**Nuggets of Goldrush History** Mildred Forester, Roy Pence, 1999-08-01 *Nuggets of Gold* Patrick Dixon, 2024-10 For McDonald's the Chicken McNugget, the flagship product of further processed chicken, represented a once-in-a-generation innovation, a snack item that quickly evolved into a meal, spawned a legion of imitators, and gained a large share of the global poultry market. Yet almost as soon as the McNugget made its North American debut, it quickly became the subject of opprobrium and ridicule, taking on a symbolic status among serious food connoisseurs as an indication of Americans' culinary decline and a growing disconnection

between diners and the origins of the food that they ate During a time of rising beef prices and growing health concerns regarding red meats the Chicken McNugget was received as a lighter alternative to traditional burger meals clean and easy to consume popular with children and adaptable to busy on the go lifestyles of working parents Consumers understood that they were not purchasing a premium product made from the finest cuts but selected the McNugget as a rational economic purchase that represented a new way of dining In reassembling the rise of poultry in the United States Nuggets of Gold presents a multilayered approach connecting the entwined stories of workers and industrialists with restaurateurs and consumers the former geographically moored within the South the latter diverse and nationwide Patrick Dixon centers further processed chicken within an analysis of the U S food system that demonstrates that consumers did not unwittingly succumb to a junk food diet but made deliberate and aspirational decisions based on conceptions of leisure lifestyle and bodily needs

The Gold Crusades Douglas Fetherling,George Fetherling,1997-01-01 Among the hordes of starry eyed argonauts who flocked to the California gold rush of 1849 was an Australian named Edward Hargraves He left America empty handed only to find gold in his own backyard The result was the great Australian rush of the 1850s which also attracted participants from around the world A South African named P J Marais was one of them Marais too returned home in defeat only to set in motion the diamond and gold rushes that transformed southern Africa And so it went Most previous

historians of the gold rushes have tended to view them as acts of spontaneous nationalism Each country likes to see its own gold rush as the one that either shaped those that followed or epitomized all the rest In *The Gold Crusades A Social History of Gold Rushes 1849-1929* Douglas Fetherling takes a different approach Fetherling argues that the gold rushes in the United States Canada Australia New Zealand and South Africa shared the same causes and results the same characters and characteristics He posits that they were in fact a single discontinuous event an expression of the British imperial experience and nineteenth century liberalism He does so with dash and style and with a sharp eye for the telling anecdote the out of the way document and the bold connection between seemingly unrelated disciplines Originally published by Macmillan of
