The Origins of Living Planets Alexander J. Endress, 2019-12-05 I try to convince my reader that Earth is so special and unique that it s worth saving I do this by starting out with space travel distance to other planets the very low likelihood of aliens visiting us The book comes in two sections first section is about the unlikelihood and difficulties of space travel the second section is about environmental damage and species endangerment We can t just pick up and move to another planet

Nutrition and Diet Therapy Sue Rodwell Williams, 1981 *Basic Concepts of World Nutrition* Elizabeth Selke Hensley, 1981 Abstract Anthropological physiological geographical socioeconomic and psychological aspects of nutrition and basic concepts that interrelate with nutrition the world over are presented for students in both nutrition and nonnutrition areas The global malnutrition and starvation crisis is reviewed Material covered includes an historical perspective of man and diet basic nutrition concepts major nutritional diseases hunger and starvation geographic economic and physiopsychologic aspects of nutrition and attempts to alleviate malnutrition and hunger The 1974 World Food Conference recommended that food and nutrition be included in national development plans aimed at the elimination of hunger in the 1980s Looking towards this potential the integration of various social physical and biological aspects of food intake should reinforce understanding of the basic concepts of world nutrition wz
