Nuer Religion Edward Evan Evans-Pritchard, 1962 Nuer Religion E. E. Evans-Pritchard, 2015-06-26 Excerpt from Nuer Religion I have previously written two books on the Nuer a cattle herding people dwelling in the swamps and savannah of the southern Anglo Egyptian Sudan The Nuer A Description of the Modes of Livelihood and Political Institutions of a Nilotic People was published in 1940 and Kinship and Marriage among the Nuer in 1951 The present volume Nuer Religion completes a study of the Nuer which began in 1930 Accounts of religion in writings on the Nuer are generally meagre and superficial The only detailed treatment is in Father J P Crazzolara s Zur Gesellschaft und Religion der Nuer 1953 much of which appeared earlier in volume viii of Father W Schmidt s Der Ursprung der Gottesidee 1949 Those who read his account will see that it differs in many respects from what I now present though less with regard to fact than in emphasis and interpretation Although Nuer religious ideas and practices were a part of their way of life which greatly interested me it was that to which I was able to give least attention during my short residence of a year in Nuerland It was necessary to learn their language and to study their manner of livelihood and their family kinship and political activities before giving close attention to the more difficult problems of their religious thought These tasks all the heavier in the arduous conditions in which they had to be carried out left me little time to pursue anything which could be called a systematic inquiry into religious matters What I record I witnessed myself or is information given spontaneously during talks about other and more practical affairs or in comment on some event or experience Such observations may however be more valuable in a study of religious thought than those derived from purposive inquiry This is especially so when a people lack as the Nuer do anything which offers easy scope for such an inquiry for they have nothing which can properly be called dogma liturgy and sacraments in sensu stricto and they lack a developed religious cult and mythology This is doubtless one of the reasons why for the most part those who have written about the Nuer have said so little about their religion About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Evans-Pritchard, 2017-09-16 Excerpt from Nuer Religion This difficulty is not easily overcome because it is not merely a matter of definitions but involves also personal judgement It would be useless to deny this and rash to ignore it It may be said that in describing and interpreting a primitive religion it should make no difference whether the writer is an agnostic or a Christian Jew Muslim Hindu or whatever he may be but in fact it makes a great deal of difference for even in a descriptive study judgement can in no way be avoided Those who give assent to the religious beliefs of their own people feel and think and therefore also write differently about the beliefs of other peoples from those who do not give assent to them This is not the place to discuss further this difficulty I merely wish to recognize that it exists and that it introduces into writings about religion complications which are not present when writing about for example kinship or husbandry I am of course well aware that Nuer religion is very unlike what we know in general about Negro religions One cannot even say that it is a typical Nilotic religion It is certainly very unlike the religion of the Anuak of the Luo of Kenya of the Acholi of the Alur or of the Shilluk Indeed only the religion of the Dinka can be said to have strongly marked affinities with it and it can be further said that in some respects the religions of these two peoples resemble less other Negro religions than some of the historic religions They have features which bring to mind the Hebrews of the Old Testament Professor C G Seligman clearly sensed this as his account of the Dinka and Nuer shows and Iviiss Ray Huffman an American Presbyterian missionary who spent many years among the Nuer remarks that the missionary feels as if he were living in Old Testament times and in a way this is true 1 When therefore I sometimes draw comparisons between Nuer and Hebrew conceptions it is no mere whim but is because I myself find it helpful and I think others may do so too in trying to understand Nuer ideas to note this likeness to something with which we are ourselves familiar without being too intimately involved in it About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a

Indigenous Religions Graham Harvey,2000-01-01 Indigenous religions are the majority of the world s religions This Companion shows how much they can contribute to a richer understanding of human identity action and relationships An international team of contributors discuss representative indigenous religions from all continents The book is in three parts Persons Powers and Gifts Relevant to everyone interested in human religiosity today *Anthropological Studies of Religion* Brian Morris,1987-02-27 A lucid outline of explanations of religious phenomena offered by such great thinkers as Hegel Marx and Weber *The Religion of Paul the Apostle* John Ashton,University Lecturer in New Testament Studies John Ashton,2000-01-01 Paul the Apostle has traditionally been viewed as a thinker and theologian and scholars have focused almost exclusively on his ideas rather than on his religious experience In this book a leading New Testament scholar challenges this view of Paul John Ashton demonstrates how closely Paul s own career resembles that of a typical shaman and he shows how every important aspect of Paul s life and ministry may be illuminated by focusing on his experience Drawing not only on Paul s letters but also on contemporary writings in the Jewish and Hellenistic worlds Ashton discusses a number of important issues relevant to the understanding of Paul and to the origins of Christianity whether Paul is properly described as a convert a mystic an apostle a prophet or a charismatic what his attitude was to the Jewish traditions he inherited why he felt called upon to preach not to his fellow Jews but to the Gentiles what accounts for the remarkable success of his strange new Gospel and how we can explain his language of spirit possession Christ lives in me In addressing these issues Ashton demonstrates that to regard Christianity simply as a religion of the word is to ignore a vital truth about its origins **The Slain God** Timothy Larsen,2014-08-28 Throughout its entire history the discipline of anthropology has been perceived as undermining or even discrediting Christian faith Many of its most prominent theorists have been agnostics who assumed that ethnographic findings and theories had exposed religious beliefs to be untenable E B Tylor the founder of the discipline in Britain lost his faith through studying anthropology James Frazer saw the material that he presented in his highly influential work *The Golden Bough* as demonstrating that Christian thought was based on the erroneous thought patterns of savages On the other hand some of the most eminent anthropologists have been Christians including E E Evans Pritchard Mary Douglas Victor Turner and Edith Turner Moreover they openly presented articulate reasons for how their religious convictions cohered with their professional work Despite being a major site of friction between faith and modern thought the relationship between anthropology and Christianity has never before been the subject of a book length study In this groundbreaking work Timothy Larsen examines the point where doubt and faith collide with anthropological theory and evidence *Lugbara*

Religion John Middleton, 1999 This was the first full length account of this hitherto little known people and remains one of the very few modern accounts of an African ancestral cult **Introducing Anthropology of Religion** Jack David

Religion Hent de Vries, 2008 What do we talk about when we talk about religion Is it an array of empirical facts about historical human civilizations Or is religion what is in essence unpredictable perhaps the very emergence of the new In what ways are the legacies of religion its powers words things and gestures reconfiguring themselves as the elementary forms of life in the twenty first century Given the Latin roots of the word religion and its historical Christian uses what sense if any does it make to talk about religion in other traditions Where might we look for common elements that would enable us to do so Has religion as an overarching concept lost all its currency or does it ineluctably return sometimes in unexpected ways the moment we attempt to do without it This book explores the difficulties and double binds that arise when we ask What is religion Offering a marvelously rich and diverse array of perspectives it begins the task of rethinking religion and religious studies in a contemporary world Opening essays on the question What is religion are followed by clusters exploring the relationships among religion theology and philosophy and the links between religion politics and law Pedagogy is the focus of the following section Religion is then examined in particular contexts from classical times to the present Pentecostal revival leading into an especially rich set of essays on religion materiality and mediatization The final section grapples with the ever changing forms that religion is taking such as spirituality movements and responses to the ecological crisis Featuring the work of leading scholars from a wide array of disciplines traditions and cultures *Religion Beyond a Concept* will help set the agenda for religious studies for years to come It is the first of five volumes in a collection entitled *The Future of the Religious Past* the fruit of a major international

research initiative funded by the Netherlands Organization for Scientific Research **Genealogies of Religion** Talal Asad, 1993-08-18 In *Genealogies of Religion* Talal Asad explores how religion as a historical category emerged in the West and has come to be applied as a universal concept The idea that religion has undergone a radical change since the Christian Reformation from totalitarian and socially repressive to private and relatively benign is a familiar part of the story of secularization It is often invoked to explain and justify the liberal politics and world view of modernity And it leads to the view that politicized religions threaten both reason and liberty Asad's essays explore and question all these assumptions He argues that religion is a construction of European modernity a construction that authorizes for Westerners and non

Westerners alike particular forms of history making *Selected Readings in the Anthropology of Religion* Stephen D. Glazier, Charles A. Flowerday, 2003-12-30 Brings together in one volume a number of key theoretical and methodological advances in the anthropological study of religion Chapters cover important topics not ordinarily included in books dealing with the anthropology of religion e g bipedalism the study of alcohol film and video images notions of religious agency In addition this collection is intended to build bridges between anthropologists of religion and religious studies scholars Over the last four decades anthropologists have grappled with the dialectical relationship between the examination of cultures from the emic or insider perspective and the etic or outsider perspective Nowhere is this creative tension more evident than in the anthropological study of religion In this volume anthropologists and religious studies scholars come to terms not only with a landscape that has shifted fundamentally but a landscape that is still shifting Essays in this collection raise new and important issues for the anthropological study of religion in new and important ways In intensely personal essays a number of contributors address two fundamental concerns in the study of religion 1 how should anthropologists deal with the beliefs and practices of others and 2 how should anthropologists deal with their own religious backgrounds and beliefs as these may affect their understanding of the beliefs and practices of others A partial resolution to both questions is necessary before the anthropological study of religion can advance to a higher level **The Routledge Handbook of Translation and Religion**

Hephzibah Israel, 2022-12-19 The *Routledge Handbook of Translation and Religion* is the first to bring together an extensive interdisciplinary engagement with the multiple ways in which the concepts and practices of translation and religion intersect The book engages a number of scholarly disciplines in conversation with each other including the study of translation and interpreting religion philosophy anthropology history art history and area studies A range of leading and emerging international specialists critically engage with changing understandings of the key categories translation and religion as discursive constructs thus contributing to the development of a new field of academic study translation and religion The 28 contributions divided into six parts analyze how translation constructs ideas texts or objects as sacred or for religious purposes often in competition with what is categorized as non religious The part played by faith communities is treated as integral to analyses of the role of translation and religion It investigates how or why translation functions in re constructing

and transforming religions and for whom and examines a range of sacred texts in translation from the written to the spoken manuscript to print paper to digital architectural form to objects of sacred art intersemiotic scriptural texts and where commentary exegesis and translation interweave This Handbook is an indispensable scholarly resource for researchers in translation studies and the study of religions

Ritual Catherine Bell, 1997-11-20 From handshakes and toasts to chant and genuflection ritual pervades our social interactions and religious practices Still few of us could identify all of our daily and festal ritual behaviors much less explain them to an outsider Similarly because of the variety of activities that qualify as ritual and their many contradictory yet in many ways equally legitimate interpretations ritual seems to elude any systematic historical and comparative scrutiny In this book Catherine Bell offers a practical introduction to ritual practice and its study she surveys the most influential theories of religion and ritual the major categories of ritual activity and the key debates that have shaped our understanding of ritualism Bell refuses to nail down ritual with any one definition or understanding Instead her purpose is to reveal how definitions emerge and evolve and to help us become more familiar with the interplay of tradition exigency and self expression that goes into constructing this complex social medium

The Political Economy of Development Robert H. Bates, 2020-10-29 Those studying development often address the impact of government policies but rarely the politics that generate these policies A culmination of several decades of work by Robert Bates among the most respected comparativists in political science this compact volume seeks to rectify that omission Bates addresses the political origins of prosperity and security and uncovers the root causes of under development Without the state there can be no development but those who are endowed with the power of the state often use its power to appropriate the wealth and property of those they rule When do those with power use it to safeguard rather than to despoil Bates explores this question by analyzing motivations behind the behaviour of governments in the developing world drawing on historical and anthropological insights game theory and his own field research in developing nations

ISONG URUA ADIAKOD: THE UNTOLD STORY AND THE POLITICS OF BAKASSI HANDOVER Prince Kofi Itiat, 2012-09-19 This is a story of people sent out of their ancestral land as refugees So the cover design will show women carrying their babies on the backs typical of African women with loads on their heads
