[Alloglōssoi](#) Albio Cesare Cassio, Sara Kaczko, 2023-10-24 The studies presented in this volume deal with numerous and often undervalued aspects of multilingualism in Ancient Europe and the Mediterranean Primarily but not exclusively they explore the impact of the great transnational languages Greek and Latin on numerous

indigenous languages the latter mostly disappeared apart from a number of written texts often not well comprehensible but at the same time provided the dominant languages with loanwords some of them destined to enduring success Moreover Greek and Latin were remarkably affected by their mutual contact with the complication that Greek was notoriously far from monolithic and in some areas its different dialects intermingled with each other and with the local languages The case studies of this volume were conducted in the frame of a European HERA research on Multilingualism and Minority Languages in Ancient Europe which covered a number of very diverse areas with an emphasis on Sicily and Southern Italy Illyria Epirus Macedonia Thrace Egypt and Asia Minor also in medieval and modern times This book makes indispensable reading for anyone with an interest in multilingualism and language contact in Ancient Europe Egypt, Greece, and Rome Charles Freeman, 2014-03 Regarded as one of the best general histories of the ancient world it is written for the general reader and the student coming to the subject for the first time and provides a reliable and highly accessible point of entry to the period The 3rd edition has been extensively revised with several chapters rewritten and a wealth of new material added

L. Lightfoot, 2023 The corpus of astrological material ascribed to the Egyptian priest Manetho consists of six books of poetry This book serves as the companion to the one published by OUP in 2020 which was the first commentary in any language on the earliest three books of Manetho s poetry two three and six as they appear in the manuscript This volume supplies the remainder books four one and five Manetho was credited with a series of didactic poems which list outcomes for planetary set ups in a birth chart The books covered in this volume are not as easily dated as those in the first volume but the most recent is probably no later than the fourth century and they are still Egyptian As in the first volume their descriptions of the kinds of person who are born under happy and unhappy configurations of stars speak to the lived realities aspirations and fears of the astrologer s clientele Unlike in the first volume however the individual books treated here have different authors and there is more emphasis on profiling individual poets in terms of style metre and mannerisms As in the first volume there is a Greek text

with English translation and an apparatus with parallel material to enable comparison with related works But this volume pays more attention to the transmission of traditional material from one author to another and to the special approach required of an editor of material which being in practical use circulated in unstable and minutely varying textual forms

Jewish Ethnic Identity and Relations in Hellenistic Egypt Stewart Moore, 2015-07-14 In Jewish Ethnic Identity and Relations in Hellenistic Egypt Stewart Moore investigates the foundations of common assumptions about ethnicity To maintain one's identity in a strange land was it always necessary to band tightly together with one's coethnics Sociologists and anthropologists who study ethnicity have given us a much wider view of the possible strategies of ethnic maintenance and interaction The most important facet of Jewish ethnicity in Egypt which emerges from this study is the interaction over the Jewish Egyptian boundary Previous scholarship has assumed that this border was a Siegfried Line marked by mutual contempt Yet Jews Egyptians and also Greeks interacted in complicated ways in Ptolemaic Egypt with positive relationships being at least as numerous as negative ones **The Secret History of Dreaming** Robert Moss, 2010 Dreaming is vital to the human story It is essential to our survival and evolution to creative endeavors in every field and quite simply to getting us through our daily lives All of us dream Now Robert Moss shows us how dreams have shaped world events and why deepening our conscious engagement with dreaming is crucial for our future He traces the strands of dreams through archival records and well known writings weaving remarkable yet true accounts of historical figures who were influenced by their dreams In this wide ranging visionary book Moss creates a new way to explore history and consciousness combining the storytelling skills of a bestselling novelist with the research acumen of a scholar of ancient history and the personal experience of an active dreamer The Open Sea J. G. Manning, 2020-06-09 In The Open Sea J G Manning offers a major new history of economic life in the Mediterranean world in the Iron Age from Phoenician trading down to the Hellenistic era and the beginning of Rome's imperial supremacy Drawing on a wide range of ancient sources and the latest social theory Manning suggests that a search for an illusory single ancient economy has obscured the diversity of lived experience in the Mediterranean world including both changes in political economies over time and differences in cultural conceptions of property and money At the same time he shows how the region's economies became increasingly interconnected during this period Publisher's description *Missis Tsenhor* Koenraad Donker van Heel, 2014 *Business Woman Egypt history* Religio Duplex Jan Assmann, 2014-02-18 In this important new book the distinguished Egyptologist Jan Assmann provides a masterful overview of a crucial theme in the religious history of the West that of *religio duplex* or dual religion He begins by returning to the theology of the Ancient Egyptians who set out to present their culture as divided between the popular and the elite By examining their beliefs he argues we can distinguish the two faces of ancient religions more generally the outer face that of the official religion and the inner face encompassing the mysterious nature of religious experience Assmann explains that the Early Modern period witnessed the birth of the idea of dual religion with on the one hand the religion of reason and on the

other that of revelation This concept gained new significance in the Enlightenment when the dual structure of religion was transposed onto the individual This meant that man now owed his allegiance not only to his native religion but also to a universal religion of mankind In fact argues Assmann religion can now only hold a place in our globalized world in this way as a religion that understands itself as one among many and has learned to see itself through the eyes of the other This bold and wide ranging book will be essential reading for historians theologians and anyone interested in the nature of religion and its role in the shaping of the modern world *Promoting and Producing Evil* Nancy Billias,2011 At the Interface Probing the Boundaries seeks to encourage and promote cutting edge interdisciplinary and multi disciplinary projects and inquiry By bringing people together from differing contexts disciplines professions and vocations the aim is to engage in conversations that are innovative imaginative and creatively interactive

**Epiphanies and Dreams in Greek Polytheism** Michael Lipka,2021-12-06 While modern students of Greek religion are alert to the occasion boundedness of epiphanies and divinatory dreams in Greek polytheism they are curiously indifferent to the generic parameters of the relevant textual representations on which they build their argument Instead generic questions are normally left to the literary critic who in turn is less interested in religion To evaluate the relation of epiphanies and divinatory dreams to Greek polytheism the book investigates relevant representations through all major textual genres in pagan antiquity The evidence of the investigated genres suggests that the epiphany mindedness of the Greeks postulated by most modern critics is largely an academic chimaera a late comer of Christianizing 19th century scholarship It is primarily founded on a misinterpretation of Homer s notorious anthropomorphism in the Iliad and Odyssey but also in the Homeric Hymns This anthropomorphism which is keenly absorbed by Greek drama and figural art has very little to do with the religious lifeworld experience of the ancient Greeks as it appears in other genres By contrast throughout all textual genres investigated here divinatory dreams are represented as an ordinary and real part of the ancient Greeks lifeworld experience
