Nurturing Intelligences:

Nurturing Intelligences Brian A. Haggerty, 1995 *Nurturing Intelligences* provides an accessible introduction to Howard Gardner's theory of multiple intelligences and its importance for classroom teaching. This lively teacher's resource book provides practical suggestions for applying the multiple intelligences theory to teaching in general and to teaching core literature in particular for grades 4-12. Brian Haggerty's engaging style involves the reader immediately in assessing her or his own teaching style and students' learning styles and designing curriculum that will fit both.

8 Great Smarts Kathy Koch PhD, 2016-02-18 Your child is smart but does he or she believe it? Smart is a power word. Children who believe they're smart excel more in school and approach life with greater confidence. But children who don't can struggle to apply themselves. Do you wish your child could see how smart he or she is? Find hope in *8 Great Smarts*. You'll be empowered and equipped with new language and creative ideas for how to accept and affirm your child's unique smarts. Motivate your child to learn and study with all 8 smarts. Reawaken any paralyzed smarts. Redirect misbehavior in new constructive ways. Guide your child spiritually, relationally, and to a good career fit. Dr. Kathy Koch loves seeing children flourish and helping parents make it happen, and it's never too late to start. Now is the time to help your child be all that God designed him or her to be. Revised edition of *How Am I Smart?*
