The Emerald Handbook of Public Administration in Latin America B. Guy Peters,Carlos Alba Tercedor,Conrado Ramos,2021-01-12 This handbook presents contemporary research on public administration in Latin America The first section explores the range of administrative systems in existence across the region The second portion of the book discusses important topics such as public personnel management accountability and policy coordination in Latin America [Diversity of Capitalisms in Latin America](#) Ilán Bizberg,2019-01-17 One of the definite merits of this book is to cleverly mix a theoretical breakthrough with a meticulous historical and empirical account of the transformations of some key Latin American

countries First it is at the frontier of a research agenda initiated back to the end of the 1970s second it clearly distinguishes between an ideal type approach and the complexity of any specific national configuration and its transformation in history Furthermore the author provides decisive arguments against a pure economic determinism too frequently supposed to govern institutions building and reforms Last but not least the book culminates by an impressive analysis of the crises that quite any Latin America society experiences at the end the 2010s Robert Boyer Institut des Amériques Paris France This book defends the idea that there are significant structural and institutional differences between the countries in Latin America Building off the results of a four year research project Bizberg argues against the idea that in Latin America there is one single type of capitalism a hierarchical one that is entangled in a vicious cycle Rather there are clusters of countries that have had similar historical trajectories analogous structures or comparable reactions to changes to the world economy but have not all followed the same mode of development Just as analysts have found a variety of capitalisms in developed countries it is possible to identify the emergence of different types of capitalism in Latin America since the 1980s debt crisis These varieties of capitalism are defined according to categories including the articulation to the world economy the role of the State the structure of the political system and the action of civil society which give rise to distinct wage relations comprising the industrial relations system and the welfare regime

Políticas públicas en sistemas críticos: el caso latinoamericano André-Noël Roth Deubel,Miguel Ángel Ruiz

García, Maguematí Wabgou, Cristina Zurbriggen, Guillermo Maya Muñoz, Edgar Varela Barrios, Alejo Vargas Velázquez, Darío Acevedo Carmona, Wilson Castañeda, Ricardo Zuluaga, Carolina Jiménez, Oscar Almario García, Miguel Ángel Herrera, Juan Antonio Zornoza, 2008-12-01 La teoría de las políticas públicas llegó a Latinoamérica en la década de 1950 importada desde los círculos intelectuales de los países desarrollados. A lo largo de más de cincuenta años los países latinoamericanos adoptaron estos modelos elaborados en contextos diferentes generalmente sin ajustarlos a las realidades y vicios propios de sus sistemas políticos. Este libro muestra una exploración de los efectos de derivados de la aplicación de la aplicación de esos enfoques en las políticas públicas de la Región particularmente en Colombia. El objeto de esta compilación es aportar al debate sobre la formulación de un modelo propio que responda a las dinámicas de las sociedades latinoamericanas.
