Davies,2022-03-17 A fully illustrated study into the extraordinary Convair B 36 during the Cold War Conceived during 1941 in case Germany occupied Britain when US bombers would then have insufficient range to retaliate the B 36 was to be primarily a 10 000 mile bomber with heavy defensive armament six engines and a performance that would prevent interception by fighters Although rapid developments in jet engine and high speed airframe technology quickly made it obsolescent the B 36 took part in many important nuclear test programmes The aircraft also provided the US nuclear deterrent until the faster B 52 became available in 1955 It was one of the first aircraft to use substantial amounts of magnesium in its structure leading to the bomber s Magnesium Overcast nickname It earned many superlatives due to the size and complexity of its structure which used 27 miles of wiring had a wingspan longer than the Wright brothers first flight equivalent engine power to 400 cars the same internal capacity as three five room houses and 27 000 gallons of internal fuel enough to propel a car around the world 18 times Much was made of the fact that the wing was deep enough to allow engineers to enter it and maintain the engines in flight B 36s continued in the bomber and reconnaissance role until their retirement in February 1959 following 11 years in SAC Convair employees were invited to suggest names for the giant aircraft eliciting suggestions such as King Kong Bomber Condor Texan and Unbelievable but the most popular was Peacemaker Oddly objections from religious groups deterred the USAF from ever adopting it officially This fully illustrated volume includes first hand accounts original photographs and up to 30 profile artworks depicting in detail the complexity of this superlative aircraft Warriors & Peacemakers Steve K. serves as a potent reminder that American leadership and multilateral cooperation are often critical to resolving international crises **Lost Nuke** Dirk Septer,2016 A story seemingly drawn out of a Hollywood action script Gripping stuff Canada s History Just before midnight on February 13 1950 three engines of a US Air Force B 36 intercontinental bomber caught fire over Canada s northwest coast The crew jumped and the plane ditched somewhere in the Pacific Ocean Almost four years later the wreck of the bomber was found accidentally in a remote location in the coastal mountains of British Columbia three hours flying time in the opposite direction of where it was supposed to have crashed After years of silence the United States finally admitted to losing its very first nuclear bomb the incident was its first Broken Arrow the code name for accidents involving nuclear weapons But was the bomb dropped and exploded over the Inside Passage or was it blown up at the aircraft s resting place in the mountains This Cold War era tale follows the last flight of bomber 075 and attempts to unravel the real story behind more than fifty years of secrecy misdirection and misinformation Cambodia Confounds the Peacemakers, 1979-1998 MacAlister Brown,Joseph J. Zasloff,2019-01-24 The peacemaking efforts in Cambodia since the dispersal of the Khmer Rouge in 1979 were the most comprehensive ever undertaken by the international community Two seasoned observers of Southeast Asia now offer a detailed account of this endeavor including the negotiation and planning that produced the United Nations Transitional Authority in Cambodia UNTAC and a free and fair election in 1993 MacAlister Brown and Joseph J Zasloff unravel the tangled web of civil war from 1979 to the coup d etat by Hun Sen in 1997 and the effort to hold a second election in summer 1998 They trace the years of diplomacy and warfare sustained by outside powers the establishment of a constitutional government and the achievements and shortfalls of the U N presence in Cambodia With the results of the 1998 election appraised in an epilogue this engaging book provides the most complete and up to date account of international peacekeeping and political rescue in long suffering Cambodia Osage Indian Customs and Myths Louis F. Between January and July 1919 after the war to end all wars men and women from all over the world converged on Paris for the Peace Conference At its heart were the leaders of the three great powers Woodrow Wilson Lloyd George and Clemenceau Kings prime ministers and foreign ministers with their crowds of advisers rubbed shoulders with journalists and lobbyists for a hundred causes from Armenian independence to women's rights Everyone had business in Paris that year T E Lawrence Queen Marie of Romania Maynard Keynes Ho Chi Minh There had never been anything like it before and there never has been since For six extraordinary months the city was effectively the centre of world government as the peacemakers wound up bankrupt empires and created new countries They pushed Russia to the sidelines alienated China and dismissed the Arabs struggled with the problems of Kosovo of the Kurds and of a homeland for the Jews The peacemakers so it has been said failed dismally failed above all to prevent another war Margaret MacMillan argues that they have unfairly been made scapegoats for the mistakes of those who came later They tried to be evenhanded but their goals to make defeated countries pay without destroying them to satisfy impossible nationalist dreams to prevent the spread of Bolshevism and to establish a world order based on democracy and reason could not be achieved by diplomacy Peacemakers offers a prismatic view of the moment when much of the modern world was first sketched out The Piney Creek Sites, Wyoming (48 JO 311 and 312)
