Entangled Heritages Olaf Kaltmeier,Mario Rufer,2016-07-01 Relying on the concept of a shared history this book argues that we can speak of a shared heritage that is common in terms of the basic grammar of heritage and articulated histories but divided alongside the basic difference between colonizers and colonized This problematic is also evident in contemporary uses of the past The last decades were crucial to the emergence of new debates subcultures new identities hidden voices and multicultural discourse as a kind of new hegemonic platform also involving concepts of heritage and or memory Thereby we can observe a proliferation of heritage agents especially beyond the scope of the nation state This volume gets beyond a container vision of heritage that seeks to construct a diachronical continuity in a given territory Instead authors point out the relational character of heritage focusing on transnational and translocal flows and interchanges of ideas concepts and practices as well as on the creation of contact zones where the meaning of heritage is negotiated and contested Exploring the relevance of the politics of heritage and the uses of memory in the consolidation of these nation states as well as in the current disputes over resistances hidden memories undermined pasts or the politics of nostalgia this book seeks to seize the local global dimensions around heritage *Amazigh magazine Enero 2024* ,2024-01-12 Vuelve a sonar el bucio Comenzamos
