Redefining The Corporation:

Redefining the Corporation James E. Post, Lee E. Preston, Sybille Sauter-Sachs, 2002 This book shows how the modern corporation must meet the expectations of diverse constituents who contribute to its existence and success the stakeholders resource providers customers suppliers alliance partners and social and political actors It argues that the corporation must be seen as an institution engaged in mobilizing resources to create wealth and benefits for all its stakeholders *Redefining the Corporation* James E. Post, Lee E. Preston, Sybille Sachs, 2022

The modern corporation is an institution of enormous economic power and social impact Corporations have grown in size and numbers all over the world because of their ability to mobilize productive resources and create new wealth The evolution of the corporation has given rise to new opportunities and challenges that require a redefinition of the corporation and its objectives The legitimacy of the corporation as an institution its license to operate within society depends not only on its success in wealth creation but also on its ability to meet the expectations of diverse constituents who contribute to its existence and success These constituencies and interests are the corporation's stakeholders resource providers customers suppliers alliance partners and social and political actors Consequently the corporation must be seen as an institution engaged in mobilizing resources to create wealth and benefits for all its stakeholders This book presents a stakeholder view of the corporation in both theoretical and practical terms Its central proposition is that organizational wealth is created or destroyed through a corporation's interactions with its stakeholders Effective stakeholder management develops and utilizes relationships between a corporation and its stakeholders for mutual benefit thereby accomplishing the fundamental purpose of wealth creation Following the empirical maxim that Corporations are what they do the authors examine the stakeholder management practices of three major corporations Cummins Engine Company Motorola and the Royal Dutch Shell Group These companies are very different and their current stakeholder management policies and practices have evolved in very different ways However they share a common commitment to humanistic values and to continuous learning Their varied experiences illustrate some of the opportunities and challenges of stakeholder management and confirm the appropriateness of the stakeholder view of the corporation as a basis for strategy and policy **Principles of Contemporary Corporate Governance** Jean du
