Committee on Banking, Housing, and Urban Affairs, 2009 *Reviving Regulatory Reform* Robert William Hahn, 2000 This study into regulatory reform shows that technological impacts on the economic benefits and costs of regulation and a deeper understanding of the social effects of the regulatory institution are driving policymakers to question the familiar and to propose daring changes **OECD Reviews of Regulatory Reform Regulatory Policy in Korea Towards Better Regulation** OECD, 2017-05-23 Regulatory reform has been a top priority in Korea for several successive administrations This review identifies a number of areas where improvements could help Korea reap the full benefits of the reforms introduced so far **Tools for Reforming Canada's System of Technical Regulation in the Agri-food Sector to Enhance Competitiveness** Agri-Food Competitiveness Council, George Morris Centre, Larry Jo Martin, 1993 **Reforming Regulation** Lawrence J. Senate. Committee on Governmental Affairs. Subcommittee on Intergovernmental Relations, 1977 Institutions for Economic Reform in Asia Philippa Dee, 2009-12-16 In the same way that no economy starts out with the best set of economic policies no economy starts out with the best institutions to support the policy making process Instead they inherit institutions that reflect their own unique culture and history The task of structural reform has to be addressed therefore in the context of domestic economic and political institutions and processes Examining the nature of structural economic reform and the institutional circumstances in which it succeeds or is inhibited this volume is less about the content of structural reform and more about how to get there The chapters develop principles governing the types of institutions that are likely to assist the structural reform process and then examine the application of those principles within a number of case studies Finally the volume presents some ideas about how regional cooperation could help to build and support those institutions that in turn support domestic structural reforms Consisting of theoretical chapters and country specific case studies this book draws on experience with structural reform across a range of Asian economies at different stages of economic development As such it will be of interest to students and scholars of Asian Economics and Development Economics *The Anticompetitive Impact of Regulation* Giuliano Amato, Laraine L. Laudati, 2001-01-01 This timely book addresses the important issue of the negative effects of anticompetitive regulation on industry and the massive economic harm it causes The distinguished contributors including economic and legal scholars advocate the need for a review of all anticompetitive laws and address several industry

and country case studies with the ultimate aim of providing recommendations to eliminate the impact of anticompetitive regulation. The first part of the book considers regulations affecting private business and professions; part two covers public utility and public services regulation; whilst part three discusses the role of institutions and competition authorities in relation to anticompetitive practices. The authors draft guidelines based on economic evidence and legal arguments which they believe would provide a starting point for the European Union to address the problem. They go on to propose possible implementation strategies for these guidelines from both an institutional and legal perspective. The book also includes a historical perspective on the evolution of anticompetitive regulation complemented by an overview of the actions currently being implemented to address and reverse the problem in other jurisdictions.

#### **Regulatory Reform in Canada**

W. T. Stanbury, Fred Thompson, Institute for Research on Public Policy, 1982. From the Introduction: This study examines the nature of and prospects for regulatory reform in Canada. In particular, we are concerned with the elimination of liberalization of direct regulation in such industries as telecommunications, airlines, trucking, and agriculture. In focusing our attention on the prospects for reforming direct regulation in Canada, we do not wish to slight the potential value of reforming the regulatory process. But most procedural reforms focus on the margin or flow of new regulation, while deregulation proper is aimed at reducing the enormous stock already in existence. Within the field of direct regulation, we have further narrowed our analysis to the role of the federal government as regulator.
