**Gender Violence in Ecofeminist Perspective** Gwen Hunnicutt, 2019-09-23 This book aims to begin an eco centered eco feminist informed discussion about the ways in which our relationship to nature is bound up with gender patriarchy and violence Ecofeminist scholars study the interconnections between gendered relationships of domination among humans between humans and between humans nonhumans and the earth It is in this ideological and structural tangle between humans and the environment that a deeper understanding of gender violence is possible Ecofeminism offers analytical possibilities for understanding a logic of domination which sustain a whole host of problems including the interrelated oppressions of gender violence and exploitation of the more than human life world In this book Gwen Hunnicutt brings into dialog ecofeminism and gender violence Ideological components such as speciesism and the belief that the earth and its nonhuman inhabitants are ours to exploit inform a host of other social practices including interpersonal violence A portion of this book is devoted to exploring the ways in which patriarchy is foregrounded by another hierarchy human domination over nature Thus gender violence stems from a logic of domination that is built on the domination of nature and the domination of the Other as nature As this blueprint of oppression repeats itself where there are vectors of difference the chapters ultimately connect these oppressions by showing the inextricable bind of violence against humans and the more than human life world This book will serve as a resource for scholars activists and students in sociology gender violence and interdisciplinary violence studies critical animal studies environmental studies and feminist and ecofeminist studies **It's**

**El Rodeo** Charles Walter Simpson, 1925      **The Cowboy's Last Rodeo** Jeannie Watt, 2018-09-11

Shane Marvell's career as a rodeo rider is ending far too soon. He doesn't have a plan B, so during his last season, he's all in, determined to win as much prize money as possible, even if it means riding injured and taking more risks than he should. Ella Etxeberri has always played it safe, so when her life still takes a bad turn despite her caution, she wonders if it isn't time to see what she's been missing. While researching risk behaviors in rodeo riders, she meets Shane Marvell, a cowboy who merits additional study of the personal variety. Just as Ella is hitting the point to embrace risk, Shane is pulling back. He knows Ella's all in, approach is born of curiosity and whim. He's not what she wants forever, and perhaps Ella is one risk he can't allow himself to take.

**Canine Condition** Alex Vardamis, 2006-11

As we join the mongrel Dingus on his search for Seaman Scannon, the legendary Newfoundland dog who led the Lewis and Clark Expedition across the continent, we meet the dogs of Hemingway, Steinbeck, Gertrude Stein, O'Neill, and other celebrated American writers. Immensely readable, often hilarious, this is true sustenance for the mature dog lover and the lover of literature.

**Extraordinary Sportswomen** Susanna Hedenborg, Gertrud Pfister, 2019-10-23

As in many other fields, in sports too, women were latecomers and considered as the other sex at least until the twenty-first century. When sport developed in its modern forms towards the second half of the nineteenth century, women were, and to a certain degree still are, considered too weak to participate in strenuous physical activities and were thus excluded from various sports competitions and events. Although they gradually gained access to all sports, competitive sport was, and is still today, one of the few areas in modern societies with strict gender segregation. In most sports, men do not compete against women, and playing sport is always doing gender. Yet in many epochs and in many regions of the world, there were female rebels who did not comply with the ideals, norms, and rules that contributed to women's marginalization. Who were these women? What were their aims and motivations? Which strategies did they apply, and how did they fight and win their battles against the gender order of their time? The chapters were originally published as a special issue of *Sport in Society*.

**Dislocating the Frontier** Deborah Bird Rose, Richard Davis, 2006-03-01

The frontier is one of the most pervasive concepts underlying the production of national identity in Australia. Recently, it has become a highly contested domain in which visions of nationhood are argued out through analysis of frontier conflict. **DISLOCATING THE FRONTIER** departs from this contestation and takes a critical approach to the frontier imagination in Australia. The authors of this book work with frontier theory in comparative and unsettling modes. The essays reveal diverse aspects of frontier images and dreams as manifested in performance, decolonising domains, language, and cross-cultural encounters.

*Black Rodeo in the Texas Gulf Coast Region* Demetrius W. Pearson, 2021-05-11 *Black Rodeo in the Texas Gulf Coast Region* Charcoal in the Ashes provides an in depth sociocultural and historical analysis of the genesis and contemporary state of affairs regarding African American rodeo cowboys in southeast Texas whose ancestors were instrumental in the development of the most celebrated livestock management industry in the world The author painstakingly chronicles the origin of the Texas cattle industry from its Mexican roots to Austin s Colony better known as the George Plantation Ranch where African Americans were intimately involved in the livestock management industry since its inception Although enslaved before during and after the Republic of Texas was established they were early stakeholders in the expansion of the western frontier and an indispensable source of labor that facilitated the burgeoning cattle industry Yet as the author maintains American history wantonly trivialized marginalized and blatantly omitted their contributions This book sheds light on these early cowboys and their descendants who have participated in America s most prominent prole sport with little to no media exposure The author dubbed them Shadow Riders of the Subterranean Circuit and even though American sports are integrated African American rodeo cowboys may be metaphorically seen as bits of charcoal spread among ashes
