The Political Economy of the Black Ghetto William K. Tabb,1973

The Political Economy of the Urban Ghetto

Daniel Roland Fusfeld,Timothy Mason Bates,1984 The income of blacks in most northern industrial states today is lower relative to the income of whites than in 1949 Fusfeld and Bates examine the forces that have led to this state of affairs and find that these economic relationships are the product of a complex pattern of historical development and change in which black white economic relationships play a major part along with patterns of industrial agricultural and technological change and urban development They argue that today's urban racial ghettos are the result of the same forces that created modern America and that one of the by products of American affluence is a ghettoized racial underclass These two themes they state are essential for an understanding of the problem and for the formulation of policy Poverty is not simply the result of poor education skills and work habits but one outcome of the structure and functioning of the economy Solutions require more than policies that seek to change people they await a recognition that basic economic relationships must be changed

The Political Economy of Racism Melvin

Leiman,2011-02-02 An intense and compact resource for understanding how the political economy of racism evolved in the United States Science Society Racism is about more than individual prejudice And it is hardly the relic of a past era This scholarly readable and provocative book shows how the persistence of racism in America relies on the changing interests of those who hold the real power in society and use every possible means to hold onto it

Reconstructing Political Economy William K.

Tabb,2002-01-22 This volume offers an original perspective on the questions the great economists have asked and looks at their significance for today's world Written in a provocative and accessible style it examines how the diverse traditions of political economy have conceptualised economic issues events and theory Going beyond the orthodoxies of mainstream economics it shows the relevance of political economy to the debates on the economic meaning of our times Reconstructing Political Economy is a timely and thought provoking contribution to a political economy for our time In this light it offers fresh insights into such issues as modern theories of growth the historic relations between state and market and the significance of globalisation for modern societies

Cities and Race David Wilson,2006-10-03 This fascinating book examines the 1990s rise of a new black ghetto in rust belt America the global ghetto It uses the emergent perspective of racial economy to delineate a fundamental proposition historically neglected and marginalized black ghettos in a 1990s era of societal boom and bust have become more impoverished more stigmatized and functionally ambiguous as areas As these ghettos grow in size and become more stigmatized entities in contemporary society our understanding of them in relation to evolving cities and society has not kept pace This book looks to the heart of this misunderstanding to find out how race and

political economy in cities dynamically connect in new ways racial economy to deepen deprivation in these areas This book is an essential read for students of geography urban studies and sociology *The Political Economy of Urban Poverty* Charles Sackrey,1973 Charles Sackrey analyzes the problem of urban poverty pointing out the severe limitations of all existing data He explains the different theories of the principal causes of urban poverty in particular the poverty among urban blacks Considerable attention is devoted to different methods of studying poverty and the important role each plays in determining the solutions finally offered for public consideration There have been two basic kinds of antipoverty solutions over the past four decades liberal reform and revolutionary change Having been at different times strongly sympathetic to both camps Professor Sackrey has particular insights into the strengths and weaknesses of each In the final chapters of his book he contrasts the past performance of each camp and evaluates what they have to offer for the future Amazon *The Political Economy of Racism* Raymond S. Franklin,Solomon Resnik,1973 **The Politics of Race** Theodore Rueter,2016-09-16 A study of the relationship between race and American politics organised around the institutions and processes of American government It includes readings by individuals like Bill Clinton Charles Hamilton and Carol Swain across a wide variety of ideological perspectives *Policy Studies: Review Annual* Ray Rist,2018-04-20 The sixth edition of this annual collection of the year s best work in policy studies Contributions in this volume reflect the increased emphasis on budget conscious and carefully targeted social programmes Exemplifying a range of analytic and methodological strategies this edition features studies from Australia the United States West Germany and Great Britain *The Funk Movement* Reiland Rabaka,2024-10-23 Rabaka explores funk as a distinct multiform of music aesthetics politics social vision and cultural rebellion that has been remixed and continues to influence contemporary Black popular music and Black popular culture especially rap music and the Hip Hop Movement The Funk Movement was a sub movement within the larger Black Power Movement and its artistic arm the Black Arts Movement Moreover the Funk Movement was also a sub movement within the Black Women s Liberation Movement between the late 1960s and late 1970s where women s funk especially Chaka Khan and Betty Davis s funk was understood to be a form of Black musical feminism that was as integral to the movement as the Black political feminism of Angela Davis or the Combahee River Collective and the Black literary feminism of Toni Morrison or Alice Walker This book also demonstrates that more than any other post war Black popular music genre the funk music of the 1960s and 1970s laid the foundation for the mercurial rise of rap music and the Hip Hop Movement in the 1980s and 1990s This book is primarily aimed at scholars and students working in popular music studies popular culture studies American studies African American studies cultural studies ethnic studies critical race studies women s studies gender studies and sexuality studies **The Store in the Hood** Steven J. Gold,2010-10-16 The Store in the Hood is a comprehensive study of conflicts between immigrant merchants and customers throughout the U S during the 20th century From the lynchings of Sicilian immigrant merchants in the late 1800s to the riots in L A following the acquittal of the police officers who beat

Rodney King to present day Detroit recurrent conflicts between immigrant business owners and their customers have disrupted the stability of American life Devastating human lives property and public order these conflicts have been the subject of periodic investigations that are generally limited in scope and emphasize the outlooks and cultural practices of the involved groups as the root of most disputes This book develops a more nuanced understanding by exploring merchant customer conflicts over the past hundred years across a wide range of ethnic groups and settings Utilizing published research official statistics interviews and ethnographic data collected from diverse locations the book reveals how powerful groups and institutions have shaped the environments in which merchant customer conflicts occur These conflicts must be seen as products of the larger society s values policies and structures not solely as a consequence of actions by immigrants the urban poor and other marginal groups

The Color of Money Mehrsa Baradaran,2017-09-14 In 1863 black communities owned less than 1 percent of total U S wealth Today that number has barely budged Mehrsa Baradaran pursues this wealth gap by focusing on black banks She challenges the myth that black banking is the solution to the racial wealth gap and argues that black communities can never accumulate wealth in a segregated economy

Introduction to African American Studies Talmadge Anderson,James Benjamin Stewart,2007 There is an ongoing debate as to whether African American Studies is a discipline or multidisciplinary or interdisciplinary field Some scholars assert that African American Studies use a well defined common approach in examining history politics and the family in the same way as scholars in the disciplines of economics sociology and political science Other scholars consider African American Studies multidisciplinary a field somewhat comparable to the field of education in which scholars employ a variety of disciplinary lenses be they anthropological psychological historical etc to study the African world experience In this model the boundaries between traditional disciplines are accepted and researches in African American Studies simply conduct discipline based an analysis of particular topics Finally another group of scholars insists that African American Studies is interdisciplinary an enterprise that generates distinctive analyses by combining perspectives from d

Critical Social Theory in the Interests of Black Folks Lucius T. Outlaw Jr.,2005-09-15 Examining the situations of African Americans in the U S A Lucius Outlaw s essays illustrate over twenty years of work dedicated to articulating a critical theory of society that would account for issues and limiting factors affecting African descended peoples in the U S Attempting to put politics aside Outlaw writes from a non partisan standpoint in the hopes that the issues he raises in his essays will inspire improvement for the well bring of African Americans and will also strengthen America s democracy Outlaw envisions a democratic order that is not built upon racist projections of the past Instead he seeks in these essays a transformative social theory that would help create a truly democratic social order

Race, Ethnicity, And Nationality In The United States Paul Wong,2021-09-02 This book is intended for use in advanced undergraduate and graduate level courses on race and ethnicity and on diversity in America It was first conceived as a collective project of the Research and Resident Scholar Program in Comparative Race Relations at

Washington State University which was established in 1994 with support from the Rockefeller Foundation A number of the participating authors are established scholars in racial ethnic studies and several have published award winning bestsellers Others are relative newcomers to the field who were invited to join the project because they were doing important work on less well covered topics such as relations between African Americans and Chicano Latino Americans Race, Markets, and Social Outcomes Patrick L. Mason, Rhonda M. Williams, 2012-12-06 THE JANUS FACE OF RACE REFLECTIONS ON ECONOMIC THEORY Patrick L. Mason and Rhonda Williams Many economists are willing to accept that race is a significant factor in US economic and social affairs Yet the professional literature displays a peculiar schizophrenia when faced with the task of actually formulating what race means and how race works in our political economy On the one hand race matters when the discussion is focused on anti social behavior social choices and undesired market outcomes Inexplicably African Americans are more likely to prefer welfare lower labor force participation and unemployment On the other hand race does not matter when the subject of discussion is economically productive or socially acceptable activities and legal market choices for example wages and employment This Janus faced construction of race is maintained by economists stubborn adherence to the market power hypothesis The market power hypothesis asserts that racial discrimination and market competition are inversely correlated Discriminatory behavior will persist only in those sectors of society where the competitive forces of the market are least operative When applied to the labor market the market power hypothesis suggests that pre and post labor market decisions represent disjoint sets On average members of a disadvantaged social group may accumulate a lower amount of or a lower quality of productive attributes because of discrimination in marital residential or school choice or because of substantial animosity in day to day interpersonal relations with members of a privileged group

Race for Profit Keeanga-Yamahatta Taylor, 2019-09-03 LONGLISTED FOR THE 2019 NATIONAL BOOK AWARD FINALIST 2020 PULITZER PRIZE IN HISTORY By the late 1960s and early 1970s reeling from a wave of urban uprisings politicians finally worked to end the practice of redlining Reasoning that the turbulence could be calmed by turning Black city dwellers into homeowners they passed the Housing and Urban Development Act of 1968 and set about establishing policies to induce mortgage lenders and the real estate industry to treat Black homebuyers equally The disaster that ensued revealed that racist exclusion had not been eradicated but rather transmuted into a new phenomenon of predatory inclusion Race for Profit uncovers how exploitative real estate practices continued well after housing discrimination was banned The same racist structures and individuals remained intact after redlining's end and close relationships between regulators and the industry created incentives to ignore improprieties Meanwhile new policies meant to encourage low income homeownership created new methods to exploit Black homeowners The federal government guaranteed urban mortgages in an attempt to overcome resistance to lending to Black buyers as if unprofitability rather than racism was the cause of housing segregation Bankers investors and real estate agents took advantage of the perverse incentives targeting the Black

women most likely to fail to keep up their home payments and slip into foreclosure multiplying their profits As a result by the end of the 1970s the nation s first programs to encourage Black homeownership ended with tens of thousands of foreclosures in Black communities across the country The push to uplift Black homeownership had descended into a goldmine for realtors and mortgage lenders and a ready made cudgel for the champions of deregulation to wield against government intervention of any kind Narrating the story of a sea change in housing policy and its dire impact on African Americans *Race for Profit* reveals how the urban core was transformed into a new frontier of cynical extraction
