Billington, 2011-12-31 This book traces the origins of a faith perhaps the faith of the century Modern revolutionaries are believers no less committed and intense than were Christians or Muslims of an earlier era What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority This inherently implausible idea energized Europe in the nineteenth century and became the most pronounced ideological export of the West to the rest of the world in the twentieth century Billington is interested in revolutionaries the innovative creators of a new tradition His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century The theater was Europe of the industrial era the main stage was the journalistic offices within great cities such as Paris Berlin London and St Petersburg Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto romanticism of Germany as the critical rationalism of the French Enlightenment The conversion of social theory to political practice was essentially the work of three Russian revolutions in 1905 March 1917 and November 1917 Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power Despite his hard realism about the adverse practical consequences of revolutionary dogma Billington appreciates the identity of its best sponsors people who preached social justice transcending traditional national ethnic and gender boundaries When this book originally appeared The New Republic hailed it as remarkable learned and lively while The New Yorker noted that Billington pays great attention to the lives and emotions of individuals and this makes his book absorbing It is an invaluable work of history and contribution to our understanding of political life

Barno, Nora Bensahel, 2020 Militaries that can rapidly adapt to unexpected battlefield challenges are more likely to win wars and those that cannot are more likely to lose In *Adaptation under Fire* David Barno and Nora Bensahel identify the characteristics that make militaries more adaptable illustrated through historical and contemporary examples The authors argue that the U S military often adapted well in Iraq and Afghanistan at the tactical level but also displayed disturbing failures by some of its senior leaders They conclude that the U S military must become far more adaptable in order to address future security challenges effectively and recommend ways to do so before it is too late *Cumulative List of*

Thompson, 2021 In this lively and provocative book two feminist public sociologists turn to classical social thinkers W E B Du Bois Max Weber Karl Marx and mile Durkheim to understand a series of twenty first century social traumas including the massacre at Columbine High School the 9 11 attacks the torture at Abu Ghraib prison and Hurricane Katrina Each event was overwhelming in its own right while the relentless pace at which they occurred made it nearly impossible to absorb and interpret them in any but the most superficial ways Yet each uncovered social problems that cry out for our understanding and remediation In *When the Center Is on Fire* Becky Thompson and Diane Harriford assert that classical social theorists grappled with the human condition in ways that remain profoundly relevant They show for example that the loss of double consciousness that Du Bois identified in African Americans enabled political elites to turn a blind eye to the poverty and vulnerability of many of New Orleans s citizens The authors compelling sometimes irreverent often searing interpretations make this book essential reading for students activists generations X Y and Z and everybody bored by the 6 o clock news **Aviation Fire Control Technician 1 & C** Johnny R. Andrea Neptune recounts Cindy's traumatic experiences after she was caught in a house fire and forced to jump out of a third story window with her son. With her body scarred from the devastating blaze, Cindy faced morphine-induced nightmares, fierce internal and external battles, and a profound spiritual encounter that became a beacon of hope in her darkest hours. Against all odds, Cindy's journey unfolds as a riveting tale of survival, resilience, and the unyielding strength of the human spirit, even as the authorities eventually identified an arson suspect and she was forced to once again face a fire head-on in Paradise, California, years later. *Fire and Forgiveness* is an incredible tale of survival after a devastating house fire leads a woman on a powerful journey of faith, justice, and forgiveness. This book is riveting; I think that this book should be required reading for anyone going into burn nursing or any type of burn care. Elaine Rojas RN
