Rediscovering America John Muir In His Time And Ours:

Rediscovering America Frederick Turner, 1987 Rediscovering America Frederick W. Turner, 1985 *Rediscovering America* Frederick W. Turner, 1985 Rediscovering America Frederick Turner, 1985 *John Muir's Last Journey* John Muir, 2013-04-10 I am now writing up some notes but when they will be ready for publication I do not know It will be a long time before anything is arranged in book form These words of John Muir written in June 1912 to a friend proved prophetic The journals and notes to which the great naturalist and environmental figure was referring have languished unpublished and virtually untouched for nearly a century Until now Here edited and published for the first time John Muir's travel journals from 1911-12 along with his associated correspondence finally allow us to read in his own words the remarkable story of John Muir's last great journey Leaving from Brooklyn New York in August 1911 John Muir at the age of seventy-three and traveling alone embarked on an eight-month 40,000-mile voyage to South America and Africa The 1911-12 journals and correspondence reproduced in this volume allow us to travel with him up the great Amazon into the jungles of southern Brazil to snowline in the Andes through southern and central Africa to the headwaters of the Nile and across six oceans and seas in order to reach the rare forests he had so long wished to study Although this epic journey has received almost no attention from the many commentators on Muir's work Muir himself considered it among the most important of his life and the fulfillment of a decades-long dream John Muir's Last Journey provides a rare glimpse of a Muir whose interests as a naturalist traveler and conservationist extended well beyond the mountains of California It also helps us to see John Muir as a different kind of hero one whose endurance and intellectual curiosity carried him into far fields of adventure even as he aged and as a private person and family man with genuine affections ambitions and fears not just an iconic representative of American wilderness With an introduction that sets Muir's trip in the context of his life and work along with chapter introductions and a wealth of explanatory notes the book adds important dimensions to our appreciation of one of America's greatest environmentalists John Muir's Last Journey is a must reading for students and scholars of environmental history American literature natural history and related fields as well as for naturalists and armchair travelers everywhere Seed of the Future Dayton Duncan, 2013-11-26 It's now a given that Americans and people the world over would seek to preserve their sacred special places One hundred fifty years ago however it was definitely not a foregone conclusion that the awe-inspiring granite cliffs astounding waterfalls and sublime sequoias of Yosemite would be protected This idea of preservation was the national park idea an idea that started from a seed a seed that was planted in Yosemite It was through the efforts of people like James Mason Hutchings Galen Clark Frederick Law Olmsted John Muir and Theodore Roosevelt among others that the world learned of Yosemite flocked to it nearly destroyed it and ultimately saved it These fascinating characters and their remarkable stories are skillfully woven together in this beautiful volume created expressly to capture the wonder of Yosemite and to inspire future generations to do their part for wild places Encyclopedia of the Essay Tracy
