Refugee Law In Australia:

Migration and Refugee Law in Australia Mirko Bagaric, John Vrachnas, 2007 Migration law has been a very controversial area over the past twenty years The global movement of people and the plight of refugees have led to a series of controls on people entering into and remaining in Australia The legislation containing the rules have been changed many times and the courts have considered hundreds of cases In Migration and Refugee Law in Australia Cases and Commentary the main principles of law are extracted and explained so that the law can be understood. The book analyses the policy and moral considerations underpinning migration law and suggests an overarching framework for developing migration law and critiquing existing policies and practices Migration and refugee law is also analysed through the lens of Australian and international human rights law and conventions Immigration is expected to be one of the most important issues facing Australia this century Informed debate will produce outcomes Refugees Jane McAdam, 2014-09-01 If you listen to some politicians and voices in the media you might well believe that asylum seekers are illegal You might think that they should wait their turn in the so called gueue You might think that they pose a potential threat to our national security and that the government is right to keep them from our shores Or you might take a humanitarian stance believing that drastic border protection policies though harsh in effect are necessary to deter asylum seekers from endangering their lives on risky boat journeys to Australia However logical these conclusions might seem the problem is that they are based on widespread misunderstandings about why and how people seek asylum and what Australia s international legal obligations are This book rejects spin and panic to provide a straightforward and balanced account of Australia s asylum policies in light of international law Written for a general audience it explains who asylum seekers and refugees are what the law is and what policies like offshore processing mandatory detention and turning back boats mean in practice Using real life examples this book reminds us of the human impact of Australia s policies Refugee Law in Australia Roz Germov, Francesco Motta, 2003 In this comprehensive overview and critical analysis of refugee status law in Australia the authors explain how the United Nations Convention has been applied and set this area of law in its political and historical context

Immigration and Refugee Law in Australia Mary Crock,1998 This text provides a comprehensive account of the laws and policies governing immigration and refugee law in Australia Core to the work is its thorough analysis of judge and tribunal made laws that supplement and contextualise the laws made by parliament and implemented by the immigration bureaucracy Immigration and Refugee Law in Australia highlights fundamental issues raised by immigration control in this country and the relationship between immigration and Australia s perceived social and economic needs These issues are the differential treatment of the non citizen or alien as other in the Australian polity and the complex role played by the judiciary in balancing the national interests with the human rights of the individuals affected by our laws This goes to the very heart of how we define the Australian nation

Responsibility Sharing in International Refugee Law Elizabeth Mavropoulou,2025-09-25 Achieving a more fair and equitable sharing of refugee protection responsibilities between states has been a perennial challenge of the global refugee regime The Refugee Convention did not codify a legal obligation of responsibility sharing and as a result any assistance to refugee host states remains voluntary This responsibility sharing gap has in turn negatively impacted on the quality of refugee protection and on interstate relations by exacerbating existing inequalities undermining the fairness of the international refugee law regime This book offers a pragmatic yet principled solution to the responsibility sharing gap It puts down a detailed proposal for the long resisted UN Protocol on Responsibility Sharing which would codify a light package of responsibility sharing obligations by requiring states to contribute to refugee protection and solutions under a framework of common but differentiated responsibilities based on capabilities Building on the Global Compact on Refugees and drawing inspiration from international climate change law the book makes a compelling case for further multilateral law making

Seeking Asylum Alone Mary Crock, 2006

Unaccompanied and separated children continue to be caught up in programs to deflect unauthorised Australian boat

arrivals to offshore processing centres If such children do make it to Australia the processes for identifying children travelling alone are inadequate with too much reliance placed on the self identification of such children No child victim of trafficking has been identified in Australia since 1994 Australia s refugee status determination system was established with adult asylum seekers as the norm Children face obvious disadvantage in both articulating their story and in being heard At the crucial first point of contact with authorities children are required to articulate their need for protection without either an advisor or an effective guardian Case studies of children within the asylum process also suggest that immigration officials and officials at appellate level have been poorly trained and have lacked the skills to deal with child asylum seekers with appropriate sensitivity Another barrier faced by these children is legal questions remain as to how well the international definition of refugee has been read to accommodate the particular experiences of children It is hoped that this report will encourage Australian officials to think seriously about children as refugees in their own right most particularly when the children are travelling alone This Report was funded by the MacArthur Foundation Chicago the Australian Research Council and the Myer Foundation Also available Seeking Asylum Alone A Comparative Study Unaccompanied and Separated Children and Refugee Protection in Australia the UK and the US by Jacqueline Bhabha and Mary Crock The Child in International Refugee Law Jason M.
