Poland And Nato A Study In Civil Military Relations:

Poland and NATO Jeffrey Simon, 2004 Poland and NATO is the third book by Jeffrey Simon on emerging post communist countries to recently join NATO As with the previous two volumes this book contains a treasure of firsthand research grounded in primary source material and personal interviews with key civil and military leaders **Civil-Military**

Relations in Post-Communist Europe Timothy Edmunds, Andrew Cottey, Anthony Forster, 2013-10-18 Fifteen years after the fall of communism we are able to appraise the results of the multi faceted postcommunist transition in Central and Eastern Europe with authority This volume specifically addresses the fascinating area of Civil Military relations throughout this transitional period The countries of the region inherited a onerous legacy in this area their armed forces were part of the communist party state system and most were oriented towards Cold War missions they were large in size and supported by high levels of defence spending and they were based on universal male conscription Central and eastern European states have thus faced a three fold civil military reform challenge establishing democratic and civilian control over their armed forces implementing organisational reform to meet the security and foreign policy demands of the new era and redefining military bases for legitimacy in society This volume assesses the experiences of Poland Hungary Latvia Romania Croatia Serbia Montenegro Ukraine and Russia in these areas Collectively these countries illustrate the way in which the interaction of broadly similar postcommunist challenges and distinct national contexts have combined to produce a wide variety of different patterns of civil military relations This book was previously published as a special issue of European Security

Civil-Military Relations in Russia and Eastern Europe David Betz, 2004-07-31 This book examines how civil military relations have been transformed in Russia Poland Hungary and Ukraine since the collapse of the Soviet Union and the Warsaw Pact in 1991 It shows how these countries have worked to reform their obsolete armed forces and bring them into line with the new economic and strategic realities of the post Cold War world with new bureaucratic structures in which civilians play the key policy making roles and with strengthened democratic political institutions which have the right to oversee the armed forces **Poland in Transatlantic Relations after 1989** Małgorzata Zachara, 2018-01-23 This volume

brings together a number of scholars from a variety of disciplines to examine the phenomenon of the transformation of Poland within the context of regional and global power relations focusing in particular on analyses of the country's political and social development within the area of transatlantic relations It provides a distinct view on the current dynamics and future perspectives of the transatlantic alliance At a time when the story of Poland as the shining example of post Communist success and European integration has been interrupted several other leading narratives of the Western world also appear to be in danger western values cannot be considered to be universal the message of globalization has lost its power and the structure of the international order is described in increasingly delusional terms The study sheds light on features of Poland's performance on the regional scene and will stimulate discussion about the lessons that may be learned from the Polish

experience by other states facing the challenges of transformation The last 25 years of Polish history represent the unquestioned success of this political concept Poland has become an independent actor able to take responsibility for its own future thanks to the favorable configuration of global powers and the support provided by international leaders Was this merely a historical episode that created an opportunity for one actor Can this scenario be repeated Under what conditions

The Handbook of European Defence Policies and Armed Forces Hugo Meijer, Marco Wyss, 2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe

Civil-military Relations After the Nation-state Glen Segell, 2000 NATO Enlargement and Central Europe Jeffrey Simon, 1996 Dotyczy m in Polski **The Routledge Handbook of Civil-Military Relations** Florina Cristiana Matei, Carolyn Halladay, Thomas C. Bruneau, 2021-11-01 This second edition of The Routledge Handbook of Civil Military Relations offers a wide ranging internationally focused overview of the field of civil military relations The armed forces are central actors in most societies and are involved in many different roles Amongst other activities they engage in peace operations support the police in fighting crime support civilian authorities in dealing with natural disasters and fight against terrorists and in internal conflicts The existing literature on this subject is limited in its discussion of warfighting and thus does not do justice to the variety of roles This second edition not only fills this important lacuna but offers an up to date comparative analysis and provides a conceptual framework to analyze how strategies can realistically be implemented Amalgamating ideas from key thinkers in the field the book is organized into three main thematic parts Part I Civil Military Relations in Non Democratic States and Illiberal Democracies Part II Civil Military Relations in New Democracies Part III

Civil Military Relations in Established Democracies This handbook will be essential reading for students and practitioners in the fields of civil military relations defense studies war and conflict studies international security and IR in general

Reforming Civil-Military Relations in New Democracies Aurel Croissant, David Kuehn, 2017-03-20 This book addresses the challenge of reforming defense and military policy making in newly democratized nations By tracing the development of civil military relations in various new democracies from a comparative perspective it links two bodies of scholarship that thus far have remained largely separate the study of emerging or failed civilian control over armed forces on the one hand and work on the roots and causes of military effectiveness to guarantee the protection and security of citizens on the other The empirical and theoretical findings presented here will appeal to scholars of civil military relations democratization and security issues as well as to defense policy makers

Central and East European Politics Sharon L. Wolchik, Jane Leftwich Curry, 2011 A useful text and reference book These essays are at their best in serving both area study and political sociology Slavic Review

Civil-Military Relations in Europe Hans Born, Marina Caparini, Karl Haltiner, Jürgen Kuhlmann, 2006-09-27 This new book illustrates how democracy cannot develop or endure unless military and security forces are under the full control of democratic institutions and all the necessary safeguards checks and balances are in place The contributors show how contemporary European states manage the following issue how does a society primarily through its legitimate democratically elected political leaders and their appointed officials control the military that same state institution that has been established for its protection and wields the monopoly of legitimate force Twenty eight case studies are selected from key countries the Czech Republic Germany Georgia France Hungary Ireland Israel Macedonia Poland Romania Slovenia Serbia and Montenegro Switzerland and the Ukraine The key subjects of these cases vary from corruption to military incompetence disobedience towards civilian superiors to unauthorized strikes and accidents The focus is on the relationship between political civilian and military actors while identifying problems and dangers that can emerge in those relations to the detriment of effective and legitimate democratic control This is essential reading for students of civil military relations democratization European politics and security studies in general

The Evolution of Civil-Military Relations in East-Central Europe and the Former Soviet Union Natalie Mychajlyszyn, Harald von Riekhoff, 2004-05-30 The dismantlement of the communist system of control of the military and its replacement with a democratic model is one of the most significant aspects of the post communist transition in East Central Europe and the former Soviet Union The success of democratic civil military reforms is an important and underappreciated measure of the state of democratic transitions in these countries and it also has important implications for and links with regional security and NATO relations This book examines the state of democratic civil military reforms in nine East Central and former Soviet states Czech Republic Hungary Poland Estonia Latvia Lithuania Bulgaria Russia and Ukraine An examination of these states is of particular interest and importance given their varied relationship with NATO a relationship that is influenced to a large extent by the amount of progress in reforming

their post communist system of control of their militaries Following a comprehensive theoretical chapter on civil military relations the individual chapters consider the accomplishments as well as the outstanding shortcomings of democratic civil military reforms Overall the book argues that the weaknesses apparent in all these countries in the implementation of the democratic norms of civilian control of the military require continued attention in order to strengthen not only the relationship with NATO wither membership is already obtained or sought but also regional security in general

Parameters ,2007 **Military Engagement** Dennis C. Blair,2013-06-28 The response of an autocratic nation s armed forces is crucial to the outcome of democratization movements throughout the world But what exact internal conditions have led to real world democratic transitions and have external forces helped or hurt Here experts with military and policy backgrounds some of whom have played a role in democratic transitions present instructive case studies of democratic movements Focusing on the specific domestic context and the many influences that have contributed to successful transitions the authors write about democratic civil military relations in fourteen countries and five world regions The cases include Argentina Chile El Salvador Egypt Hungary Indonesia Lebanon Nigeria Philippines Senegal South Africa Spain Syria and Thailand augmented by regional overviews of Asia Europe Latin America North Africa and the Middle East and sub Saharan Africa Contributors Richard Akum Council for the Development of Social Sciences in Africa Ecoma Alaga African Security Sector Network Muthiah Alagappa Institute of Security and International Studies Malaysia Suchit Bunbongkarn Institute of Security and International Studies Thailand Juan Emilio Cheyre Center for International Studies Catholic University of Chile Biram Diop Partners for Democratic Change African Institute for Security Sector Transformation Dakar Raymundo B Ferrer Nickel Asia Corporation Humberto Corado Figueroa Ministry of Defense El Salvador Vilmos Hamikus Ministry of Foreign Affairs Hungary Julio Hang Argentine Council for International Relations Marton Harsanyi Stockholm University Carolina G Hernandez University of the Philippines Institute for Strategic and Development Studies Raymond Maalouf Defense expert Lebanon Tannous Mouawad Middle East Studies Lebanon Matthew Rhodes George C Marshall European Center for Security Studies Martin Rupiya African Public Policy and Research Institute Juan C Salgado Brocal Academic and Consultant Council for Military Research and Studies Chile Narc s Serra Barcelona Institute of International Studies Rizal Sukma Centre for Strategic and International Studies Jakarta **In Pursuit of Liberalism** Rachel A. Epstein,2008-09-29 Though the fall of the Soviet Union opened the way for states in central and eastern Europe to join the world of market oriented Western democracies the expected transitions have not been as easy common or smooth as sometimes perceived Rachel A Epstein investigates how liberal ideas and practices are embedded in transitioning societies and finds that success or failure depends largely on creating a social context in which incentives held out by international institutions are viewed as symbols of an emerging Western identity in the affected country Epstein first explains how a liberal worldview and institutions like the European Union World Bank the International Monetary Fund and the North Atlantic Treaty Organization go hand in hand

and why Western nations assume that a broad and incremental program of incentives to join will encourage formerly authoritarian states to reform their political and economic systems Using Hungary Poland Romania and the Ukraine as case studies she demonstrates the limits of conditionality in the face of national social perceptions and elucidates the three key points around which a consensus within the state must emerge before international institutions can expect liberalization domestic officials must be uncertain about how changing policies will affect their interests the status of international and domestic institutions must not be in jeopardy and the proposed policies must seem credible In making her case Epstein cleverly bridges the gap between the rationalist and constructivist schools of thought Offering new data on and fresh interpretations of reforming central bank policies privatizing banks with foreign capital democratizing civil military relations and denationalizing defense policy In Pursuit of Liberalism extends well beyond the scope of previous book length studies

Anatomy of Post-Communist European Defense Institutions Thomas-Durell Young, 2017-06-29 Although the West won the Cold War the continuation of the status quo is not a foregone conclusion The former Soviet aligned regions outside of Russia Ukraine Poland Czech Republic and others sit atop decaying armed forces while Russian behavior has grown more and more aggressive as evidenced by its intervention in Ukraine in recent years Thomas Young delves into the state of these defense institutions in Central and Eastern Europe whose resources have declined at a faster rate than their Western neighbors due to social and fiscal circumstances at home and shifting attitudes in the wider international community With rigorous attention to the nuances of each region's politics and policies he documents the status of reform of these armed forces and the role that Western nations have played since the Cold War as well as identifying barriers to success and which management practices have been most effective in both Western and Eastern capitals This is essential reading for undergraduates and graduates studying the recent history of Europe in the post Soviet era as well as those professionally involved in defense governance in the region

Civil-Military Cooperation in International Interventions Agata Mazurkiewicz, 2022-03-31 This book investigates the challenges related to civil military cooperation CIMIC and offers a new perspective by examining the social role of NATO CIMIC soldiers The intertwining of the civilian and military spheres has become a significant part of the contemporary security environment However the relationship between the military and civilian actors is often troubled filled with misunderstandings and rivalry In their duty to provide a link between the military and diverse civilian environment soldiers involved in CIMIC are exposed to varied often conflicted expectations that make up their social role and put stress on their performance and the effectiveness of CIMIC By drawing on analysis of NATO CIMIC documents and a series of interviews with CIMIC soldiers the author is able to first identify the elements of the CIMIC role and second diagnose the inherent role conflict and describe methods of dealing with it Looking at civil military cooperation through this lens reveals new layers of challenges that impact its effectiveness and a better way to understand the complexity of civil military interaction This book will be of much interest to students of military studies military sociology peacekeeping

security studies and international relations as well as military practitioners Civil-military Relations David R Mares, 2018-02-12 This book analyses the normative and institutional aspects of the civil military relationship to demonstrate that it is the politics of the relationship rather than its form that influences the likelihood of democracy and regional peace It is useful for policymakers academics and general readers **International Intervention in the Post-Cold War World** Michael C. Davis, Wolfgang Dietrich, Bettina Scholdan, 2017-07-28 International intervention on humanitarian grounds has been a contentious issue for decades First it pits the principle of state sovereignty against claims of universal human rights Second the motivations of intervening states may be open to question when avowals of moral action are arguably the fig leaf covering an assertion of power for political advantage These questions have been salient in the context of the Balkan and African wars and U S policy in the Middle East This volume undertakes a serious systematic and broadly international review of the issues **Bridging the European Divide** Joshua B. Spero, 2004-10-20 Do middle powers matter geopolitically to great powers when confronting the unconventional twenty first century threats from nation states or nonstate actors Bridging the European Divide explores how key regional middle powers perceived and advocated their political power options in the aftermath of September 11 2001
