**NNC Governing Board Resolution No. 1, Series of 2022**

**Adopting the National Policy on Nutrition in Emergencies, Tasking NNC Governing Board Member Agencies to Ensure the Efficient and Effective Implementation of the Policy, and Tasking the Nutrition Cluster to Formulate the Appropriate Advisories, Guidelines, and Other Materials to Disseminate and Implement the Policy**

**WHEREAS**, emergencies and disasters disrupt the lives of populations affected, putting them at risk of developing various undesirable health and related conditions, including those that threaten the nutritional status of individuals especially the most vulnerable groups: infants, children, adolescents, pregnant women and breastfeeding mothers, older persons, persons with disabilities, people living with debilitating conditions, and indigenous peoples;

**WHEREAS**, the risk of deterioration in the nutritional status of the population likewise limits the achievement of the Philippine Plan of Action for Nutrition (PPAN) targets, Sustainable Development Goal (SDG) No. 2 (Zero Hunger) and other related SDGs;

**WHEREAS**, such a threat could be mitigated through the delivery of various nutrition-specific and nutrition-sensitive interventions, as well as related interventions, which are best identified and implemented through processes that allow the maximum participation of those affected;

**WHEREAS**, the delivery of quality nutrition-specific and related interventions could be facilitated through clear and practical quality standards;

**WHEREAS**, on 03 December 2009, the NNC Governing Board approved the Resolution No. 1 adopting the National Policy on Nutrition Management in Emergencies and Disasters;

**WHEREAS**, since the policy was adopted, the country has been adversely affected by emergencies, disasters, and worsening impacts of climate change, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Yolanda (2013) and Odette (2021); Zamboanga Siege (2013); Bohol Earthquake (2013); Marawi City Siege (2017); Taal Volcano Eruption (2020); and the COVID-19 Pandemic (2020), through which more lessons have been learned along nutrition management in emergencies;

**WHEREAS**, the disaster risk reduction and management system in the Philippines has evolved significantly, which included the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters and the designation of National Nutrition Council as the Chair of the National Nutrition Cluster, a sub-cluster under the Health Quad Cluster, chaired by the Department of Health;

**WHEREAS**, in April 2018, the NNC Governing Board approved the Resolution No. 2 adopting the Strategic Plan on Nutrition in Emergencies (NIE) for 2017-2022;

**WHEREAS**, the Strategic Plan aims for a purposive action to address the gaps and enhance the benefit from positive lessons learned to contribute to the achievement of nutrition targets during emergencies and disasters;

*Handbook of Pain and Aging* David I. Mostofsky, Jacob Lomranz, 2013-11-11

From time to time professional journals and edited volumes devote some of their pages to considerations of pain and aging as they occur among the aged in different cultures and populations. One starts from several reasonable assumptions among them that aging per se is not a disease process yet the risk and frequency of disease processes increase with ongoing years. The physical body's functioning and ability to restore all forms of damage and insult slow down, the immune system becomes compromised and the slow growing pathologies reach their critical mass in the later years. The psychological body also becomes weaker with unfulfilled promises and expectations and with tragedies that visit individuals and families and the prospect that whatever worlds remain to be conquered will most certainly not be met with success in the rapidly passing days and years that can only culminate in death. Despair and depression coupled with infirmity and sensory and/or motor inefficiency aggravate both the threshold and the tolerance for discomfort and synergistically collaborate to perpetuate a vicious cycle in which the one may mask the other. Although the clinician is armed with the latest advances in medicine and pharmacology, significant improvement continues to elude her or him. The geriatric specialist, all too familiar with such realities, usually can offer little else than a hortative to learn to live with it but the powers and effectiveness of learning itself have declined.

**Evaluating the Impact of Nutrition and Health Programs** Robert E. Klein, 2012-12-06

As is noted in the opening chapter of this volume, nutrition and public health programs have been important throughout Latin America and the Caribbean for many years. This is due to the special

concerns of those responsible for setting national policies the program experience and leadership in public health developed by the national governments and the stimulus and cooperation of the Pan American Health Organization PAHO including its twelve associated centers which focus on research training and program development The need for a coordinated hemisphere wide attack on malnutrition and other health problems was expressed clearly in the Ten Year Health Plan for the Americas 1 This plan established specific targets for reducing the prevalence of the major nutritional diseases and other health problems for the decade 1971 1980 It was noted at that time that very few countries had formulated adequate comprehensive national food and nutrition policies and plans nor had they developed strategies for combating the nutritional deficiencies known to affect large numbers of people throughout the Region Following a review of the available data on a country by country basis in 1975 the PAHO Directing Council endorsed recommendations for formulating the necessary national policies and strategies for the intersectorial execution of food nutrition and health programs 2 This report also summarized the available national data related to nutritional status existing programs such as food fortification and the human resources available for services as well as for research and education *IAPSM's Textbook of Community Medicine*

Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Nutrition And National Policy. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Nutrition And National Policy, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Nutrition And

National Policy has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
