**Masculinity and the Paradox of Violence in American Fiction, 1950-75** Maggie McKinley, 2016-10-20 An examination of the relationship between violence and masculinity in works by Richard Wright Norman Mailer Saul Bellow James Baldwin and Philip Roth highlighting the inherent paradox whereby masculinity in this fiction is both asserted and undermined by acts of aggression

**Men of Their Words** Nigel Harkness, 2017-12-02 Whereas the centrality of femininity to nineteenth century French fiction has been the focus of widespread critical attention masculinity has until recently received little sustained treatment in either the literary or socio historical domains In this book Nigel Harkness uses the fiction of George Sand 1804 1876 the pre eminent woman writer of the period to explore questions of masculinity as they pertain to the nineteenth century French novel and to map out new approaches to the study of literary masculinity Drawing on contemporary theories of gender and narrative Harkness reveals how Sands novels repeatedly focus on a nexus of language masculinity and power in which narrative is both a vehicle for the expression of manhood and a site where masculinity is discursively performed Masculinity is thus reconfigured in Sands fiction as an identity constituted as much through words as through actions Analysis of the performances of masculinity staged in Sands novels opens onto an exploration of gendered processes of literary representation the links between masculinity and the doxa the equation of writing and power the homosocial function of acts of narration and the masculinity of authorship and authority

Forth, 2008-09-16 Across the Western world crisis is the word most commonly used to describe the state of masculinity today but how new is this idea Can we identify a time when masculinity was actually stable and secure Masculinity in the Modern West engages with these questions by examining how traditional ideals about male physical prowess have clashed with the lifestyle changes that accompanied the rise of modern civilization since 1700 In countries like America Britain France Germany and Russia modernity bolstered male dominance in commerce politics technology and the world of ideas yet images of masculinity have

continued to be haunted by the negative effects that polite cerebral consumerist and sedentary lifestyles might have on the minds and bodies of men. Modernity thus exercises a double logic that supports male privilege while diminishing the physical difference used to legitimate that privilege. By focusing on the male body, this wide-ranging study proposes that crises of masculinity may be structural and thus inescapable features of life in our world. Manhood in America Michael S. Kimmel, 2018. For more than three decades, the women's movement and its scholars have exhaustively studied women's complex history, roles, and struggles. In Manhood in America: A Cultural History, Fourth Edition, author Michael Kimmel argues that it is time for men to rediscover their own evolution. Drawing on a myriad of sources, he demonstrates that American men have been eternally frustrated by their efforts to keep up with constantly changing standards. Kimmel contends that men must follow the lead of the women's movement: it is only by mining their past for its best qualities and worst excesses that men will free themselves from the constraints of the masculine ideal. **Young Black Street Masculinities** Brendan King, 2022-02-12. This book describes how young Black men on a disadvantaged housing estate in London navigate the estate's expectations for their behaviour as they operate within a street code that endorses violence, knife carrying, and challenging masculinity. This street code informs the men's masculine identities by promoting values of misogyny, violence, and the possession of expensive material objects while subduing any performance or features deemed as weak or feminine. Chapters detail the daily pressure on young men to gain respect and perform the estate's street code while also providing examples of young men who have escaped or rejected its influence. King also outlines how youth workers can support those trapped by the estate's street code by embodying personalised or caring masculinity features that seek to transform the dominant masculinity. Cultural Psychology Uwe Wolfradt, Lars Allolio-Näcke, Paul Sebastian Ruppel, 2024-12-17. The introductory book presents the current state of cultural psychology in terms of theoretical approaches and methods comprehensively. It also demonstrates how deeply it is anchored in various fields of action. Cultural psychology is an interdisciplinary field of research that aims less to objectively and causally explain human behavior and experience but rather seeks to understand psychological phenomena in their respective sociocultural context. In doing so, it follows a theoretical understanding of humans as actively acting beings. Compared to the prevailing nomothetic-oriented psychology, it emphasizes different theoretical and methodological approaches, particularly highlighting intentionality, meaning, structuring, and ultimately the cultural aspects of human existence. Cultural psychology incorporates both hermeneutic approaches from psychology, philosophy, sociology, and ethnology, as well as qualitative methods for studying human behavior and experience. Killing Spanish L. Sandin, 2016-02-19. In this intelligent monograph for women's studies, literature, and Latin American studies, Lyn Di Iorio Sandin asserts that there is a significant ambivalence surrounding identity that is present in the works of Latino writers such as Cristina Garcia, Edward Rivera, and Abraham Rodriguez. Sandin incorporates the theories of allegory and double identity to talk about fragmentation of the Latino psyche. What Sandin finds compelling is that in all of the works of this

diverse group of writers there is a common theme of anxiety about origins that manifests itself through the symbols of dead women ghosts or madwomen Using specific examples from literature ranging from Cuban American Cristina Garcia s *The Aguero Sisters* to Puerto Rican Rosario Ferre s *Maldito amor* Sandin finds that fragmented ethnic identification is an area that is just beginning to be explored within the analysis of U S Latino fiction     [Routledge Handbook of Street Culture](#)
