Pediatric Consultation-Liaison Psychiatry Anthony P. S. Guerrero, Paul C. Lee, Norbert Skokauskas, 2018-08-02 This ambitious resource presents an inventive approach to integrating pediatric and mental health care based in comprehensive family centered service delivery. Its framework adds a problem solving focus to the core principles of pediatric consultation liaison psychiatry, emphasizing young patients' developmental, family and social context. An international panel of expert clinicians explores the value of the mental health component in treating complex and chronic cases across varied settings as well as practical considerations in implementing collaborative pediatric care systemwide including at the global level. Detailed case histories illustrate skills and traits essential to making this problem based approach work such as multidimensional thinking, a prevention mentality, a dedication to lifelong learning and empathy and respect for young clients and their families. Included in the coverage: Pediatric medicine for the child psychiatrist, Safety issues in a general medical facility setting, Other medical presentations and considerations in pediatric consultation liaison psychiatry, Principles of biopsychosocial formulation and interventions in the pediatric medical setting, Preventive models for reducing major causes of morbidity and mortality in childhood, Child and adolescent psychiatrists, child and school psychologists and physicians in pediatrics, general practice and family medicine will welcome Pediatric Consultation Liaison Psychiatry as both a robust training text and a blueprint for the future of children's medicine.

Health Promotion in Multicultural Populations Michael V. Kline, Robert M. Huff, 2008-06-11 The thoroughly updated Second Edition of Health Promotion in Multicultural Populations grounds readers in the understanding that health promotion programs in multicultural settings require an in depth knowledge of the cultural group being targeted. Numerous advances and improvements in theory and practice in health promotion and disease prevention (HPDP) are presented. Editors Michael V. Kline and Robert M. Huff have expanded the book to include increased attention directed to students and instructors while also continuing to provide a handbook for practitioners in the field. This book combines the necessary pedagogical features of a textbook with the scholarship found in a traditional handbook. Several new chapters have been added early in the text to provide stronger foundations for understanding the five sections that follow. The book considers five specific multicultural groups: Hispanic/Latino, African American, American Indian and Alaska Native, Asian American and Pacific Islander populations. The first chapter in each of the five population group sections presents an overview devoted to understanding this special population from a variety of perspectives. The second chapter of each section explains how to assess, plan, implement and evaluate health promotion programs for each of the specific groups. The third chapter in each section highlights a case study to emphasize points made in the overview and planning chapters. The fourth chapter in each section provides Tips for working with the cultural groups described in that section. New to the Second Edition: Devotes a chapter to

traditional health beliefs and traditions that can help the practitioner better understand how these beliefs and traditions can impact on Western biomedical practices Contains a new chapter that evaluates health disparities across the U S Presents a new chapter that examines ethical dilemmas and considerations in a multicultural context Offers updated citations and content throughout Gives selected Web sites of interest Intended Audience This book is ideal for practitioners and students in the fields of health promotion and education public health nursing medicine psychology sociology social work physical therapy radiology technology and other allied professions **Research** Elaine R. Monsen,Linda Van Horn,2007-09 A comprehensive guide for survey planning study and questionnaire design and execution and presentation of research Topics include evidence based practice appetite assessment estimating sample size economic analysis using DRIs to assess intake and creating consumer research nutrition messages This book is invaluable for practicing professionals and students
