Reformers And Activists:

Early Feminist Pioneers, Their Lives, and Their Reform Efforts Satish Sharma, 2020-12-24 Early feminist pioneers contributed much to the functioning and reform of society including making women's status and privileges equal to those of men. However, we still do not know enough about their efforts, strategies, sacrifices, and attainments. As such, through a focus on the lives and contributions of eight early female pioneers of England and America from the seventeenth century to the early twentieth century, this book helps to fill this gap. Among these women were religious and educational reformers, political activists, social advocates, abolitionists, feminists, community organizers, pacifists, internationalists, and historians. These women noticed many injustices done to their kind by men and society over the centuries and took brave actions at great personal costs to provide remedies. Their respective backgrounds and interests were different, but all of them desired more protection and the welfare of vulnerable populations nationally and internationally. This book will be of interest to scholars and students in many fields and can also be adopted as a textbook in colleges and universities.

Muslim Women Reformers Ida Lichter, 2009-12-30 In this inspiring compilation of stories from around the world, the voices of these long oppressed women ring loud and clear as they demand the social and political rights women lack in many Muslim countries.

Encyclopedia of Women Social Reformers Helen Rappaport, 2001-12-06 The first comprehensive guide to women activists from every part of the world, illuminating the broad range of women's struggles to reform society from the 18th century to the present. Despite being marginalized, disenfranchised, impoverished, and oppressed, women have always stepped forward in disproportionate numbers to lead movements for social change. This two-volume encyclopedia documents the visions, struggles, and lives of women who have changed the world. This encyclopedia celebrates the lives and achievements of nearly 300 women from around the globe, women who have bravely insisted that the way things are is not the way they have to be. Nadeshda Krupskaya, the wife of Lenin, spearheaded the drive against illiteracy in post-revolutionary Russia. American Dorothy Day founded the Catholic worker movement. Begum Rokeya Hossain organized a girls' school in Calcutta in 1911. Rachel Carson launched the modern environmental movement with her book *Silent Spring*. The stories of these women and the hundreds of others collected here will restore missing pages to our history and inspire a new generation of women to change the world.

Nuclear Politics in America Robert J. Duffy,1997 Duffy s work traces nuclear politics from the creation of a powerful subgovernment through the public lobby reforms of the late 1960s and early 1970s and the deregulatory backlash of the Reagan years He demonstrates that while policies did change in the 1970s they did not change as much as other accounts have suggested and that the industry continued to receive considerable federal support The book is particularly significant for extending the discussion of nuclear policy through the Bush and Clinton years including the controversy over waste disposal new licensing procedures enacted in the 1992 Amendments to the Atomic Energy Act and the effects of deregulation of electric utilities Amazon com viewed August 24 2020

Reformation and the Visual Arts Sergiusz Michalski,2013-01-11 Covering a vast geographical and chronological span and bringing new and exciting material to light

The Reformation and the Visual Arts provides a unique overview of religious images and iconoclasm starting with the consequences of the Byzantine image controversy and ending with the Eastern Orthodox churches of the nineteenth century. The author argues that the image question played a large role in the divisions within European Protestantism and was intricately connected with the Eucharist controversy. He analyses the positions of the major Protestant reformers Luther, Zwingli, Calvin, and Karlstadt on the legitimacy of religious paintings and investigates iconoclasm both as a form of religious and political protest and as a complex set of mock revolutionary rites and denigration rituals. The book also contains new research on relations between Protestant iconoclasm and the extreme icon worship of the Eastern Orthodox churches and provides a brief discussion of Eastern protestantizing sects especially in Russia. *Youth and Society* K. Defining Girlhood in India Ashwini Tambe, 2019-10-16 At what age do girls gain the maturity to make sexual choices This question provokes especially vexed debates in India where early marriage is a widespread practice India has served as a focal problem site in NGO campaigns and intergovernmental conferences setting age standards for sexual maturity Over the last century the country shifted the legal age of marriage from twelve among the lowest in the world to eighteen at the high end of the global spectrum Ashwini Tambe illuminates the ideas that shaped such shifts how the concept of adolescence as a sheltered phase led to delaying both marriage and legal adulthood how the imperative of population control influenced laws on marriage age and how imperial moral hierarchies between nations provoked defensive postures within India Tambe takes a transnational feminist approach to legal history showing how intergovernmental debates influenced Indian laws and how expert discourses in India changed UN terminology about girls Ultimately Tambe argues the well meaning focus on child marriage has been tethered less to the interests of girls themselves and more to parents interests achieving population control targets and preserving national reputation

Abortion before Birth Control Tiana Norgren, Christiana Norgren, 2020-12-08 Why has postwar Japanese abortion policy been relatively progressive while contraception policy has been relatively conservative The Japanese government legalized abortion in 1948 but did not approve the pill until 1999 In this carefully researched study Tiana Norgren argues that these contradictory policies flowed from very different historical circumstances and interest group configurations Doctors and family planners used a small window of opportunity during the Occupation to legalize abortion and afterwards doctors and women battled religious groups to uphold the law The pill on the other hand first appeared at an inauspicious moment in history Until circumstances began to change in the mid 1980s the pharmaceutical industry was the pill s lone champion doctors midwives family planners and women all opposed the pill as a potential threat to their livelihoods abortion rights and women s health Clearly written and interwoven with often surprising facts about Japanese history and politics Norgren s book fills vital gaps in the cross national literature on the politics of reproduction a subject that has received more attention in the European and American contexts *Abortion Before Birth Control* will be a valuable resource for those interested in abortion and contraception policies gender studies modern Japanese history political science and public policy This is a major contribution to the literature on reproductive rights and the role of civil society in a country usually discussed in the context of its industrial might

TYACK,Larry Cuban,David B Tyack,2009-06-30 For over a century

Americans have translated their cultural anxieties and hopes into dramatic demands for educational reform. Although policy talk has sounded a millennial tone, the actual reforms have been gradual and incremental. *Tinkering toward Utopia* documents the dynamic tension between Americans' faith in education as a panacea and the moderate pace of change in educational practices. In this book, David Tyack and Larry Cuban explore some basic questions about the nature of educational reform: Why have Americans come to believe that schooling has regressed? Have educational reforms occurred in cycles, and if so, why? Why has it been so difficult to change the basic institutional patterns of schooling? What actually happened when reformers tried to reinvent schooling? Tyack and Cuban argue that the ahistorical nature of most current reform proposals magnifies defects and understates the difficulty of changing the system. Policy talk has alternated between lamentation and overconfidence. The authors suggest that reformers today need to focus on ways to help teachers improve instruction from the inside out, instead of decreeing change by remote control, and that reformers must also keep in mind the democratic purposes that guide public education.

Kansas and the West Rita Napier, 2003. By incorporating voices from history that have too long been lost in the din of tradition, especially the voices of Native Americans and Black women and laborers, *Kansas and the West* provides a provocative and much-needed new view of the state's past.
