Working At Night Ger Duijzings, Lucie Dušková, 2022-10-03 The night represents almost universally a special liminal or out of the ordinary temporal zone with its own meanings possibilities and dangers and political cultural religious and social implications Only in the modern era was the night systematically colonised and nocturnal activity normalised in terms of industrial labour and production processes Although the globalised 24/7 economy is usually seen as the outcome of capitalist modernisation development and expansion starting in the late nineteenth century other consecutive and more recent political and economic systems adopted perpetual production systems as well extending work into the night and forcing workers to work the night shift normalising it as part of an alternative non capitalist modernity This volume draws attention to the extended work hours and night shift work which have remained underexplored in the history of labour and the social science literature By describing and comparing various political and economic regimes it argues that from the viewpoint of global labour history night labour and the spread of 24/7 production and services should not be seen only and exclusively as an epiphenomenon of capitalist production but rather as one of the outcomes of industrial modernity

The Fourth Horseman Robert Koenig, 2009-04-29 The story of Anton Dilger brings to life a missing chapter in U S history and shows dramatically that the Great European War was in fact being fought on the home front years before we formally joined it The doctor who grew anthrax and other bacteria in that rented house was an American the son of a Medal of Honor winner who fought at Gettysburg on a secret mission for the German Army in 1915 The Fourth Horseman tells the startling story of that mission led by a brilliant but conflicted surgeon

who became one of Germany's most daring spies and saboteurs during World War I and who not only pioneered biowarfare in his native land but also led a last ditch German effort to goad Mexico into invading the United States. It is a story of mysterious missions, divided loyalties and a new and terrible kind of warfare that emerged as America in spite of fierce dissension at home was making the decision to send its Doughboys to the Great War in Europe. This story has never been told before in full. And Dilger is a fascinating analog for our own troubled times. Having thrown off the tethers of obligation to family and country he became a very dangerous man indeed. A spy, a saboteur and a zealot to a degree that may have so embarrassed the German High Command that after the war they ordered his death rather than admit that he worked for them. **American Book Publishing Record**, 2004 Hilma Af Klint Julia Voss, 2022-10-19. A highly anticipated

biography of the enigmatic and popular Swedish painter. The Swedish painter Hilma af Klint 1862-1944 was forty-four years old when she broke with the academic tradition in which she had been trained to produce a body of radical abstract works the likes of which had never been seen before. Today it is widely accepted that af Klint was one of the earliest abstract academic painters in Europe. But this is only part of her story. Not only was she a working female artist, she was also an avowed clairvoyant and mystic. Like many of the artists at the turn of the twentieth century who developed some version of abstract painting, af Klint studied Theosophy which holds that science, art and religion are all reflections of an underlying life form that can be harnessed through meditation, study and experimentation. Well before Kandinsky, Mondrian and Malevich declared themselves the inventors of abstraction, af Klint was working in a nonrepresentational mode, producing a powerful visual language that continues to speak to audiences today. The exhibition of her work in 2018 at the Guggenheim Museum in New York City attracted more than 600,000 visitors, making it the most attended show in the history of the institution. Despite her enormous popularity, there has not yet been a biography of af Klint until now. Inspired by her first encounter with the artist's work in 2008, Julia Voss set out to learn Swedish and research af Klint's life, not only who the artist was but what drove and inspired her. The result is a fascinating biography of an artist who is as great as she is enigmatic. *The British National Bibliography* Arthur James Wells, 2005 **Mütter - Liebchen - Heroinen** Rudolf Jaworski, 2015-03-25. Obwohl der

Erste Weltkrieg von Männern geführt wurde, spielten Frauen sowohl im Kriegsalltag wie auch in der Kriegspropaganda eine kaum zu überschätzende Rolle. In europäischer vergleichender Perspektive untersucht dieses reich bebilderte Buch erstmalig die einschlägigen geschlechtsspezifischen Klischees anhand von Bildpostkarten, eines damals viel genutzten Mediums der Propaganda und der Massenkommunikation. Die wissenschaftlich fundierte und zugleich unterhaltsam geschriebene Studie leistet damit einen originellen Beitrag zur Gendergeschichte und zur politischen Ikonographie des Ersten Weltkriegs.

Mänskligheten kommer att förändras : Hilma af Klint - en biografi Julia Voss, 2021-11-02. Hilma af Klint skapade mer än tusen målningar, skisser och akvareller och har revolutionerat måleriet. Redan före Kandinsky och Mondrian målade hon abstrakta verk. Hon drog sig medvetet tillbaka från den manligt dominerade konstvärlden och hon visste att hon var före sin tid.

vid sjuttio år lader best mde hon att hennes bilder skulle få visas först tjugo år efter hennes död terupptäckten av den svenska konstnären Hilma af Klints verk är den största konsthistoriska händelsen under senare år. Utifrån ett gediget forskningsarbete berättar nu Julia Voss historien om denna ovanliga konstnärns liv krossar många klichéer och myter och tecknar också en bild av en epok som i en världspolitiskt omvälvande tid inte bara revolutionerade konsten.

World War I Media, Entertainments & Popular Culture Chris Hart, 2018 Entertainments and popular cultures played a major part in the lives of those experiencing the First World War. This collection of studies spans the role of newspapers, films, posters and music and much more looking at the different ways different media entertainments were produced and consumed during the war.
