Redesigning The American Dream Gender Housing And Family Life:

Redesigning The American Dream Revised And Updated Dolores Hayden, 2002-09-03 In a provocative critique of American housing patterns that perpetuate Victorian stereotypes of the home as woman's place and the city as man's world urban historian and architect Dolores Hayden tallies the personal and social costs that an architecture of gender creates for the two earner family the single parent family and single people She traces three models of home in historical perspective to document innovative alternatives for reconstructing neighborhoods *Redesigning the American Dream* Dolores Hayden, 1986 The noted feminist theorist argues for a new conception of architectural design and outlines housing plans that will support new patterns of nurturing and opportunity for a range of individuals and families How We Live Now Bella M. DePaulo, 2015-08-25 A close up examination and exploration *How We Live Now* challenges our old concepts of what it means to be a family and have a home opening the door to the many diverse and thriving experiments of living in twenty first century America Across America and around the world in cities and suburbs and small towns people from all walks of life are redefining our lifespaces the way we live and who we live with The traditional nuclear family in their single family home on a suburban lot has lost its place of prominence in contemporary life Today Americans have more choices than ever before in creating new ways to live and meet their personal needs and desires Social scientist researcher and writer Bella DePaulo has traveled across America to interview people experimenting with the paradigm of how we live In *How We Live Now* she explores everything from multi generational homes to cohousing communities where one's family is made up of friends and neighbors to couples living apart together to single living and ultimately uncovers a pioneering landscape for living that throws the old blueprint out the window Through personal interviews and stories media accounts and in depth research *How We Live Now* explores thriving lifespaces and offers the reader choices that are freer more diverse and more attuned to our modern needs for the twenty first century and beyond Encyclopedia of Activism and Social Justice Gary L. Anderson, Kathryn G. Herr, 2007-04-13 This is an important historical period in which to develop communication models aimed at creating opportunities for citizens to find a voice for new experiences and social concerns Such basic social problems as inequality poverty and discrimination pose a constant challenge to policies that serve the health and income needs of children families people with disabilities and the elderly Important changes both in individual values and civic life are occurring in the United States and in many other nations Recent trends such as the globalization of commerce and consumer values the speed and personalization of communication technologies and an economic realignment of industrial and information based economies are often regarded as negative Yet there are many signs from the WTO experience in Seattle to the rise of global activism aimed at making biotechnology accountable that new forms of citizenship politics and public engagement are emerging The *Encyclopedia of Activism and Social Justice* presents a comprehensive overview of the field with topics of varying dimensions breadth and length This three volume Encyclopedia is designed for readers to

understand the topics concepts and ideas that motivate and shape the fields of activism civil engagement and social justice and includes biographies of the major thinkers and leaders who have influenced and continue to influence the study of activism Key Features Offers multidisciplinary perspectives with contributions from the fields of education communication studies political science leadership studies social work social welfare environmental studies health care social psychology and sociology Provides an easily recognizable approach to topics ideas persons and concepts based on alphabetical and biographical listings in civil engagement social justice and activism Addresses both small scale social justice concepts and more large scale issues Includes biography pieces indicating the concepts ideas or legacies of individuals and groups who have influenced current practice and thinking such as John Stuart Mill Rachel Carson Mother Jones Martin Luther King Jr Karl Marx Mohandas Gandhi Nelson and Winnie Mandela Dorothy Day and Thomas Merton Going Solo Eric Klinenberg, 2013-01-29 With eye opening statistics original data and vivid portraits of people who live alone renowned sociologist Eric Klinenberg upends conventional wisdom to deliver the definitive take on how the rise of going solo is transforming the American experience Klinenberg shows that most single dwellers whether in their twenties or eighties are deeply engaged in social and civic life There s even evidence that people who live alone enjoy better mental health and have more environmentally sustainable lifestyles Drawing on more than three hundred in depth interviews Klinenberg presents a revelatory examination of the most significant demographic shift since the baby boom and offers surprising insights on the benefits of this epochal change **Space, Gender, Knowledge: Feminist Readings** Linda McDowell, Joanne Sharp, 2016-04-29 Space Gender Knowledge is an innovative and comprehensive introduction to the geographies of gender and the gendered nature of spatial relations It examines the major issues raised by women s movements and academic feminism and outlines the main shifts in feminist geographical work from the geography of women to the impact of post structuralism In making their selection the editors have drawn on a wide range of interdisciplinary material ranging across spatial scales from the body to the globe The book presents influential arguments for the importance of the intersection between space and gender Looking both at geography and beyond the discipline it explores the gendered construction of space and the spatial construction of gender Divided into a number of conceptual sections each prefaced by an editorial introduction this reader includes extracts from both landmark texts and less well known works making it an indispensable introduction to this dynamic field of study *Routledge Handbook of Gender and Environment* Sherilyn MacGregor, 2017-07-14 The Routledge Handbook of Gender and Environment gathers together state of the art theoretical reflections and empirical research from leading researchers and practitioners working in this transdisciplinary and transnational academic field Over the course of the book these contributors provide critical analyses of the gender dimensions of a wide range of timely and challenging topics from sustainable development and climate change politics to queer ecology and interspecies ethics in the so called Anthropocene Presenting a comprehensive overview of the

development of the field from early political critiques of the male domination of women and nature in the 1980s to the sophisticated intersectional and inclusive analyses of the present the volume is divided into four parts Part I Foundations Part II Approaches Part III Politics policy and practice Part IV Futures Comprising chapters written by forty contributors with different perspectives and working in a wide range of research contexts around the world this Handbook will serve as a vital resource for scholars students and practitioners in environmental studies gender studies human geography and the environmental humanities and social sciences more broadly

Engaging the Everyday John M. Meyer, 2015-03-20 An argument that environmental challenges will only resonate with citizens of affluent postindustrial countries if sustainability concerns emerge from everyday practices Far reaching efforts to address environmental issues rarely seem to resonate with citizens of the United States or other wealthy postindustrial societies In *Engaging the Everyday* John Meyer considers this impediment to action on environmental problems which he terms the resonance dilemma and argues that an environmental agenda that emerges from everyday concerns would resonate more deeply with ordinary citizens Meyer explores the contours of this alternative theorizing both obstacles and opportunities and then considering it in terms of three everyday areas of material practice land use transportation by automobile and home dwelling Adopting the stance of an inside critic neither detached theorist nor narrow policy advocate and taking an approach that he calls contested materiality Meyer draws on a variety of theoretical perspectives to construct a framework for understanding material practices He reimagines each of the three material practices in terms of a political idea for land property for automobiles freedom and for homes citizenship His innovative analysis offers a grounded basis for reshaping our talk about political concepts and values

The Routledge Companion to Design Studies Penny Sparke, Fiona Fisher, 2016-06-17 Since the 1990s in response to

dramatic transformations in the worlds of technology and the economy design a once relatively definable discipline complete with a set of sub disciplines has become unrecognizable Consequently design scholars have begun to address new issues themes and sub disciplines such as sustainable design design for well being empathic design design activism design anthropology and many more The Routledge Companion to Design Studies charts this new expanded spectrum and embraces the wide range of scholarship relating to design theoretical practice related and historical that has emerged over the last four decades Comprised of forty three newly commissioned essays the Companion is organized into the following six sections Defining Design Discipline Process Defining Design Objects Spaces Designing Identities Gender Sexuality Age Nation Designing Society Empathy Responsibility Consumption the Everyday Design and Politics Activism Intervention Regulation Designing the World Globalization Transnationalism Translation Contributors include both established and emerging scholars and the essays offer an international scope covering work emanating from and relating to design in the United Kingdom mainland Europe North America Asia Australasia and Africa This comprehensive collection makes an original and significant contribution to the field of Design Studies *A Field Guide to Sprawl* Dolores Hayden,2004 A visual lexicon of the colorful slang from alligator investment to zoomburb that defines sprawl in America May well establish Ms Hayden as the Roger Tory Peterson of Sprawl New York Times **Kentucky Countryside in Transition** Stephanie Bower,2024-01-12 Kentucky Countryside in Transition charts the rise of the American middle class at the turn of the twentieth century by examining the migration from the Kentucky countryside to the city and subsequently the suburbs of Louisville The formation of the middle class in Louisville was fostered by two factors a boom in white collar employment and the electric streetcar an innovation that fundamentally changed the urban landscape Ultimately a narrative of industrialization and modernity this study focuses on a group of forty two families who lived at the end of the Broadway Trolley line in an area that came to be known as the Cherokee Triangle This suburban neighborhood was dominated by white collar commuters who were driven to Louisville by a desire to get ahead but continued to embrace a nostalgia for country life In this meticulous three generation study Stephanie Bower follows this group of families as they make the transition from rural farmers and cultivators to city laborers and white collar workers By mining census records city directories and county records Bower carefully reconstructs the biographical details of residents in an effort to paint a picture of life in this streetcar suburb during this important period of transformation Regional studies of the middle class during this pivotal era are often overlooked in contemporary scholarship Consequently this analysis will be of interest to those researching Louisville middle class formation and suburbanization as well as to local genealogists tracing their family histories Stephanie Bower is professor emeritus of history at the University of Indiana Southeast She is the author of *Famism The Impact of Demographic Factors on Family Structure* and her articles have appeared in *Hispanic American History Review* *The Americas* *LOCUS* and *Historical Methods* **Building Suburbia** Dolores Hayden,2009-11-04 A lively and provocative history of the contested landscapes where the majority of Americans

now live From rustic cottages reached by steamboat to big box stores at the exit ramps of eight lane highways Dolores Hayden defines seven eras of suburban development since 1820 An urban historian and architect she portrays housewives and politicians as well as designers and builders making the decisions that have generated America s diverse suburbs Residents have sought home nature and community in suburbia Developers have cherished different dreams seeking profit from economies of scale and increased suburban densities while lobbying local and federal government to reduce the risk of real estate speculation Encompassing environmental controversies as well as the complexities of race gender and class Hayden s fascinating account will forever alter how we think about the communities we build and inhabit **Losing It** Dorothy Chansky,2023-08-09 This monograph is a study of American U S stage representations of dementia mounted between 1913 and 2019 Its imbricated strands are playtexts audiences as both the targets of the productions artifacts in the marketplace and as anticipated determinants of legibility and medical science both as has been and is known to researchers and more importantly as it has been and is known to educated general audiences As the Baby Boom generation finds itself solidly in the category of Senior interest in plays that address personal and social issues around cognitive decline as a potentially frightening and expensive experience no two iterations of which are identical have understandably burgeoned This study shines a spotlight on eleven dementia plays that have been produced in the United States over the past century and seeks in the words of medical humanities scholar Anne Whitehead to open up and to hold open central ethical questions of responsiveness interpretation responsibility complicity and care **Tales of Two Cities** Sylvia Bashevkin,2011-11-01 In the age of globalization state restructuring is changing the political landscape How does reshaping local government affect citizen involvement in public life As cities move between centralized and decentralized governance and conservative and progressive leadership what brings out the best and the worst in civic engagement In this thought provoking book Sylvia Bashevkin examines the consequences of divergent restructuring experiences in London and Toronto By focusing on the forced amalgamation of local boroughs in Toronto and the creation of a new metropolitan authority in London Tales of Two Cities explores the fallout for women as urban citizens Ultimately context is crucial to whether municipal change signals pessimism or promise Clear insightful and prescient Tales of Two Cities will appeal to those interested in civic affairs political inclusion and the future of democracy in major urban centres **Anchor Babies and the Challenge of Birthright Citizenship** Leo R. Chavez,2017-10-10 Birthright citizenship has a deep and contentious history in the United States one often hard to square in a country that prides itself on being a nation of immigrants Even as the question of citizenship for children of immigrants was seemingly settled by the Fourteenth Amendment vitriolic debate has continued for well over a century especially in relation to U S race relations Most recently a provocative and decidedly more offensive term than birthright citizenship has emerged anchor babies With this book Leo R Chavez explores the question of birthright citizenship and of citizenship in the United States writ broadly as he counters the often hyperbolic claims surrounding these so called

anchor babies Chavez considers how the term is used as a political dog whistle how changes in the legal definition of citizenship have affected the children of immigrants over time and ultimately how U S born citizens still experience trauma if they live in families with undocumented immigrants By examining this pejorative term in its political historical and social contexts Chavez calls upon us to exorcise it from public discourse and work toward building a more inclusive nation
