Enlightenment Orpheus Vanessa Agnew, 2008-05 The Enlightenment saw a critical engagement with the ancient idea

that music carries certain powers it heals and pacifies civilizes and educates Yet this interest in musical utility seems to conflict with larger notions of aesthetic autonomy that emerged at the same time In *Enlightenment Orpheus* Vanessa Agnew examines this apparent conflict and provocatively questions the notion of an aesthetic philosophical break between the eighteenth and nineteenth centuries Agnew persuasively connects the English traveler and music scholar Charles Burney with the ancient myth of Orpheus She uses Burney as a guide through wide ranging discussions of eighteenth century musical travel views on music s curative powers interest in non European music and concerns about cultural identity Arguing that what people said about music was central to some of the great Enlightenment debates surrounding such issues as human agency cultural difference and national identity Agnew adds a new dimension to postcolonial studies which has typically emphasized the literary and visual at the expense of the aural She also demonstrates that these discussions must be viewed in context at the era s broad and well entrenched transnational network and emphasizes the importance of travel literature in generating knowledge at the time A new and radically interdisciplinary approach to the question of the power of music its aesthetic and historical interpretations and political uses *Enlightenment Orpheus* will appeal to students and scholars in historical musicology ethnomusicology German studies eighteenth century history and comparative studies

Hargett, 2018-12-18 First hand accounts of travel provide windows into places unknown to the reader or new ways of seeing familiar places In *Jade Mountains and Cinnabar Pools* the first book length treatment in English of Chinese travel literature youji James M Hargett identifies and examines core works in the genre from the Six Dynasties period 220 581 when its essential characteristics emerged to its florescence in the late Ming dynasty 1368 1644 He traces the dynamic process through which the genre most of which was written by scholars and officials developed and shows that key features include a journey toward an identifiable place essay

or diary format description of places phenomena and conditions accompanied by authorial observations comments and even personal feelings inclusion of sensory details and narration of movement through space and time Travel literature s inclusion of a variety of writing styles and purposes has made it hard to delineate Hargett finds however that classic pieces of Chinese travel literature reveal much about the author his values and his view of the world which in turn tells us about the author s society making travel literature a rich source of historical information
