

What is government itself but the greatest of all reflections on human nature? If men were angels, no government would be necessary. If angels were to govern men, neither external nor internal controls on government would be necessary.

## **Reflections On Human Nature:**

**Reflections on Human Nature** Arthur O. Lovejoy, 2020-02-03 He discusses the theory of human nature held by the founders of the American Constitution giving special attention to James Madison and the Federalist Papers *Reflections on Human Nature* Arthur Oncken Lovejoy, 1961 *Reflections on the Human Condition* Eric Hoffer, 1973 This collection of aphorisms and philosophical comment represents Eric Hoffer at his best It offers stunning insights that strike home with startling frequency often most uncomfortably it has a fine unity a well defined theme That some of the statements invite argument and questioning is inevitable and stimulating Here is a book of the wry epigram and the icy aphorism which made his earlier books so appealing and gained for him a wide audience Publisher description **The Art of Political**

**Leadership** Fred I. Greenstein, 2006 Fred Greenstein has been a paragon of scholarship and practical advice in his many years of work on the presidency Here some of the leading scholars of the presidency and leadership studies come together to pay tribute to Greenstein and his work Original essays reflect the broad sweep of Greenstein s scholarship from the systematic study of personality and politics to the analysis of chief executives from Woodrow Wilson on The essayists pay special attention to the political styles advisory systems and decision making processes of presidents from the 1920s to today In his studies of the American presidency Greenstein pioneered the use of archival documents to test hypotheses and illuminate issues that bear on the performance of the modern executive office The distinguished list of contributors to this volume include John Burke Robert A Dahl Alexander and Juliette George Betty Glad Alonzo Hamby Erwin Hargrove John Kessel Anthony King Kenneth Kitts J Donald Moon and Fred Greenstein s first and last graduate students at Princeton Larry Berman and Meena Bose Greenstein himself generously writes a new essay on Plumbing the Presidential Psyche adding to his substantial contributions to political psychology **Human Nature** Malcolm Jeeves, 2006-04 Malcolm Jeeves former editor in chief of Neuropsychologia a leading international scientific journal in behavioral and cognitive neuroscience explores the intersection of science and faith in defining what it means to be human He reports on recent scientific research on consciousness and the link between mind brain and behavior He examines issues such as determinism by indicating the possible relevance of chaos theory to enduring concerns about freedom and responsibility He looks at similarities and differences between human nature and animal nature He reexamines traditional dualist views of soul and body in the light of contemporary research on mind and brain and argues for a wholistic model This leads to addressing questions such as does spiritual awareness depend on the intactness of our brains or does spirituality stand apart from our biological substrate

**Comparative Reflections on Persons and Selves** Pavel Stankov, Michael Dufresne, 2023-06-14 What matters in personal survival What makes self awareness possible If there is no permanent self should we be altruistic These and other questions were tackled by the international participants in the 2018 Uehiro Graduate Student Philosophy Conference at University of Hawai i at M noa Their responses explore the subject of subjecthood from interdisciplinary and comparative perspectives

Some approach it from an analytic point of view others from a historical and as many as five draw from non Western traditions to argue their points We have selected seven of the 21 papers presented at the conference Given their comparative scope they provide a slightly unusual sample of the discussions in philosophy of self and personhood today The collection would be of interest not only to graduate students and professional philosophers but also to anyone curious about the comparative methods used to investigate the self in philosophy

Daily Reflections on Divine Mercy John Paul Thomas, 2016-03-17 *Daily Reflections on Divine Mercy* was written to provide an awakening to the abundant Mercy of God It offers daily reflections and prayers to help deepen the day to day faith life of every Catholic so that you can understand the abundance of Mercy poured forth from the Heart of our Savior as it is revealed in the writings of Saint Maria Faustina Kowalska *Divine Mercy in My Soul* Diary of Saint Maria Faustina Kowalska is soon to become a classic spiritual book that everyone is encouraged to read in their lifetime However many find this invitation intimidating not just because of the width of her book but because of the depth of its message on The Divine Mercy in each of Saint Faustina s notebook entries This book *Daily Reflections on Divine Mercy* was written with the hope of guiding you through Saint Faustina s Diary and her six notebooks of reflections It can be used on its own to help you pause and reflect on the beauty of Jesus messages to her or as a companion book as you simultaneously read Saint Faustina s Diary *Daily Reflections on Divine Mercy* offers 365 daily teachings reflections and prayers based upon the pages of Saint Faustina s Diary The structured way to use this daily reflection book is to do just that reflect upon one page each day However some may feel called to skip around a bit read a few reflections at a time or return to a particular reflection through which God spoke to you Therefore though this book was written with the intent of providing one reflection for each day of the year the best way to use it is any way you feel called and the way that benefits your relationship with God the most The first paragraph for each day offers this author s insights to the words and teachings of Saint Faustina The section of her Diary used for the day s teaching is marked so that the reader can also read her Diary first hand so as to see the primary source that the author of this book took inspiration from for that day s reflection Though the primary text of the Diary is never quoted nor are the reflections of this book exact representations of the Diary they do provide the foundational basis for the spiritual message shared in each reflection The second paragraph for each day offers a short reflection put more as a question to the reader It offers the same insight in a different format so as to enter more deeply into the message of the day Finally each daily reflection ends with a prayer focused upon the message and reflection for that day The reader is encouraged to pray this prayer several times Ideally it is prayed first thing in the morning again during the day and again at night as an examination on how well the daily message was received As you seek to survive the world we live in allow these pages to be a font of Mercy for you from God Allow God s Divine Mercy to penetrate your heart so that you will know the abundance of His love and be more prepared to share that love with others

*Black Natural Law* Vincent W. Lloyd, 2016 *Black Natural Law* offers a new way of understanding the

African American political tradition Iconoclastically attacking left including James Baldwin and Audre Lorde right including Clarence Thomas and Ben Carson and center Barack Obama Vincent William Lloyd charges that many Black leaders today embrace secular white modes of political engagement abandoning the deep connections between religious philosophical and political ideas that once animated Black politics By telling the stories of Frederick Douglass Anna Julia Cooper W E B Du Bois and Martin Luther King Jr Lloyd shows how appeals to a higher law or God s law have long fueled Black political engagement Such appeals do not seek to implement divine directives on earth rather they pose a challenge to the wisdom of the world and they mobilize communities for collective action Black natural law is deeply democratic while charismatic leaders may provide the occasion for reflection and mobilization all are capable of discerning the higher law using our human capacities for reason and emotion At a time when continuing racial injustice poses a deep moral challenge the most powerful intellectual resources in the struggle for justice have been abandoned Black Natural Law recovers a rich tradition and it examines just how this tradition was forgotten A Black intellectual class emerged that was disconnected from social movement organizing and beholden to white interests Appeals to higher law became politically impotent overly rational or overly sentimental Recovering the Black natural law tradition provides a powerful resource for confronting police violence mass incarceration and today s gross racial inequities Black Natural Law will change the way we understand natural law a topic central to the Western ethical and political tradition While drawing particularly on African American resources Black Natural Law speaks to all who seek politics animated by justice

### **Reflections on Leadership and Career Development**

Manfred F. R. Kets de Vries, 2010-01-11 Views from the interface of psychoanalysis and organizational life In the books in this series Manfred Kets de Vries failed engineer entrepreneur manqué reluctant economist international management guru psychoanalyst wit and outdoorsman offers an overview of his work spanning four decades a period in which he has established himself as the leading figure in the clinical study of organizational leadership At a key point in his career working as he puts it in the twilight zone of economics management and psychoanalysis he decided to strike out on a little trodden path and bring the person back into the organization Now Kets de Vries occupies a unique position in the academic business world putting leaders and companies of the couch and working at the often intimate interface where the inner theater of the individual meets the outer world of the organization The second book in this series Reflections on Leadership and Career Development takes different perspectives on the intimate connection between the personality or inner theater of individuals and the organizational context in which they work how different personality types in positions of leadership or as members of management teams affect the functioning and success of organizations Kets de Vries looks at the way basic psychological processes operate on individual and corporate performance and analyzes them in the context of case studies of leaders and organizations He examines narcissism dysfunctional collusion between leaders and followers some new leadership archetypes and the roles that organizational therapists coaches or consultants can play in their interventions The book

includes a lengthy study of Vladimir Putin as CEO of Russia Inc an assessment of the former Russian president s performance as an organizational leader The final part of the book examines the career life cycle and how executives cope or fail to cope with rites de passage like succession and retirement For the first time this book provides a glimpse of Manfred Kets de Vries own inner theater as the wellspring of his success as psychoanalyst mentor and inspiration to a generation of leaders Reflections on Leadership and Career Development offers a rare opportunity to observe Manfred on his own legendary couch a personal perspective not to be missed Paul McMorran HR Director TNK BP

David Hume and Contemporary Philosophy Ilya Kasavin,2013-07-16 David Hume bridges a gap between classical and non classical philosophy Two major approaches in 20th century systematic philosophy naturalism and relativism have both basically been inspired by Hume and create the most controversy nowadays The dethroning of the knowing agent and the spiritual substance from their privileged place opens way to the death of God F Nietzsche or the death of the Author R Barthes Hume s criticism of causality corresponds to the indeterminism of the quantum mechanics B Russell K Popper s falsificationism would hardly be possible without Hume s account of induction L Wittgenstein s considerations on rule following reveal similarities with Hume s idea of habit S Kripke as well as with P Bourdieu s concept of habitus D Bloor likes to think of Hume as Edinburgh s great sociologist of knowledge The present collection is not a mere contribution to the history of philosophy though it covers many problems of contemporary Humean scholarship and contains articles written by leading researchers in the field B Straud R Harre J Bricke etc Its aim rather is to demonstrate the vivacity of Hume for contemporary philosophy The authors considerations range from the subtlest questions of the development of his thought and its impact on the contemporary to the most recent and controversial topics in epistemology philosophy of science political theory and ethics

**Liberty, Property, and the Foundations of the American Constitution** Ellen Frankel Paul,Howard Dickman,1989-01-01 Cover title Liberty property the foundations of the American constitution Includes bibliographies and index

**A Political Companion to Frederick Douglass** Neil Roberts,2018-06-29 A splendid opportunity to rethink Douglass s political thought relevant today given the discourse of white nationalism in the United States Choice Frederick Douglass was a writer and public speaker whose impact on America has been long studied by historians and literary critics Yet as political theorists have focused on the legacies of such notables as W E B Du Bois and Booker T Washington Douglass s profound influence on Afro modern and American political thought has often been undervalued In an effort to fill this gap in the scholarship on Douglass editor Neil Roberts and an exciting group of established and rising scholars examine the author s autobiographies essays speeches and novella Together they illuminate his genius for analyzing and articulating core American ideals such as independence liberation individualism and freedom particularly in the context of slavery The contributors explore Douglass s understanding of the self made American and the way in which he expanded the notion of individual potential by arguing that citizens had a responsibility to improve not only their own situations but also those of their communities A Political Companion to Frederick

Douglass also considers the idea of agency investigating Douglass's passionate insistence that every person in a democracy even a slave possesses an innate ability to act. Various essays illuminate Douglass's complex racial politics deconstructing what seems at first to be his surprising aversion to racial pride and others explore and critique concepts of masculinity gender and judgment in his oeuvre. The volume concludes with a discussion of Douglass's contributions to pre and post Civil War jurisprudence. Rich insights from scholarship both old and new. A fine collection. Political Theory *Reflections on Communication, Education, Scholarship, and Life* Xin-An Lu, 2003-07 Our actions in education business and government are no longer guided by conscious ideals but by entrenched practices that are products of expediency indolence and even tyranny. Inveterate and ubiquitous problems abound. Students hate school. Employees dislike their jobs. Professors become disinclined toward teaching. Boredom and procrastination are everywhere. There are promotion requirements such as scholarly publications by college professors that promote nothing and benefit none except to move the person into the next nominal category along the spectrum of the organizational ladder. We are plagued with senseless competitive patterns and numerical evaluations that make life a mere matter of rat race the winning of which does not uplift us into the sublimity of humanity but trammel us in the degradation of being rats. Essays in this book reflect on and search for answers to widespread and inveterate problems that degenerate modern life into mere livelihood. Products in sober solitude rather than in the societal cacophony. Most essays in the book were written during the author's doctoral studies. The Chirurgical Candidate, Or Reflections on Education Indispensable to Complete Naval, Military and Other Surgeons Charles Dunne, 1808 Reflections on Commercial Life Patrick Murray, 2014-06-11 *Reflections on Commercial Life* an anthology of writings from the ancient Greeks to contemporary thinkers provides students scholars and general readers an opportunity to develop a more self-conscious and critical relationship to commercial life. Selections are drawn from seminal works of high intellectual and literary quality. Through an inquiry into history nature and outcomes this volume offers the opportunity to explore as never before alternatives to modern commercial life. **Nietzsche and The Antichrist** Daniel Conway, 2019-01-24 This collection both reflects and contributes to the recent surge of philosophical interest in The Antichrist and represents a major contribution to Nietzsche studies. Nietzsche regarded The Antichrist along with Zarathustra as his most important work. In it he outlined many epoch-defining ideas including his dawning realisation of the death of God and the inception of a new post-moral epoch in Western history. He called the work a crisis without equal on earth the most profound collision of conscience a decision that was conjured up against everything that had been believed demanded hallowed. One certainly need not share Nietzsche's estimation of his achievement in The Antichrist to conclude that there is something significant going on in this work. Indeed even if Nietzsche overestimated its transformative power it would be valuable nonetheless to have a clearer sense of why he thought so highly of this particular book which is something of an outlier in his oeuvre. Until now there has been no book that attempts to account with philosophical precision for the multiple themes addressed in this difficult and

complex work     Philosophical Horizons Yang Guorong,2019-01-28 Professor Yang Guorong is one of the foremost living philosophers in China and is widely known for the development of his concrete metaphysics In Philosophical Horizons Yang offers penetrating discussions of some of the most important issues in modern philosophy especially those topics related to comparative and Chinese philosophy Drawing freely and adroitly on Confucian Daoist and Buddhist texts while staging a dialogue with Western thinkers such as from Kant and Hegel to Marx Heidegger and Wittgenstein Yang shows how contemporary Chinese philosophy has adopted localized and critically developed Western ideas alongside traditional Chinese concepts     **The Greatest Collection of all Time: Lucian's True History by of Samosata Lucian and Bede's**
