Nutrition And Climatic Stress With Particular Reference To Man:

Nutrition and Resistance to Climatic Stress Harold Hanson Mitchell, Marjorie Edman, 1949 *Nutritional Needs in Cold and High-Altitude Environments* Institute of Medicine, Committee on Military Nutrition Research, 1996-06-15 This book reviews the research pertaining to nutrient requirements for working in cold or in high altitude environments and states recommendations regarding the application of this information to military operational rations It addresses whether aside from increased energy demands cold or high altitude environments elicit an increased demand or requirement for specific nutrients and whether performance in cold or high altitude environments can be enhanced by the provision of increased amounts of specific nutrients *Nutrition Under Climatic Stress* Armed Forces Food and Container Institute (U.S.), 1954

National Nutrition Policy Study, 1974 United States. Congress. Senate. Select Committee on Nutrition and Human Needs, 1974 **Nutritional Needs in Hot Environments** Institute of Medicine, Committee on Military Nutrition Research, 1993-01-01 This volume examines the current state of knowledge concerning the influence of a hot environment on nutrient requirements of military personnel A parallel concern is ensuring that performance does not decline as a result of inadequate nutrition The committee provides a thorough review of the literature in this area and interprets the diverse data in terms of military applications In addition to a focus on specific nutrient needs in hot climates the committee considers factors that might change food intake patterns and therefore overall calories Although concern for adequate nutrition for U S soldiers in Saudi Arabia prompted the initiation of this project its scope includes the nutrient needs of individuals who may be actively working in both hot dry and hot moist climates **Nutrition and Climatic Stress, With Particular Reference to Man, by H.H. Mitchell and Marjorie Edman** Harold Hanson Mitchell, 1951 **The Role of Protein and Amino Acids in Sustaining and Enhancing Performance** Institute of Medicine, Committee on Military Nutrition Research, 1999-09-15 It is a commonly held belief that athletes particularly body builders have greater requirements for dietary protein than sedentary individuals However the evidence in support of this contention is controversial This book is the latest in a series of publications designed to inform both civilian and military scientists and personnel about issues related to nutrition and military service Among the many other stressors they experience soldiers face unique nutritional demands during combat Of particular concern is the role that dietary protein might play in controlling muscle mass and strength response to injury and infection and cognitive performance The first part of the book contains the committee s summary of the workshop responses to the Army s questions conclusions and recommendations The remainder of the book contains papers contributed by speakers at the workshop on such topics as the effects of aging and hormones on regulation of muscle mass and function alterations in protein metabolism due to the stress of injury or infection the role of individual amino acids the components of proteins as neurotransmitters hormones and modulators of various physiological processes and the efficacy and safety considerations associated with dietary supplements aimed at enhancing performance **United States Armed Forces**
