Rutter, Jill, 2006-06-01 Includes statistical tables and graphs [The Kindertransport](#) Jennifer Craig-Norton, 2019-06-25 A timely study of the effects of family separation on child refugees using newly discovered archival sources from the WWII era Highly recommended Choice The Kindertransport an organized effort to extract children living under the threat of Nazism lives in the popular memory as well as in literature as a straightforward act of rescue and salvation but these celebratory accounts leave little room for a deeper more complex analysis This volume reveals that in fact many children experienced difficulties with settlement they were treated inconsistently by refugee agencies their parents had complicated reasons for giving them up and their caregivers had a variety of motives for taking them in Against the grain of many other narratives Jennifer Craig Norton emphasizes the use of newly discovered archival sources which include the correspondence of refugee agencies carers Kinder and their parents and juxtaposes this material with testimonial accounts to show readers a more

nuanced and complete picture of the Kindertransport In an era in which the family separation of refugees has commanded considerable attention this book is a timely exploration of the effects of family separation as it was experienced by child refugees in the age of fascism

**Child, Adolescent and Family Refugee Mental Health** Suzan J. Song, Peter Ventevogel, 2020-06-15 More than half of the 25.9 million refugees in the world are under the age of 18 and the mental health of these children and adolescents constitutes a growing global public health priority Refugee children and their families are at increased risk to develop mental health problems but they often face major challenges in accessing adequate treatment and mental health professionals frequently feel ill equipped to assist this group Refugees are faced with a plethora of issues including the ambiguous loss of loved ones psychological trauma related to past experiences of violence and atrocities the complexities of daily life as a refugee and the challenges to adapt to new systems of care and support Refugees life circumstances all too often undermine their agency as they face discrimination stigma and social isolation or exclusion Refugees are frequently disconnected from the usual family and community supports that they once had which creates additional mental distress As parents struggle with these changes their children often find it even more difficult to adapt and connect with them This all leads to increased prevalence of mental health conditions among refugees Humanitarian policies recommend family centered interventions that are multi sectoral multi disciplinary and focus on optimizing resource utilization Over the last decade a considerable body of research has emerged around socio ecological models of mental health family and community approaches and resilience and strengths based theories but these insights are insufficiently incorporated in the practice of mental health care for refugee children Clinicians often struggle to grasp the common unique stressors that families face and are not familiar with working with families as units for intervention Using culturally and contextually informed assessment methods and family oriented management approaches not only help individual children or adolescents but also their families This book aims to provide an overview of the latest theoretical insights from research on sociocultural aspects of mental health and connect these with clinical insights from practical mental health care provision Using strengths based resiliency oriented and family centered approaches can enrich clinical practice in refugee mental health but clinicians need to translate the emerging evidence into concrete steps and interventions This requires additional skills for the assessment and management of mental health conditions in refugee children and families The chapters in this book are written by a diverse group of authors using global multi disciplinary approaches The chapters provide examples from various contexts including refugees who are displaced to neighboring countries refugees on the move and refugees and asylum seekers in resettlement settings This book is therefore a unique resource for clinicians researchers and policy makers working on mental health issues of refugee children and adolescents around the world

*Discourses of Postcolonialism in Contemporary British Children's Literature* Blanka Grzegorzczuk, 2014-10-03 This book considers how contemporary British children's books engage with some of the major cultural debates of recent years and how they resonate with the current preoccupations and tastes of the white mainstream British reading public A central assumption of this volume is that Britain's imperial past continues to play a key role in its representations of race identity and history The insistent inclusion of questions relating to colonialism and power structures in recent children's novels exposes the complexities and contradictions surrounding the fictional treatment of race relations and ethnicity Postcolonial children's literature in Britain has been inherently ambivalent since its cautious beginnings it is both transgressive and authorizing both

undercutting and excluding Grzegorzczuk considers the ways in which children's fictions have worked with and against particular ideologies of race. The texts analyzed in this collection portray ethnic minorities as complex hybrid products of colonialism, global migrations and the ideology of multiculturalism. By examining the ideological content of these novels, Grzegorzczuk demonstrates the centrality of the colonial past to contemporary British writing for the young. Offshore Madeline Gleeson, 2016-05-01. What has happened on Nauru and Manus since Australia began its most recent offshore processing regime in 2012?
