethical and democratic connotations in the nineteenth century. In this collection, famed scholar of proverbs Wolfgang Mieder explores the multifaceted use and function of proverbs through the history of the United States from their early beginnings up through their use by such modern-day politicians as Barack Obama, Hillary Rodham Clinton, and Bernie Sanders. Building on previous publications and unpublished research, Mieder explores sociopolitical aspects of the American worldview as expressed through the use of proverbs in politics, women's rights, and the civil rights movement, and by looking at the use of proverbial phrases, Mieder demonstrates how one traditional phrase can take on numerous expressive roles over time and how they continue to play a key role in our contemporary moment. **The Spinifex Quiz Book** Susan Hawthorne, 1993. Who invented hieroglyphics? Who did Einstein's mathematics? Who led the defence of Viet Nam in 40 AD? Who invented the first computer? Who built the pyramid at Giza? Who developed the merino sheep?
