Reform Of Prisoners 1830 19:

Metaphors of Confinement Monika Fludernik, 2019-08-13 *Metaphors of Confinement* The Prison in Fact Fiction and Fantasy offers a historical survey of imaginings of the prison as expressed in carceral metaphors in a range of texts about imprisonment from Antiquity to the present as well as non penal situations described as confining or restrictive These imaginings coalesce into a carceral imaginary that determines the way we think about prisons just as social debates about punishment and criminals feed into the way carceral imaginary develops over time Examining not only English language prose fiction but also poetry and drama from the Middle Ages to postcolonial particularly African literature the book juxtaposes literary and non literary contexts and contrasts fictional and nonfictional representations of imprisonment and discussions about the prison as institution and experiential reality It comments on present day trends of punitivity and foregrounds the ethical dimensions of penal punishment The main argument concerns the continuity of carceral metaphors through the centuries despite historical developments that included major shifts in policy such as the invention of the penitentiary The study looks at selected carceral metaphors often from two complementary perspectives such as the home as prison or the prison as home or the factory as prison and the prison as factory The case studies present particularly relevant genres and texts that employ these metaphors often from a historical perspective that analyses development through different periods

Crime and Law in England, 1750-1840 Peter King, 2006-12-07 How was law made in England in the eighteenth and early nineteenth centuries Through detailed studies of what the courts actually did Peter King argues that parliament and the Westminster courts played a less important role in the process of law making than is usually assumed Justice was often remade from the margins by magistrates judges and others at the local level His book also focuses on four specific themes gender youth violent crime and the attack on customary rights In doing so it highlights a variety of important changes the relatively lenient treatment meted out to women by the late eighteenth century the early development of the juvenile reformatory in England before 1825 i e before similar changes on the continent or in America and the growing intolerance of the courts towards everyday violence This study is invaluable reading to anyone interested in British political and legal history

The Reform of Prisoners 1830-1900 William James Forsythe, 1987 Architecture and Justice Jonathan Simon, 2016-04-15 Bringing together leading scholars in the fields of criminology international law philosophy and architectural history and theory this book examines the interrelationships between architecture and justice highlighting the provocative and curiously ambiguous juncture between the two Illustrated by a range of disparate and diverse case studies it draws out the formal language of justice and extends the effects that architecture has on both the place of and the individuals subject to justice With its multi disciplinary perspective the study serves as a platform on which to debate the relationships between the ceremonial legalistic administrative and penal aspects of justice and the spaces that constitute their settings The structure of the book develops from the particular to the universal from local situations to the larger city and thereby

examines the role that architecture and urban space play in the deliberations of justice At the same time contributors to the volume remind us of the potential impact the built environment can have in undermining the proper juridical processes of a socio political system Hence the book provides both wise counsel and warnings of the role of public civic space in affirming our sense of a just or unjust society *Fenian Problem* Brian Jenkins,2008 A young bear cub who is alone in the world and Old Bear who is grumpy and tired of living alone meet and discover what they have been missing **Illiterate Inmates** Rosalind Crone,2022 Illiterate Inmates tells the story of the emergence at the turn of the nineteenth century of a powerful idea the provision of education in prisons for those accused and convicted of crime and its execution over the century that followed drawing on evidence from both local and convict prisons **A History of the Penal, Reformatory, and Correctional Institutions of the State of New Jersey** Harry Elmer Barnes,1918 Reports of the Prison Discipline Society, Boston ,1855 **Annual Report of the Board of Managers of the Prison Discipline Society** ,1827 **Dress Behind Bars** Juliet Ash,2009-11-30 From nineteenth century broad arrows and black and white stripes to twenty first century orange jumpsuits prison clothing has both mirrored and bolstered the power of penal institutions over prisoners lives Vividly illustrated and based on original research including throughout the voices of the incarcerated this book is a pioneering history and investigation of prison dress which demystifies the experience of what it is like to be an imprisoned criminal Juliet Ash takes the reader on a journey from the production of prison clothing to the bodies of its wearers She uncovers a history characterized by waves of reform sandwiched between regimes that use clothing as punishment and discovers how inmates use their dress to surmount subvert or survive these punishment cultures She reveals the hoods the masks and pink boxer shorts near nakedness even twenty first century civvies to be not just other types of uniform but political embodiments of the surveillance of everyday life *Science, Reform, and Politics in Victorian Britain* Lawrence Goldman,2002-06-13 This book is a study of the relationships between social thought social policy and politics in Victorian Britain Goldman focuses on the activity of the National Association for the Promotion of Social Science known as the Social Science Association For three decades this served as a forum for the discussion of Victorian social questions and as an influential adviser to governments and its history discloses how social policy was made in these years The Association which attracted many powerful contributors including politicians civil servants intellectuals and reformers had influence over policy and legislation on matters as diverse as public health and women s legal and social emancipation The SSA reveals the complex roots of social science and sociology buried in the non academic milieu of nineteenth century reform And its influence in the United States and Europe allows for a comparative approach to political and intellectual development in this period *Laboratories of Virtue* Michael Meranze,2012-12-01 Michael Meranze uses Philadelphia as a case study to analyze the relationship between penal reform and liberalism in early America In *Laboratories of Virtue* he interprets the evolving system of criminal punishment as a microcosm of social tensions that characterized the early American republic Engaging

recent work on the history of punishment in England and continental Europe Meranze traces criminal punishment from the late colonial system of publicly inflicted corporal penalties to the establishment of penitentiaries in the Jacksonian period Throughout he reveals a world of class difference and contested values in which those who did not fit the emerging bourgeois ethos were disciplined and eventually segregated By focusing attention on the system of public penal labor that developed in the 1780s Meranze effectively links penal reform to the development of republican principles in the Revolutionary era His study richly informed by Foucaultian and Freudian theory departs from recent scholarship that treats penal reform as a nostalgic effort to reestablish social stability Instead Meranze interprets the reform of punishment as a forward looking project He argues that the new disciplinary practices arose from the reformers struggle to contain or eliminate contradictions to their vision of an enlightened liberal republic

Long Before Stonewall Thomas A. Foster, 2007-07-01 2007

Choice Outstanding Academic Title Although the 1969 Stonewall riots in New York City symbolically mark the start of the gay rights movement individuals came together long before the modern era to express their same sex romantic and sexual attraction toward one another and in a myriad of ways Some reflected on their desires in quiet solitude while others endured verbal physical and legal harassment for publicly expressing homosexual interest through words or actions *Long Before Stonewall* seeks to uncover the many iterations of same sex desire in colonial America and the early Republic as well as to expand the scope of how we define and recognize homosocial behavior Thomas A Foster has assembled a pathbreaking interdisciplinary collection of original and classic essays that explore topics ranging from homoerotic imagery of black men to prison reform to the development of sexual orientations This collection spans a regional and temporal breadth that stretches from the colonial Southwest to Quaker communities in New England It also includes a challenge to commonly accepted understandings of the Native American berdache Throughout connections of race class status and gender are emphasized exposing the deep foundations on which modern sexual political movements and identities are built

Abstracts ,1998 **Papers and Discussions of the 19th Annual Meeting, Providence, Dec. 1906** American Economic Association,1907 **'Star Men' in English Convict Prisons, 1879-1948** Ben Bethell,2022-09-27 This book tells the story

of the star class a segregated division for first offenders in English convict prisons known informally as star men convicts assigned to the division were identified by a red star sewn to their uniforms *Star Men in English Convict Prisons 1879 1948* investigates the origins of the star class in the years leading up to its establishment in 1879 and charts its subsequent development during the late Victorian Edwardian and interwar decades To what extent did the star class serve to shield gentleman convicts from their social inferiors and allow them a measure of privilege What was the precise nature of the contamination by which they and other accidental criminals were believed to be threatened And why for the first twenty years of its existence were first offenders convicted of unnatural crimes barred from the division To explore these questions the book considers the making and implementation of penal policy by senior civil servants and prison administrators and the

daily life and work of prisoners at policy's receiving end. It re-examines evolving notions of criminality, the competing aims of reformation and deterrence, and the role and changing nature of prison labour. Along the way, readers will encounter an array of star men including arsonists, abortionists, sex offenders, and reprieved murderers, disgraced bankers, light-fingered postmen, bent solicitors, and perjuring policemen. Taking a fresh look at English prison history through converging lenses of class, sexuality, and labour, *Star Men in English Convict Prisons 1879-1948* will be of great interest to penal historians and historical criminologists, and to scholars working on related aspects of modern British history.

Reforms and Reformers of England Henry Brewster Stanton, 1853

Effective Interventions in the Lives of Criminal Offenders John A. Humphrey, Peter Cordella, 2013-10-24 This book provides the most current thinking on effective interventions in the lives of criminal offenders. Original articles by leading criminologists provide in-depth analyses of turning points in the desistance process experienced by criminal offenders. An understanding of the sources of turning points or interventions across the life course is vital to assessing their impact on criminal behavior. Three sources of interventions in criminal careers are identified in the literature: structural location, human agency, and situated choice. Structural location refers to the social place occupied by an individual in the social structure, including marital and occupational status, education, and income, and so on. Human agency means the active will of an individual to change his or her behavior; that is, the decision to stop engaging in criminal activities. In addition, situated choice coordinates the offender's willingness to end a life of crime with the social structural supports that increase the odds of criminal desistance. This comprehensive book considers all three sources of turning points: structural location, human agency, and situated choice across the life course of criminal offenders. The book also provides a section on cross-cultural perspectives on the effectiveness of interventions in the careers of criminal offenders. The policy implications of each intervention are considered in individual chapters. In addition, the authors suggest a research agenda to further the understanding of the interplay among the key interventions across the life course. This book will be of interest to researchers studying criminology from a life course perspective, as well as crime prevention and public policy.

On the Penitentiary System in the United States and its Application to France Gustave de Beaumont, Alexis de Tocqueville, 2018-05-21 This book provides the first complete literal English translation of Alexis de Tocqueville's and Gustave de Beaumont's first edition of *On the Penitentiary System in the United States and Its Application to France*. The work contains a critical comparison of two competing American penitentiary disciplines known as the Auburn and Philadelphia systems; an evaluation of whether American penitentiaries can successfully work in France; a detailed description of Houses of Refuge as the first juvenile detention centers; and an argument against penal colonization. The work provides valuable insights into understanding Tocqueville as a statesman, as well as a comparative look at civic engagement in early American and French penal reform movements. The Translator's Introduction provides historical context for understanding Tocqueville's work in French penal reform and the major themes of the report. The book thus fills a void in Tocquevillian

studies and extrapolates the roots of American and French criminal justice systems in the nineteenth century
