Developments in garden art cannot be isolated from the social changes upon which they either depend or have some bearing Bourgeois and Aristocratic Cultural Encounters in Garden Art 1550-1850 offers an unparalleled opportunity to discover how complex relationships between bourgeois and aristocrats have led to developments in garden art from the Renaissance into the Industrial Revolution irrespective of stylistic differences These essays show how garden creation has contributed to the blurring of social boundaries and to the ongoing redefinition of the bourgeoisie and the aristocracy Also illustrated is the

aggressive use of gardens by bourgeois in more or less successful attempts at subverting existing social hierarchies in renaissance Genoa and eighteenth century Bristol England as well as the opposite as demonstrated by the king of France Louis XIV who claimed to rule the arts but imitated the curieux fleuristes a group of amateurs from diverse strata of French society Essays in this volume explore this complex framework of relationships in diverse settings in Britain France Biedermeier Vienna and renaissance Genoa The volume confirms that gardens were objects of conspicuous consumption but also challenges the theories of consumption set forth by Thorstein Veblen and Pierre Bourdieu and explores the contributions of gardens to major cultural changes like the rise of public opinion gender and family relationships and capitalism Garden history then informs many of the debates of contemporary cultural history ranging from rural management practices in early seventeenth century France to the development of a sense of British pride at the expansive Vauxhall Gardens favored equally by the legendary Frederick Prince of Wales and by the teeming London masses This volume amply demonstrates the varied and extensive contributions of garden creation to cultural exchange between 1550 and 1850 Publisher s description

The Flowering of the Landscape Garden Mark Laird,1999-03-23 Mark Laird offers a wealth of visual and literary materials to revolutionize our understanding of the English landscape garden as a powerful cultural expression *Vernacular Architecture Newsletter* ,2001

Capability Brown, Royal Gardener Jonathan Finch,Jan Woudstra,2020-10-26 Lancelot Capability Brown was one of the most influential landscape designers of the eighteenth century at a time when Britain was changing radically from an agrarian to an industrial and colonial nation whilst Europe was periodically convulsed by war and revolution The extent and nature of his influence are however fiercely debated Brown worked at hundreds of important sites across England and his name became synonymous with the English Garden style which was copied across Northern Europe and entranced Catherine

the Great who remodelled her landscapes in St Petersburg to reflect the new style He was f ted in his time and recognised by the Crown but Brown s style was readily copied over his later life and particularly after his death Arguably this ubiquity led to the denigration of his achievements and even his character particularly by the agents of the Picturesque The lack of any personal primary material from Brown forcing scholars to rely on his landscapes contracts and bank accounts has hindered attempts to provide a rounded and credible account of the man and his works However by exploring his team of associates and his role as Royal Gardener new light can be thrown on the man his landscapes and his landscape legacy Bringing together a number of perspectives from across Northern Europe Capability Brown Royal Gardener explores the lasting international impact of Brown With Brown s position as Royal Gardener at its heart this book explores for the first time his business methods working methods and European influence It assesses how crucially Brown s work practices placed him within the world of nurserymen and landscape designers and how his business practices and long term relationships with draughtsmen and designers allowed him to manage a huge number of projects and a substantial financial turnover This in turn allowed him to work in a way that promoted and advanced his style of landscape Edited by Professor Jonathan Finch University of York and Dr Jan Woudstra University of Sheffield and with a varied range of engaging contributors drawn internationally from archaeology art history history and landscape architecture Capability Brown Royal Gardener weaves together strands from across a broad range of disciplinary interests It makes an important contribution to the scholarly discussion of Brown s work the work of his collaborators and legacy in the UK and across Northern Europe Relevant to students and academics at all levels this volume throws new light on Capability Brown and his impact on the business of place making in Northern Europe 1995 Massimo Mastrogregori, 2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors
