Crafting Preservation Criteria John H. Sprinkle, Jr., 2014-03-05 In 1966 American historic preservation was transformed by the passage of the National Historic Preservation Act which created a National Register of Historic Places Now comprising more than 1 4 million historic properties across the country the National Register is the official federal list of places in the United States thought to be worthy of preservation One of the fundamental principles of the National Register is that every property is evaluated according to a standard set of criteria that provide the framework for understanding why a property is significant in American history The origins of these criteria are important because they provide the threshold for consideration by a broad range of federal preservation programs from planning for continued adaptive use to eligibility for grants and inclusion in heritage tourism and educational programs Crafting Preservation Criteria sets out these preservation criteria for students explaining how they got added to the equation and elucidating the test cases that allowed for their use From artworks to churches from the fifty year rule to the historic scene students will learn how places have been historically evaluated to be placed on the National Register and how the criteria evolved over time

Great Western Pannier Tank Classes David Maidment, 2019-11-30 This comprehensive and fully illustrated history presents an in depth look at the Great Western Railway s various pannier tank engines Though hauling freight was a vital part of Great Western Railway s history and where it made the majority of its profit there are few books devoted to the stout powerful engines that did the work In Great Western Pannier Tank Classes British Railways expert David Maidment corrects that oversight This volume explores the large number of 0 6 0 saddle tanks built for both the Great Western Railway and the independent railway companies in South Wales most of which were converted to pannier tanks in the Churchward and Collett eras While covering the Armstrong and Dean engines in detail Maidment goes on to describe the design construction and operation of the largest class of steam engines built in the UK in the last century Charles Collett s GWR 5700 class examples

of which were still being built after nationalization Collett also designed pannier tank engines for branch passenger and freight work and his successor Frederick Hawsworth continued the GW tradition with a tapered boiler version All of these are discussed in depth in terms of their design and service A concluding chapter covers further designs that were never built

Newport's Mansions Mary Cable,2017-02-07 One of them was built without wood and the other lacked doorknobs but they flaunted all the amenities that Old World skills Vanderbilt money and the unbridled taste of Richard M Hunt could provide Here in this essay by journalist and historian Mary Cable is the story of Newport s Marble Cottages *Proposed National Historic Preservation Fund Program* United States. Adopting the Melody of Term: An Psychological Symphony within **Newport Preservd**

In some sort of consumed by monitors and the ceaseless chatter of instant conversation, the melodic elegance and mental symphony developed by the written term frequently fade in to the background, eclipsed by the constant noise and interruptions that permeate our lives. But, set within the pages of **Newport Preservd** a charming fictional treasure brimming with fresh emotions, lies an immersive symphony waiting to be embraced. Constructed by a masterful composer of language, that interesting masterpiece conducts viewers on a psychological trip, skillfully unraveling the concealed songs and profound affect resonating within each cautiously constructed phrase. Within the depths of this emotional assessment, we can examine the book is central harmonies, analyze their enthralling publishing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
