Bank Politics David Howarth, Scott James, 2022-11-03 The problem of banks being too big to fail was the defining regulatory issue of the global financial crisis However attempts to tackle the problem by separating retail banking from higher risk trading activities known as structural reform proved to be highly divisive and contributed to significant regulatory divergence In this book David Howarth and Scott James explain this variation by examining the politics of bank structural reform across six key jurisdictions the United States the European Union the United Kingdom France Germany and the Netherlands Integrating political economy and public policy approaches they develop a novel comparative financial power framework to analyse how financial industry influence is mediated by two factors first whether bank lobbying is unified and centralized cooperative financial power or divided and fragmented competitive financial power and second policy makers use of venue shifting to depoliticize contentious policy issues The book explains that the US and UK governments implemented major reforms because the banking industry was divided and faced significant opposition However venue shifting to an independent committee led to durable reform in the UK while political polarization in the US contributed to contested reform By contrast the French and German governments balanced unified bank lobbying and political pressures to act by pursuing limited symbolic reforms the Dutch government deflected the issue through delegation to multiple commissions no reform while

political stalemate at the EU level resulted from early venue shifting and concerted pan European bank lobbying The book makes a major contribution to scholarship on the political economy of finance and business power **Congressional Oversight Panel Special Report on Regulatory Reform** United States. Congressional Oversight Panel,2009 Financial Market Regulation and Reforms in Emerging Markets Masahiro Kawai,Eswar S. Prasad,2011-05-01 The rapid spread and far reaching impact of the global financial crisis have highlighted the need for strengthening financial systems in advanced economies and emerging markets Emerging markets face particular challenges in developing their nascent financial systems and making them resilient to domestic and external shocks Financial reforms are critical to these economies as they pursue programs of high and sustainable growth In this timely volume Masahiro Kawai Eswar Prasad and their contributors offer a systematic overview of recent developments in and the latest thinking about regulatory frameworks in both advanced countries and emerging markets Their analyses and observations clearly point out the challenges to improving regulation efficiency of markets and access to the financial system Policymakers and financial managers in emerging markets are struggling to learn from the crisis and will need to grapple with some key questions as they restructure and reform their financial markets What lessons does the global financial crisis of 2007-09 offer for the establishment of efficient and flexible regulatory structures How can policymakers develop broader financial markets while managing the associated risks How or should they make the formal financial system more accessible to more people How might they best contend with multinational financial institutions This book is an important step in getting a better grasp of these issues and making progress toward solutions that strike a balance between promoting financial market development and efficiency on the one hand and ensuring financial stability on the other *The Department of the Treasury Blueprint for a Modernized Financial Regulatory Structure* ,2008-06-24 Presents a series of short term and intermediate term recommendations that could immediately improve and reform the U S regulatory structure The short term recommendations focus on taking action now to improve regulatory coordination and oversight in the wake of recent events in the credit and mortgage markets The intermediate recommendations focus on eliminating some of the duplication of the U S regulatory system but more importantly try to modernize the regulatory structure applicable to the banking insurance securities and futures industries OECD Reviews of Regulatory Reform: Regulatory Reform in Korea 2000 OECD,2000-06-02 This Review presents an integrated assessment of regulatory reform in framework areas such as the quality of the public sector competition policy and enforcement and market openness in Korea Financial Regulatory Reform ,2009 This report details the proposed reforms by the US Dept of Treasury to meet the following five key objectives 1 Promote robust supervision and regulation of financial firms 2 Establish comprehensive supervision of financial markets 3 Protect consumers and investors from financial abuse 4 Provide the government with the tools it needs to manage financial crises 5 Raise international regulatory standards and improve international cooperation
