Reflecting Fires:

Reflecting Fires Thomas Claburn,2001-05-01 In the distant future the priestess Dahlia has a vision of a boy who will end the strife between man and machine But when the savior she foresaw appears backed by the powerful Cardinal Skye Dahlia must unravel the boy's secret before war consumes the Empire

The Moon Reflected Fire Doug Anderson,2015-11-01 Of The Moon Reflected Fire and its subject the Vietnam War poet James Tate writes These are trenchant wrenching poems With artistry and honesty they perform an inquest into war and its corrosive after effects

Children and Teenagers Who Set Fires Joanna Foster,2019-10-21 This book helps adults to understand firesetting behaviour in children and teens and provides strategies to work with them to address the behaviour Drawing upon the latest juvenile firesetting research and utilising child development theory to underpin its safety messages the book explores why young people might set fires in the first place and contextualises firesetting in terms of communication and gaining the attention of carers and other adults The chapters lay out practical tried and tested steps that professionals and carers can take to address firesetting behaviour and suggests how to further support any child or teen who sets fires This includes summaries of the latest evidence based support strategies and a range of creative activities that can be used in direct work with children and teenagers who set fires tailored to specific age ranges Combining expert advice on firesetting behaviour with straightforward practices this comprehensive book can be used by anyone working with young people to help them intervene and prevent it

[From Fires to Oceans: Dynamics of Fire-Derived Organic Matter in Terrestrial and Aquatic Ecosystems](#) Samuel Abiven,Cristina Santín,2019-05-09 Fire derived organic matter also known as pyrogenic carbon PyC is ubiquitous on Earth It can be found in soils sediments water and air In this wide range of environments fire derived organic matter represents a key component of the organic matter pool and in many cases the largest identifiable group of organic compounds PyC is also one of the most persistent organic matter fractions in the ecosystems and its study is therefore particularly relevant for the global carbon cycle From its production during vegetation fires to its transfer into soils sediments and waters PyC goes through different transformations both abiotic and biotic Contrary to early assumptions PyC is not inert and interacts strongly with the environment evidence of microbial decomposition oxidation patterns and interactions with minerals have been described in different matrices PyC travels across these different environments and it is modified chemically and physically but remains persistent This Research Topic explores important questions in our understanding of fire derived organic matter from the characterization and quantification of PyC components to the transformation and mobilization processes taking place on terrestrial and aquatic ecosystems The studies compiled here provide novel and often unexpected results They all answer some of the questions posed and more importantly provide scope for many more

The Surangama Sutra Ronald Epstein, PhD,David Rounds,2012-08-06 For more than a thousand years the Surangama Sutra has been held in high regard in the Mahayana Buddhist countries of East and Southeast Asia and has been as popular as the Lotus Heart and Diamond Sutras Its wealth

of theoretical and practical instruction in living a spiritual life often made it the first major text studied by newly ordained monks particularly in the Chan tradition This Sutra is regarded as a complete and practical manual for spiritual practice that will lead to enlightenment It provides instruction on understanding one's own Buddha nature the potential within every being for becoming a Buddha The Sutra explains how and why this nature is hidden and how we can uncover it and recognize it as our own true mind The Sutra also explains why personal integrity and purity of conduct are prerequisites for spiritual awakening It presents the principles of meditation and provides guidelines for discerning correct practices from those which deviate into wrong ones It explains how our own intentional acts whether physical verbal or mental result in karmic experiences including rebirths into various levels of being both human and non human At the heart of the Sutra is the raga Mantra The Sutra promises that the practice of reciting this mantra in the context of the other practices taught in the Sutra can successfully eliminate internal or external obstacles that block the path of spiritual progress

Donskoi,M.A. Shashkina,2023-01-06 This new volume in the book series New Concepts in Polymer Science focuses on the problem of creating materials with reduced combustibility as well as the use of polymeric materials for protection from fire or overheating The majority of polymeric materials are combustible which has led to the development of polymers and materials based on these with reduced combustibility However the combustibility degree or their ability to protect from fire or high temperature can be indicated only in particular cases of combustion In this volume the results of the development of physicochemical bases for creating organic polymeric materials with reduced combustibility which are capable of protecting against high temperatures are discussed A presentation of chlorinated polyolefins as organic polymers with reduced combustibility is also given Forests under Fire Christopher J. Huggard,Arthur R. Gómez,2016-12-15 The devastating fire that swept through Los Alamos New Mexico in the spring of 2000 may have been caused by one controlled burn gone wild but it was far from an isolated event All through the twentieth century our national forests have been under assault from all sides first ranchers and loggers laid their claims to our national forests then recreationists and environmentalists spoke up for their interests Who are our national forests really for In this book leading environmental historians show us what has been happening to these fragile woodlands Taking us from lumber towns to Indian reservations to grazing lands *Forests under Fire* reveals the interaction of Anglos

Hispanics and Native Americans with the forests of the American Southwest It examines recent controversies ranging from red squirrel conservation on Mt Graham to increased tourism in our national forests These case studies offer insights into human forest relationships in places such as the Coconino National Forest the Vallecitos Sustained Yield Unit and the Gila Wilderness Area while also drawing on issues and concerns about similar biospheres in other parts of the West Over the past century forest management has evolved from a field dominated by the conservationist perspective with humans exploiting natural resources to one that emphasizes biocentrism in which forests are seen as dynamic ecosystems Yet despite this progressive shift the assault on our forests continues through overgrazing of rangelands lumbering eroding mountainsides fire suppression and threats to the habitats of endangered species Forests under Fire takes a closer look at the people calling the shots in our national forests from advocates of timber harvesting to champions of ecosystem management and calls for a reassessment of our priorities before our forests are gone
