Nicola Clarke's ten essential ingredients provide a clear and explicit guide to effective reflective practice and as such this should be a key text for all student nurses. The chapters of this new text offer clear learning outcomes, practical advice and models to follow in order to develop a genuine, honest and balanced reflective writing style. It is an engaging and informative read which promotes understanding of this important process. Anita Savage Grainge RMN RGN RNT Senior Lecturer University of York UK. An engaging book which deals with the complexity of reflection in a clear, logical and in-depth manner. Developed around her extended definition of reflective practice, Clarke clearly and logically enables the reader to build their understanding of reflective practice by focusing on her ten ingredients. The structure of the book, focusing on two ingredients in each chapter, allows Clarke to provide clarity whilst at the same time showing the reader how the ingredients fit together to build a whole that is greater than the sum of its parts. The focus on critical and analytic skills, as well as person-centredness based on Rogers' core conditions, provides a strong theoretical basis for students to understand reflective practice. The use of questions and examples throughout are engaging and will be useful for students and tutors alike. I think this book will be excellent for all healthcare workers, students and qualified alike. Whilst it is aimed at nurses, the principles apply across healthcare. I think it is a real gem and certainly the best book I have read about reflective practice. Dr Rosie Stenhouse Nursing Studies University of Edinburgh UK. Helpful Thoughts, 1900. *Multicultural Literature for Latino Bilingual Children*. Ellen Riojas Clark, Belinda Bustos Flores, Howard L. Smith, Daniel Alejandro González, 2015-11-25. While there are volumes that fall into the category of children's literature, there appears to be relatively few that explore the needs of bilingual learners and the linguistic and sociocultural context of Latino children's literature. This volume makes a needed contribution by addressing the social, cultural, academic and linguistic needs of Latino bilingual learners who are still underserved through current school practices. We aim to conceptualize different forms of social knowledge so that they can serve as cultural resources for learning, acquiring knowledge and transforming self and identity. This volume presents a balance of theory, research and practice that speak to authentic multicultural Latino literature and helps ensure its availability for all students. The intended outcome of this volume then is to create a heightened awareness of the cultural and linguistic capital held by the Latino community to increase Latino students' social capital through the design of critical pedagogical practices and for the formulation of a new perspective that of Latino multicultural literature for children.
