The Ethic of Care: A Moral Compass for Canadian Nursing Practice is unique from other nursing ethics textbooks in several key ways. The book adds a heightened dimension to the already rich knowledge in the field of applied nursing ethics and the ethic of care. The author argues that the ethic of care or the moral imperative to act justly be the guiding compass for everything that nurses do. It is with passion and conviction that nurses are encouraged to embody the ethic of care as a lived virtue. Nurses are also inspired to be the leaders of tomorrow by working toward achieving accountability and sustainability in the Canadian publicly funded health care system and by effectively addressing social inequities. At the end of each chapter the author conveys real life case studies as derived from her experiences as a critical care nurse, psychiatric nurse, clinician and former Coroner. These vignettes bring the subject to life and serve as a means for applying newly acquired ethical knowledge. The aim of this book is to inspire nurses to be as skillful and compassionate as they can be so that they will leave every encounter with their clients better than when they first arrived. The book attempts to inspire nurses to be ethical leaders for social change at the patient, client, community and global level. This revised edition of the book includes additional information about trauma informed care to combat systemic racism and improve the health outcomes for Indigenous people. Ethics, gender and sexual orientation is dealt with in an inclusive and sensitive way and a new Code of Conduct has been included.
